Bertram A. Young

The Mirror Up To Nature:

Holding a Mirror up to Nature James Gilligan, David A.J. Richards, 2021-12-02 Shakespeare has been dubbed the greatest psychologist of all time This book seeks to prove that statement by comparing the playwright's fictional characters with real life examples of violent individuals from criminals to political actors For Gilligan and Richards the propensity to kill others even or especially when it results in the killer's own death is the most serious threat to the continued survival of humanity In this volume the authors show how humiliated men with their desire for retribution and revenge apocryphal violence and political religions justify and commit violence and how love and restorative justice can prevent violence Although our destructive power is far greater than anything that existed in his day Shakespeare has much to teach us about the psychological and cultural roots of all violence In this book the authors tell what Shakespeare shows through the stories of his characters what causes violence and what prevents it

The Mirror Up to Nature Bertram A. Young, 1982

Shakespeare the Actor and the Purposes of Playing Meredith Anne Skura, 1993 For the Renaissance all the world may have been a stage and all its people players but Shakespeare was also an actor on the literal stage Meredith Anne Skura asks what it meant to be an actor in Shakespeare's England and shows why a knowledge of actual theatrical practices is essential for understanding both Shakespeare's plays and the theatricality of everyday life in early modern England Despite the obvious differences between our theater and Shakespeare's sixteenth century testimony suggests that the experience of acting has not changed much over the centuries Beginning with a psychoanalytically informed account of acting today Skura shows how this intense and ambivalent experience appears not only in literal references to acting in Shakespearean drama but also in recurring narrative concerns details of language and dramatic strategies used to engage the audience Looking at the plays in the context of both public and private worlds outside the theater Skura rereads the canon to identify new configurations in the plays and new ways of understanding theatrical self consciousness in Renaissance England Rich in theatrical psychoanalytic biographical and historical insight this book will be invaluable to students of Shakespeare and instructive to all readers interested in the dynamics of performance

Going the Distance David R. Jarraway, 2003-01-01

This bold new theoretical study explores dissident subjectivity that is the struggle for unique authorial identity in American literary discourse that has existed according to David Jarraway since the Romantics From Emerson's Experience remarking upon the focal distance within the actual horizon of human life to Toni Morrison's Nobel Prize address sanctifying the artist's sophisticated privileged space American literature has continuously recognized a necessary distance the gap between culturally accepted ideas of selfhood and the intractable reality of the self's never completed construction in time Jarraway's fascinating examination of modernist poets shows that engaging with this artistic space or going the distance empowers writers and their readers to create and perceive identities that resist the frozen certainties of conventional gender sexual and social roles Employing this theory with grace and precision Jarraway ranges through the dissident process in Gertrude Stein

the cultural criticism of William Carlos Williams the deferred racialism of Langston Hughes the queer perversities of Frank O Hara and the spectral lesbian poetics of Elizabeth Bishop Bolstered further by insights from the pragmatism of William James through the cultural critique of Theodor Adorno to the queer theory of Judith Butler the author challenges his audience with politically engaged insistence on the life affirming potentialities of human subjectivity in literature His passionate conclusion demonstrates the liberating fluidity of self made possible by feminist chartings of modern identity s depths Lucidly composed theoretically sophisticated and up to the minute *Going the Distance* painstakingly recovers the dissident American subjective in modernist literary discourse within its fullest cultural context Jarraway s readings are a major contribution to poetry scholarship and to cultural studies that will provoke further investigations into the history of subjectivity in American literature as a whole

Shakespeare's Mirrors Edward Evans,2024-09-26 Clear mirrors and The Geneva Bible revolutionary innovations of the Elizabethan age inspired Shakespeare s drive towards a new purpose for drama Shakespeare reversed the conventional mirror metaphor for drama implying drama cannot reflect the substance of human nature and developed a method of characterization through metadrama self awareness and soliloquy to project St Paul s idea of conscience onto the Elizabethan stage This revolutionary method of characterization aesthetic existence beyond performance has long been sensed but remains frustratingly uncategorized Shakespeare s *Mirrors* charts the invention of a drama that staged the unstageable St Paul s metaphysical conception of human nature glimpsed through a looking glass darkly Chapters 4 and 6 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

On Qian Zhongshu's Conceptualization of Translation Chang, Chung-An,2025-10-14 This book brings new perspectives and insights to the discipline of translation studies at a time when Western theories dominate its main discourse By highlighting the significant contribution of Chinese scholar Qian Zhongshu which encompasses a theoretical probing of the process and product of translation in both China and the West the author demonstrates how Qian s reconceptualization of the concept of translation expands the discourse to include and integrate concepts from the history of translation in China The concept of *huajing* which is one of these cultural perspectives developed by Qian transcends the conventional view of translation as a linguistic transfer envisioning it instead as a dynamic realm where encounters with meaning between the textual worlds of China and the West can take place Through a meticulous analysis of Qian s profound though stylistically fragmentary commentaries the author reveals how his comparative vision creates connections by breaking down linguistic and cultural barriers challenging notions of untranslatability that often hinder cross cultural exchange and anticipating an inclusive and globalized understanding of translation so urgently needed today
