The Musical Work Reality or Invention?

Edited by Michael Talbot

The Musical Work Invention Or Reality

Lisa Colton

The Musical Work Invention Or Reality:

The Musical Work Michael Talbot, 2000-01-01 Like literature and art music has works But not every piece of music is called a work and not every musical performance is made up of works The complexities of this situation are explored in these essays which examine a broad swathe of western music From plainsong to the symphony from Duke Ellington to the Beatles this is at root an investigation into how our minds parcel up the music that we create and hear **Ferruccio Busoni and the Ontology of the Musical Work** Erinn Elizabeth Knyt, 2010 Ferruccio Busoni's conception of the musical work derives from his multiple roles as performer aesthetician editor composer arranger and intellectual Drawing on unpublished scores manuscripts sketches and documents from the Staatsbibliothek in Berlin concert programs from a private collection in Berkeley acoustic recordings information about Busoni's intellectual interests gleaned from an auction catalogue featuring the contents of his extensive library and the published aesthetic writings letters and compositions the present study offers the first comprehensive account of Busoni's work concept By establishing connections between his ideas and his musical practice it explores and clarifies the reasoning behind his idiosyncratic compositional style a style characterized by a blurring of boundaries between original and borrowed material Polystylistic mixtures of the old and new and a distinctive performance style in which Busoni creatively altered and embellished existing texts exemplify his practice in an age in thrall to *Werktreue* when originality of idea was prized above all else *Virtuosity and the Musical Work* Jim Samson, 2007-04-23 This book is about three sets of études by Liszt the *Étude en douze exercices* 1826 its reworking as *Douzes grandes études* 1837 and their reworking as *Douzes études d'exécution transcendante* 1851 At the same time it is a book about nineteenth century instrumental music in general in that the three works invite the exploration of features characteristic of the early Romantic era in music These include a composer performer culture the concept of virtuosity the significance of recomposition music and the poetic and the consolidation of a musical work concept A central concern is to illuminate the relationship between the work concept and a performance and genre orientated musical culture At the same time the book reflects on how we might make judgements of the *Symphonic Poem* *Mazeppa* based on the fourth étude and of Liszt's music in general **The Musical Work of Nadia Boulanger** Jeanice Brooks, 2013-04-25 A fresh look at the career of Nadia Boulanger among the most influential musical figures of the entire twentieth century **Guillaume de Machaut** Elizabeth Eva Leach, 2014-06-12 At once a royal secretary a poet and a composer Guillaume de Machaut was one of the most protean and creative figures of the late Middle Ages Rather than focus on a single strand of his remarkable career Elizabeth Eva Leach gives us a book that encompasses all aspects of his work illuminating it in a distinctively interdisciplinary light The author provides a comprehensive picture of Machaut's artistry reviews the documentary evidence about his life charts the different agendas pursued by modern scholarly disciplines in their rediscovery and use of specific parts of his output and delineates Machaut's own poetic and material presentation of his authorial persona Leach treats

Machaut's central poetic themes of hope, fortune and death integrating the aspect of Machaut's multimedia art that differentiates him from his contemporaries' treatment of similar thematic issues: music. In restoring the centrality of music in Machaut's poetics, arguing that his words cannot be truly understood or appreciated without the additional layers of meaning created in their musicalization, Leach makes a compelling argument that musical literary performance occupied a special place in the courts of fourteenth-century France.

Music Theatre and the Holy Roman Empire Austin Glatthorn, 2022-07-07
Packed full of new archival evidence that reveals the interconnected world of music theatre during the Classical era, this interdisciplinary study investigates key locations, genres, music and musicians. Austin Glatthorn explores the extent to which the Holy Roman Empire delineated and networked a cultural entity that found expression through music for the German stage. He maps an extensive network of Central European theatres, reconstructs the repertoire they shared and explores how print media, personal correspondence and their dissemination shaped and regulated this music. He then investigates the development of German melodrama and examines how articulations of the Holy Roman Empire on the musical stage expressed imperial belonging. Glatthorn engages with the most recent historical interpretations of the Holy Roman Empire and offers quantitative empirical analysis of repertoire supported by conventional close readings to illustrate a shared culture of music theatre that transcended traditional boundaries in music scholarship.

Angel Song: Medieval English Music in History Lisa Colton, 2016-12-08
Although medieval English music has been relatively neglected in comparison with repertoire from France and Italy, there are few classical musicians today who have not listened to the thirteenth-century song *Sumer is Icumen in* or read of the achievements and fame of fifteenth-century composer John Dunstaple. Similarly, the identification of a distinctively English musical style, sometimes understood as the *contenance angloise*, has been made on numerous occasions by writers exploring the extent to which English ideas influenced polyphonic composition abroad.

Angel Song: Medieval English Music in History examines the ways in which the standard narratives of English musical history have been crafted from the Middle Ages to the present. Colton challenges the way in which the concept of a canon of English music has been built around a handful of pieces, composers and practices, each of which offers opportunities for a reappraisal of English musical and devotional cultures between 1250 and 1460.

Concepts of Music and Copyright Andreas Rahmatian, 2015-10-30
Copyright specialists have often focused on the exploitation of copyright of music and on infringement, but not on the question of how copyright conceptualises music. This highly topical volume brings together specialists in music, musicology and copyright law, providing a genuinely interdisciplinary research approach. It compares and contrasts the concepts of copyright law with those of music and musical performance. Several tensions emerge between the ideas of music as a living art and of the musical work as a basis for copyright protection. The expert contributors discuss the notions of the musical work, performance, originality, authorship in music and in copyright, and co-ownership from the disciplinary perspectives of music, musicology and copyright law. The book also examines the role of the Musicians' Union in the evolution

of performers rights in UK copyright law and in an empirical study the transaction costs theory for notice and takedown regimes in relation to songs uploaded on YouTube This unique study offers an interdisciplinary perspective for academics policymakers and legal practitioners seeking a state of the art understanding of music and copyright law

The Rock Canon Carys Wyn Jones, 2017-07-05 Canons are central to our understanding of our culture and yet in the last thirty years there has been much conflict and uncertainty created by the idea of the canon In essence the canon comprises the works and artists that are widely accepted to be the greatest in their field Yet such an apparently simple construct embodies a complicated web of values and mechanisms Canons are also inherently elitist however Carys Wyn Jones here explores the emerging reflections of values terms and mechanisms from the canons of Western literature and classical music in the reception of rock music Jones examines the concept of the canon as theorized by scholars in the fields of literary criticism and musicology before moving on to search for these canonical facets in the reception of rock music as represented by ten albums Bob Dylan's Highway 61 Revisited The Beach Boys Pet Sounds The Beatles Revolver The Velvet Underground's The Velvet Underground Nico Van Morrison's Astral Weeks Marvin Gaye's What's Going On The Rolling Stones Exile on Main St Patti Smith's Horses The Sex Pistols Never Mind the Bollocks Here's the Sex Pistols and Nirvana's Nevermind Jones concludes that in the reception of rock music we are not only trying to organize the past but also mediate the present and any canon of rock music must now negotiate a far more pluralized culture and possibly accept a greater degree of change than has been evident in the canons of literature and classical music in the last two centuries

Engaging Haydn Mary Hunter, Richard Will, 2012-07-12 Haydn is enjoying renewed appreciation as one of the towering figures of Western music history This lively collection builds upon this resurgence of interest with chapters exploring the nature of Haydn's invention and the cultural forces that he both absorbed and helped to shape and express The volume addresses Haydn's celebrated instrumental pieces the epoch making Creation and many lesser known but superb vocal works including the Masses the English canzonettas and Scottish songs and the operas L'isola disabitata and L'anima del filosofo Topics range from Haydn's rondo forms to his violin fingerings from his interpretation of the Credo to his reading of Ovid's Metamorphoses from his involvement with national music to his influence on the emerging concept of the musical work Haydn emerges as an engaged artist in every sense of the term as remarkable for his critical response to the world around him as for his innovations in musical composition

Discover tales of courage and bravery in is empowering ebook, **The Musical Work Invention Or Reality** . In a downloadable PDF format (*), this collection inspires and motivates. Download now to witness the indomitable spirit of those who dared to be brave.
