Vital Strife Benjamin C. Parris, 2022-08-15 *Vital Strife* examines the close yet puzzling relationship between sleep and ethical care in early modernity The plays poems and philosophical essays at the heart of this book by Jasper Heywood William Shakespeare Edmund Spenser John Milton and Margaret Cavendish explore the unconscious motions of corporeal life and the drowsy forms of sentience at the boundaries of human thought and intentionality Benjamin Parris shows how these writers although trained under the Renaissance humanist paradigm of attentive care begin to dissolve the humanist coupling of virtue with vigilance by giving credence to the vital power of sleep In contrast to humanist thinkers who equated sleep with carelessness these writers draw on the ancient Stoic principle of *oikeiosis* the process of orienting the living being toward its proper objects of care beginning with itself in asserting the value of sleep while underscoring insomnia's threat to the ethical flourishing of persons and polity alike Parris offers an important revaluation of Stoic philosophy which has too often been misconstrued as renouncing feeling and sympathetic connection with others With its striking new account of the reception of Stoicism and attitudes toward sleep and sleeplessness in early modern thought *Vital Strife* reveals the period's mounting concern with the regenerative nature of physical life and its elaboration of a newfound ethics of care

Old and New Methods of Initiation Rudolf Steiner, 2025-05-26 What are the key differences between the contemporary spiritual path and that of the ancient mysteries With remarkable clarity and insight Rudolf Steiner throws new light on the contrasting methods of initiation in the ancient and modern day The old mysteries worked to transform the physical body the brain on the one hand and the rest of the organism on the other whereas modern initiation transforms the element of spirit and soul strengthening it with regard to the thought aspect on the one hand and the will aspect on the other These wide ranging lectures additionally cover topics that include the working of Lucifer and

Ahriman in the human being the relationship of the individual to the Folk Spirit the development of religious life particularly with reference to the pagan Old Testament streams and the role of Imagination Inspiration and Intuition in modern life The final lectures examine the impulse of freedom behind the work of Goethe and Schiller drawing connections with Shakespeare and the French Revolution An overarching theme is the significance of the transition between cultural epochs and the importance of freeing ourselves from the intellectualism of our age through the spiritual quality of Imaginative consciousness This new edition features an introduction by Margaret Jonas notes and an index Fourteen lectures Dornach Mannheim Breslau Jan March 1922 GA 210 **Freedom and Happiness in the truth and ways of Christ. Sermons** James Stratten, 1862 Jung, Irigaray, Individuation Frances Gray, 2007-11-23 This book outlines Plato's conception of the feminine as disorder and argues that this conception is found in Jung's notion of the anima feminine It then suggests that Luce Irigaray's work challenges the notion of the feminine as disorder
