Hutchings, 2020 The book shows that nationalist topoi inevitably have anti transnational implications Vlad Strukov and Lara Ryazanova Clarke look at Russian media ecology from the outside from Latvia and the United Kingdom media ecology Strukov's contribution conversely elaborates the Russo national centrality of the international media outlet of the Riga news portal Meduza which he calls transnational Russo centrism Dirk Uffmann Zeitschrift f r Slavische Philologie **Guests in the House** Mats Roslund, 2007-09-30 Mats Roslund discusses the presence of Slavic visitors in the area corresponding to modern Sweden during the period 900 1300 AD Ethnic and cultural identity are seen through the reproduction of a Slav style in every day pottery The interpretation is preceded by an introduction to Slav archaeology and cultural identity expressed in material culture The focus is on a pottery type called Baltic ware Baltic ware has traditionally been regarded as a purely Slavic product reaching Scandinavia through trade and free moving artisans or as a result of co operation between Slavic and Scandinavian potters The aim of the book is to capture the dynamics in the interaction to distinguish regional differences between the two traditions and present a contextual interpretation Virginia Woolf and the Russian Point of View R. Rubenstein, 2009-09-14 This book brings together Virginia Woolf's essays and book reviews on Russian literature her unpublished reading notes on Tolstoy Dostoevsky Chekhov and Turgenev and new and insightful scholarly commentary concerning her response to each of the major Russian writers **Treny** Jan Kochanowski, 2017-12-02 Renaissance artists and poets readily commemorated the lives of the great but rarely mourned a child who could not even claim noble birth Yet the sixteenth century masterpiece Treny stems from the Polish poet Jan Kochanowski's intense grief over the death of his little daughter Orszula a delightful radiant extraordinary child who died before she was three The laments stand as Kochanowski's crowning achievement and the first Polish work to equal the great poems of western Europe In a cycle by turn reflective despairing and finally hesitantly accepting a father evokes the unfulfilled promise of a life tragically cut short The work's disarming simplicity and enduring passion supported by an intellectually impressive structure are fully realized in translation by Adam Czerniawski the distinguished contemporary Polish poet The English translation is accompanied by the original Polish text edited by Renaissance scholar Piotr Wilczek and with a foreword by Donald Davie This important edition

will prove of value to scholars and teachers of Slavonic literature and to all lovers of poetry

Creativity and Development R. Keith Sawyer, Vera John-Steiner, Seana Moran, Robert J. Sternberg, David Henry Feldman, Howard Gardner, Jeanne Nakamura, Mihaly Csikszentmihalyi, 2003-09-04 What is creativity and where does it come from Creativity and Development explores the fascinating connections and tensions between creativity research and developmental psychology two fields that have largely progressed independently of each other until now In this book scholars influential in both fields explore the emergence of new ideas and the development of the people and situations that bring them to fruition The uniquely collaborative nature of Oxford's Counterpoints series allows them to engage in a dialogue addressing the key issues and potential benefits of exploring the connections between creativity and development Creativity and Development is based on the observation that both creativity and development are processes that occur in complex systems in which later stages or changes emerge from the prior state of the system In the 1970s and 1980s creativity researchers shifted their focus from personality traits to cognitive and social processes and the co authors of this volume are some of the most influential figures in this shift The central focus on system processes results in three related volume themes how the outcomes of creativity and development emerge from dynamical processes the interrelation between individual processes and social processes and the role of mediating artifacts and domains in developmental and creative processes The chapters touch on a wide range of important topics with the authors drawing on their decades of research into creativity and development Readers will learn about the creativity of children's play the creative aspects of children's thinking the creative processes of scientists the role of education and teaching in creative development and the role of multiple intelligences in both creativity and development The final chapter is an important dialogue between the authors who engage in a roundtable discussion and explore key questions facing contemporary researchers such as Does society suppress children's creativity Are creativity and development specific to an intelligence or a domain What role do social and cultural contexts play in creativity and development Creativity and Development presents a powerful argument that both creativity scholars and developmental psychologists will benefit by becoming more familiar with each other's work
