**Lands** Xena Mindhurst, AI, 2025-01-08 *Wealth Friendly Lands* offers a comprehensive exploration of how strategic geographical choices can significantly impact personal and business wealth creation in our interconnected global economy. The book systematically analyzes jurisdictions worldwide that have become attractive destinations for international capital and talent through their innovative policies and economic frameworks. Through a data-driven approach, it examines three crucial pillars: regulatory environments, immigration policies, and economic ecosystems that support financial growth. The book progresses logically from understanding wealth-friendly jurisdictions' characteristics, including tax policies and banking regulations, to exploring various immigration pathways for entrepreneurs and investors. It provides detailed comparisons of major financial centers and emerging markets, backed by concrete metrics such as ease of doing business rankings and economic freedom scores. The final section delves into practical infrastructure considerations, evaluating regions based on technological capabilities, educational resources, and access to skilled talent pools. What sets this guide apart is its methodical combination of theoretical knowledge and practical application, featuring decision-making frameworks and jurisdiction-specific analyses. It serves professionals and investors seeking to optimize their geographical positioning for wealth creation, offering actionable insights through comparative analyses, checklists, and real-world case studies. The content remains objective and current, acknowledging ongoing debates while maintaining focus on practical implications for readers considering international relocation or investment diversification.

*Creating Capacity and Capability: Embracing Advanced Technologies and Innovations for Sustainable Future in Building Education and Practice* Monty Sutrisna, Mostafa Babaeian Jelodar, Regan Potangaroa, Chinthaka Atapattu, Don Amila Sajeevan Samarasinghe, 2025-05-15 This three-volume book is the proceeding of the 46th Australasian Universities Building Education Association (AUBEA) 2023 Conference, which brings together papers on construction and built environment education and practice. This particular conference theme, *Creating Capacity and Capability: Embracing Technologies and Innovations for Sustainable Future in Building Education and Practice*, is closely related to a flagship national research programme funded by the Government of New Zealand, known as the CanConstructNZ research programme, aiming to balance the capacity and capability in the construction industry and the national pipeline of construction projects. The capacity and capability of our construction industry in fulfilling the construction needs of the whole nation are reflected in the national pipeline of construction projects and have long been recognised as one of the main challenges facing the construction sector. The practices and education of building and construction play an important role in determining the capacity and capability of the construction industry. Within the context of achieving a sustainable future and embracing advanced technologies to create capacity and capability in the construction sector, various concepts, research, and innovative development have emerged and taken place. This particular conference theme has facilitated more in-depth discourses and discussions on the latest ideas and innovation within the building and construction education and practice, not only from the Australasian region but also from the wider international community.
