50 Popular Beliefs That People Think Are True Guy P. Harrison, 2012-01-03 What would it take to create a world in which fantasy is not confused for fact and public policy is based on objective reality asks Neil deGrasse Tyson science popularizer and author of *Astrophysics for People in a Hurry* I don't know for sure But a good place to start would be for everyone on earth to read this book Maybe you know someone who swears by the reliability of psychics or who is in regular contact with angels Or perhaps you're trying to find a nice way of dissuading someone from wasting money on a

homeopathy cure Or you met someone at a party who insisted the Holocaust never happened or that no one ever walked on the moon How do you find a gently persuasive way of steering people away from unfounded beliefs bogus cures conspiracy theories and the like This down to earth entertaining exploration of commonly held extraordinary claims will help you set the record straight The author a veteran journalist has not only surveyed a vast body of literature but has also interviewed leading scientists explored the most haunted house in America frolicked in the inviting waters of the Bermuda Triangle and even talked to a contrite Roswell alien He is not out simply to debunk unfounded beliefs Wherever possible he presents alternative scientific explanations which in most cases are even more fascinating than the wildest speculation For example stories about UFOs and alien abductions lack good evidence but science gives us plenty of reasons to keep exploring outer space for evidence that life exists elsewhere in the vast universe The proof for Bigfoot or the Loch Ness Monster may be nonexistent but scientists are regularly discovering new species some of which are truly stranger than fiction Stressing the excitement of scientific discovery and the legitimate mysteries and wonder inherent in reality this book invites readers to share the joys of rational thinking and the skeptical approach to evaluating our extraordinary world

Relics of the Christ

Joe Nickell, 2007-03-16 Religious relics defined as either portions of or objects connected with the body of a saint or other holy person are among the most revered items in the world Christian relics such as the Holy Grail the True Cross and the Lance of Longinus are also the source of limitless controversy Such items have incited people to bloodshed and some say have been a source of miracles Relics inspire fear and hope among the faithful and yet are a perennial target for skeptics both secular and Christian To research the authenticity of numerous Christian relics Joe Nickell takes a scientific approach to a field of study all too often tainted by premature conclusions In this volume Nickell investigates such renowned relics as the Shroud of Turin the multiple heads of John the Baptist and the supposedly incorruptible corpses of saints first examining the available evidence and documented history of each item From accounts of true believers to the testimony of the relics alleged fabricators Nickell then presents all sides of each story allowing the evidence to speak for itself For each relic Nickell evaluates both the corroborating and contradictory bodies of evidence and explores whether the relic and attributed miracles can be reconstructed In addition to his own experiments Nickell presents findings from the world's top scientists and historians regarding these controversial objects of reverence and in explaining the circumstances under which each case was examined Radiocarbon dating and tests to determine the validity of substances such as blood or patina indicate a variety of possible origins Nickell even reveals some of the techniques used to create archaeological forgeries and explains how investigators have exposed them Each relic is a mystery to be solved guided by the maxim extraordinary claims require extraordinary proof Nickell seeks only the truth

Popobawa Katrina Daly Thompson, 2017-02-06 Bravely takes on not the legendary shapeshifting creature spoken about sporadically on the Swahili coast of Tanzania but rather popobawa discourse The Journal of Modern African Studies Since the 1960s people on the islands off the coast of Tanzania have talked about being attacked by a mysterious creature called Popobawa a shapeshifter often described as having an enormous penis Popobawa's recurring attacks have become a popular subject for stories conversation gossip and humor that has spread far beyond East Africa Katrina Daly Thompson shows that talk about Popobawa becomes a tool that Swahili speakers use for various creative purposes such as subverting gender segregation advertising homosexuality or discussing female sexuality By situating Popobawa discourse within the social and cultural world of the Swahili Coast as well as the wider world of global popular culture Thompson demonstrates that uses of this legend are more diverse and complex than previously thought and provides insight into how women and men communicate in a place where taboo prohibition and restraint remain powerful

cultural forces While Popobawa surely belong to one of the most interesting African legends Katrina Daly Thompson instead of asking where the story originated asks about how people talk about this trickster and what these conversations really mean Claudia Boehme University of Trier A well researched and well documented addition to the body of knowledge on local legends and their global manifestations Journal of Folklore Research Thompson s movement between local and global discourses demonstrates the importance of a phenomenon that could otherwise be viewed as exotic ethnographic trivia while her theoretical orientation makes the text as relevant to linguistic anthropologists as to African studies scholars African Studies Review *Kentucky Legends and Lore* Alan Brown, 2021 Kentucky is known primarily for horse racing bourbon and fried chicken but the Dark and Bloody Ground has a mysterious side as well Kentuckians talk about their own Hillbilly Beast believed to have frightened campers at Mammoth Cave National Park The gnarled and twisted Witches Tree is a favorite on Louisville ghost tours Kentucky s UFO incidents like Thomas Mantell s mysterious plane crash the Hopkinsville alien attack and the Paintsville train UFO crash are as puzzling and frightening now as they were when they happened Folklore writer Alan Brown chronicles these strange stories and others that are very much a part of the unique culture of Kentucky
