The Mountains Behind:

Behind the Mountains Edwidge Danticat, 2015-04-28 The series dedicated to the immigrant experience in modern America starts off with a moving novel of one family's struggles in Haiti and New York. It is election time in Haiti and bombs are going off in the capital city of Port au Prince. During a visit from her home in rural Haiti, Celiane Espérance and her mother are nearly killed. Looking at her country with new eyes, Celiane gains a fresh resolve to be reunited with her father in Brooklyn, New York. The harsh winter and concrete landscape of her new home are a shock to Celiane, who witnesses her parents struggle to earn a living, her brother's uneasy adjustment to American society, and her own encounters with learning difficulties and school violence. The excellence of the writing and the resilient outlook of both first-person fictions set a high standard for this series. *The Horn Book*. The author captures the color and texture of Haitian life as well as the heroine's adjustment to New York. While readers may want to hear more about her experiences in Brooklyn, they will appreciate the truthfulness of the family's struggle to reconnect. *Publishers Weekly*. The Geography Behind History William Gordon East, 1965 In this book, Professor East discusses the vital relationship between history and geographical conditions. Drawing examples from ancient times up to the present, he demonstrates that a study of history must include consideration of the physical conditions under which an event occurs and that the particular characteristics of this setting serve not only to localise but also to influence part at least of the action. Topographical position, climate, distribution of water and minerals, the placement of routes and towns, and ease or difficulty of movement between districts and countries are among the factors which the historian must take into account. *Book jacket*.
