Death and Memory in Early Medieval Britain Howard Williams, 2006-08-31 How were the dead remembered in early medieval Britain? Originally published in 2006 this innovative study demonstrates how perceptions of the past and the dead and hence social identities were constructed through mortuary practices and commemoration between c. 400-1100 AD. Drawing on archaeological evidence from across Britain including archaeological discoveries Howard Williams presents a fresh interpretation of the significance of portable artefacts, the body structures, monuments and landscapes in early medieval mortuary practices. He argues that materials and spaces were used in ritual performances that served as technologies of remembrance practices that created shared social memories intended to link past, present and future. Through the deployment of material culture early medieval societies were therefore selectively remembering and forgetting their ancestors and their history. Throwing light on an important aspect of medieval society this book is essential reading for archaeologists and historians with an interest in the early medieval period.

Mourning Animals Margo DeMello, 2016-08-01 We live more intimately with nonhuman animals than ever before in history. The change in the way we cohabitate with animals can be seen in the way we treat them when they die. There is an almost infinite variety of ways to help us cope with the loss of our nonhuman friends: from burial, cremation, and taxidermy to wearing or displaying the remains, ashes, fur, or other parts of our deceased animals in jewelry, tattoos, or other artwork to counselors who specialize in helping people mourn pets, to classes for veterinarians to tips to help the surviving animals who are grieving their animal friends, to pet psychics and memorial websites. But the reality is that these practices and related beliefs about animal souls or animal afterlife generally only extend with very few exceptions to certain kinds of animals: pets. Most animals in most cultures are not mourned, and the question of an animal afterlife is not contemplated at all. *Mourning Animals* investigates how we mourn animal deaths, which animals are grievable, and what the implications are for all animals.
