photographs and drawings Louis P Nelson examines surviving buildings and archival records to write a social history of architecture Nelson begins with an overview of the architecture of the West African slave trade then moves to chapters framed around types of buildings and landscapes including the Jamaican plantation landscape and fortified houses to the architecture of free blacks He concludes with a consideration of Jamaican architecture in Britain By connecting the architecture of the Caribbean first to West Africa and then to Britain Nelson traces the flow of capital and makes explicit the material economic and political networks around the Atlantic

What the Slaves Ate Herbert C. Covey, Dwight Eissach, 2009-05-20 Carefully documenting African American slave foods this book reveals that slaves actively developed their own foodways their customs involving family and food The authors connect African foods and food preparation to the development during slavery of Southern cuisines having African influences including Cajun Creole and what later became known as soul food drawing on the recollections of ex slaves recorded by Works Progress Administration interviewers Valuable for its fascinating look into the very core of slave life this book makes a unique contribution to our knowledge of slave culture and of the complex power relations encoded in both owners manipulation of food as a method of slave control and slaves efforts to evade and undermine that control While a number of scholars have discussed slaves and their foods slave foodways remains a relatively unexplored topic The authors findings also augment existing knowledge about slave nutrition while documenting new information about slave diets

If We Must Die Eric Robert Taylor, 2009-03-01 *If We Must Die* examines nearly five hundred shipboard rebellions that occurred over the course of the entire slave trade directly challenging the prevailing thesis that such resistance was infrequent or insignificant As Eric Robert Taylor shows though most revolts were crushed quickly others raged on for hours days or weeks and occasionally the Africans captured the vessel and returned themselves to freedom In recounting these rebellions Taylor suggests that certain factors like geographic location the involvement of women and children and the timing of a shipboard revolt determined the difference between success and failure Taylor also explores issues like aid from other ships punishment of slave rebels and treatment of sailors captured by the Africans *If We Must Die* expands the historical view of slave resistance revealing a continuum of rebellions that spanned the Atlantic as well as the centuries These uprisings Taylor argues ultimately helped limit and end the traffic in enslaved Africans and also served as crucial predecessors to the many revolts that occurred subsequently on plantations throughout the Americas

Hicks, 2024-11-13 From the bustling ports of Lisbon to the

coastal inlets of the Bight of Benin to the vibrant waterways of Bahia Black mariners were integral to every space of the commercial South Atlantic Navigating this kaleidoscopic world required a remarkable cosmopolitanism the chameleonlike ability to adapt to new surroundings by developing sophisticated medicinal linguistic and navigational knowledge Mary E Hicks shows how Portuguese slaving ship captains harnessed and exploited this hybridity to expand their own traffic in human bondage At the same time she reveals how enslaved and free Black mariners capitalized on their shipboard positions and cosmopolitan expertise to participate in small scale commodity trading on the very coasts where they themselves had been traded as commodities reshaping societies and cultures on both sides of the Atlantic Indeed as Hicks argues the Bahian slave trade was ruthlessly effective because its uniquely decentralized structure so effectively incorporated the desires and financial strategies of the very people enslaved by it Yet taking advantage of such fraught economic opportunities ultimately enabled many enslaved Black mariners to purchase their freedom And in some cases they became independent transatlantic slave traders themselves Hicks thus explores the central paradox that defined the lives of the captive cosmopolitans and in doing so reveals a new history of South Atlantic slavery centered on subaltern commercial and cultural exchange Media

the past the author explores the literary and historical status and accounts of the ghost not for what they might tell us about these figures but for their significance for our constantly re invented re vivified re ghosted social world With chapters on haunted houses and castles slave ghosts the haunting airs of music the prehistoric origin of spirits Marxist spectres Freudian revenants and the ghosts in the machine Ghosts Landscapes and Social Memory adopts multi disciplinary methods for understanding the past the dead and social ghosts and the landscapes they appear in A sociology of haunting that illustrates how social landscapes have their genesis and perpetuation in haunting and the past this volume will appeal to sociologists and social theorists with interests in memory haunting and culture

Jump Sam C. Tenorio, 2024-04-23 Asks how we can better understand a politics of refusal Writing a new story of Black politics Jump emerges from the practice of enslaved Africans jumping overboard off their slavers ships Reading against the narrative that depoliticizes and denigrates the leaps of the enslaved as merely suicidal symptoms of chattel slavery and the Middle Passage Sam C Tenorio demonstrates how bringing these jumps to bear on the foundations of Black politics allows us to rethink a politics of refusal In a period of increasing political mobilization against police brutality and mass incarceration Jump attends to the layers of confinement that constitute the racial and gendered hierarchies of the antiblack world Centering radical acts too often relegated to the periphery of Black politics Tenorio proposes a Black anarchist politics of refusal that helps us to think dissent anew Tracing iterations of the jump through the carceral wake of the slave ship Tenorio explores the voyages of the Black Star Line in defiance of the bordered authority of the nation state the Watts Rebellion of 1965 against the property relation of ghettoization and Assata Shakur s abscondence from prison to Cuba Ultimately Tenorio argues that considering the jump as a progenitor of Black politics deepens and widens our conceptualization of the Black radical tradition and introduces a paradigm shifting attention to Black anarchism

Cultural Heritage and Slavery Stephan Conermann, Claudia Rauhut, Ulrike Schmieder, Michael Zeuske, 2023-11-20 In the recent cultural heritage boom community based and national identity projects are intertwined with interest in cultural tourism and sites of the memory of enslavement Questions of historical guilt and present responsibility have become a source of social conflict particularly in multicultural societies with an enslaving past This became apparent in the context of the Black Lives Matter movement in 2020 when statues of enslavers and colonizers were toppled controversial debates about streets and places named after them re ignited and the European Union apologized for slavery after the racist murder of George Floyd Related debates focus on museums on artworks acquired unjustly in societies under colonial rule the question of whether and how museums should narrate the hidden past of enslavement and colonialism including their own colonial origins with respect to narratives about presumed European supremacy and the need to establish new monuments for the enslaved their resistance and abolitionists of African descent In this volume we address this dissonant cultural heritage in Europe with a strong focus on the tangible remains of enslavement in the Atlantic space in the continent This may concern for instance the residences of royal noble and bourgeois enslavers
