The Monastic Gatehouse:

The Monastic Gatehouse and Other Types of Portal of Medieval Religious Houses Roland William Morant, 1995 A gazetteer of all surviving monastic gatehouses in Britain including fragmentary remains Morant also discusses the architectural components of the gatehouse and investigates their position structure and function **Architectural History of the Conventual Buildings of the Monastery of Christ Church in Canterbury** Robert Willis, 1869 **The Architectural History of the Conventual Buildings of the Monastery of Christ Church in Canterbury ...** Robert Willis (Jacksonian Professor of Natural and Experimental Philosophy in the University of Cambridge.), 1869 **The Canons of Our Fathers** Bentley Layton, 2014-09 This book is the first publication of a very early set of Christian monastic rules from Roman Egypt accompanied by four preliminary chapters discussing their historical and social context and their character as rules These rules were found quoted in the writings of the great Egyptian monastic leader Shenoute **The Dissolution of the Monasteries** Joyce Youings, 2021-07-25 Originally published in 1971 this book begins with the assumption that the Dissolution of the Monasteries was neither an integral nor an essential part of the English reformation This book pursues the story chronologically and thus helps students re discover what contemporaries knew was happening at each successive stage An important part of this process consists in watching with the help of a selection of surviving records how the Court of Augmentation went to work not only centrally but in the field The part played by Thomas Cromwell in both the devising and the carrying out of the Dissolution is reassessed and particular attention is paid to the chronological relation between his career and the early stages of the dispersal of the crown's new resources among the King's subjects **Cistercian Architecture and Medieval Society** Maximilian Sternberg, 2013-08-15 In *Cistercian Architecture and Medieval Society* Maximilian Sternberg offers an account of the social functions of the built environment in medieval monasticism Few medieval monuments hold so privileged a place in the modern imagination as Cistercian abbeys yet Sternberg suggests it is precisely our own peculiarly modern fascination with the idea of Cistercian aesthetics that has hindered a full view of the complex social meanings of their architecture This book draws attention instead to the practical and symbolic means by which architecture helped the Cistercians to negotiate the dense web of relations that in actuality bound them to other spheres of medieval society It explores the permeability of monastic boundaries and considers their effectiveness in reconciling a simultaneous need for interaction and distance between monastic communities and these other social spheres Thomas Merton and the Monastic Vision Lawrence Cunningham, 1999 Cunningham theology U of Notre Dame explores Merton's monastic life and his subsequent growth into a modern day spiritual master Starting from Merton's entrance into the Abbey of Gethsemani in 1941 he highlights the development of Merton's monastic life against the cultural background of the American experience and the vast upheavals in the Roman Catholic Church thus showing how his writings and continuing influence can only be understood against the background of his contemplative experience as a Trappist monk Father Timothy

Kelley the current abbot of the Abbey of Gethsemani and a former novice under Merton provides a foreword Annotation copyrighted by Book News Inc Portland OR **Monasteries and the Care of Souls in Late Antique Christianity** Paul C. Dilley, 2017-09-07 In *Monasteries and the Care of Souls in Late Antique Christianity* Paul C Dilley explores the personal practices and group rituals through which the thoughts of monastic disciples were monitored and trained to purify the mind and help them achieve salvation Dilley draws widely on the interdisciplinary field of cognitive studies especially anthropology in his analysis of key monastic cognitive disciplines such as meditation on scripture the fear of God and prayer In addition various rituals distinctive to communal monasticism including entrance procedures the commemoration of founders and collective repentance are given their first extended analysis Participants engaged in heart work on their thoughts and emotions which were understood to reflect the community's spiritual state This book will be of interest to scholars of early Christianity and the ancient world more generally for its detailed description of communal monastic culture and its innovative methodology **Durham Priory 1400-1450** R. B. Dobson, 2005-11-24 In the course of this work Dr Dobson is able to throw new light on the universal aspirations and preoccupations of medieval monasticism He reconstructs life in Durham in the century before its final dissolution and concludes that it was an example of comparatively successful conservatism during a period in English history characterized by institutional resistance to social and intellectual change
