Slavery Imperialism And Freedom Essays In English Radical Thought:

Main Currents in Caribbean Thought Gordon K. Lewis, 2004-01-01 Main Currents in Caribbean Thought probes deeply into the multicultural origins of Caribbean society defining and tracing the evolution of the distinctive ideology that has arisen from the region's unique historical mixture of peoples and beliefs Among the topics that noted scholar Gordon K Lewis covers are the sixteenth and seventeenth century beginnings of Caribbean thought pro and antislavery ideologies the growth of Antillean nationalist and anticolonialist thought during the nineteenth century and the development of the region's characteristic secret religious cults from imported religions and European thought Since its original publication in 1983 Main Currents in Caribbean Thought has remained one of the most ambitious works to date by a leader in modern Caribbean scholarship By looking into the Caribbean mind Lewis shows how European African and Asian ideas became creolized and Americanized creating an entirely new ideology that continues to shape Caribbean thought and society today The Americas in the Age of Revolution, 1750-1850 Lester D. Langley, 1996-01-01 Langley examines the political and social tensions reverberating throughout British French and Spanish America pointing out the characteristics that distinguished each upheaval from the others the impact of place or location on the course of revolution the dynamics of race and color as well as class the relation between leaders and followers the strength of counterrevolutionary movements and especially the way that militarization of society during war affected the new governments in the postrevolutionary era Langley argues that an understanding of the legacy of the revolutionary age sheds tremendous light on the political condition of the Americas today virtually every modern political issue the relationship of the state to the individual the effectiveness of government the liberal promise for progress and the persistence of color as a critical dynamic in social policy was central to the earlier period

Slavery, Imperialism, and Freedom Gordon K. Lewis, 1978 **Affect and Abolition in the Anglo-Atlantic, 1770-1830** Stephen Ahern, 2016-12-05 At the turn of the nineteenth century writers arguing for the abolition of the slave trade and the emancipation of those in bondage used the language of sentiment and the political ideals of the Enlightenment to make their case This collection investigates the rhetorical features and political complexities of the culture of sentimentality as it grappled with the material realities of transatlantic slavery Are the politics of sentimental representation progressive or conservative What dynamics are in play at the site of suffering What is the relationship of the spectator to the spectacle of the body in pain The contributors take up these and related questions in essays that examine poetry plays petitions treatises and life writing that engaged with contemporary debates about abolition Caribbean Slave Revolts and the British Abolitionist Movement Gelien Matthews, 2006-06-15 In this illuminating study Gelien Matthews demonstrates how slave rebellions in the British West Indies influenced the tactics of abolitionists in England and how the rhetoric and actions of the abolitionists emboldened slaves Moving between the world of the British Parliament and the realm of Caribbean plantations Matthews reveals a transatlantic dialectic of antislavery agitation and slave insurrection that eventually

influenced the dismantling of slavery in British held territories Focusing on slave revolts that took place in Barbados in 1816 in Demerara in 1823 and in Jamaica in 1831 32 Matthews identifies four key aspects in British abolitionist propaganda regarding Caribbean slavery the denial that antislavery activism prompted slave revolts the attempt to understand and recount slave uprisings from the slaves perspectives the portrayal of slave rebels as victims of armed suppressors and as agents of the antislavery movement and the presentation of revolts as a rationale against the continuance of slavery She makes shrewd use of previously overlooked publications of British abolitionists to prove that their language changed over time in response to slave uprisings Historians previously have examined the economic religious and political bases for slavery s abolishment in the Caribbean but Matthews here emphasizes the agency of slaves in the march toward freedom Her compelling work is a valuable analytical tool in the interpretation of abolition in North America uncovering the important connections between rebellious slaves on one side of the Atlantic and abolitionists on the other side *English Atlantics Revisited* Nancy L. Rhoden, 2007-08-09 Inspired by the major themes in Steele s scholarship the original essays in *English Atlantics Revisited* examine British Atlantic contexts and political economy as well as maritime military Amerindian and social history The contributors offer challenging new findings and perspectives as they revisit the *English Atlantics* chapters on specific personalities regions and topics reveal the extent of transatlantic cross cultural and trans national interactions *English Atlantics Revisited* help assess the current state of Atlantic history Beyond Pain Thomas A. Breslin, 2001-10-30 Breslin demonstrates that for two millennia states in East Asia Europe and America have successfully used pleasure to protect themselves and advance their interests at a small fraction of the cost of militarized policies Indeed the Chinese demonstrated that pleasure based policies primed a stream of highly profitable foreign trade and bolstered the state Pleasure was feared because it was effective as both an offensive and defensive strategy The colleens of Ireland and the bibis of India showed how inexorably effective pleasure could be in confounding militarily stronger invaders In contrast resorting to violence and pain generally undermined aggressive states Cultural factors have shaped the choice of pleasures used Food centered China has used food as well as sex and tourism as tools in its foreign relations Rome used wine Byzantium precious metals banquets and public spectacles Venice sex money and art England money and education America has used sex money education music and tourism Breslin s provocative text is based on a wide reading of secondary sources and some primary sources as well as a quarter century of teaching the history of foreign relations *Joseph Conrad and the Anthropological Dilemma* John Wylie Griffith, 1995 By situating Conrad s work in relation to other writings on primitive peoples John Griffith shows how his fiction draws on prominent anthropological and biological theories regarding the degenerative potential of contacts between European and other cultures At the same time however Conrad s work reflected an anthropological dilemma he constantly posed the question of how to bridge conceptual and cultural gaps between various peoples **The Longman Anthology of British Literature: The Romantics and their contemporaries** David Damrosch, 1999 The

Longman Compact Anthology of British Literature is a concise and thoughtfully arranged survey of British literature. Within its pages canonical authors mingle with newly visible writers. English accents are heard next to Anglo Norman, Welsh, Gaelic, and Scottish ones. Female and male voices are set in dialogue. Literature from the British Isles is integrated with postcolonial writing, and major works are illuminated by clusters of shorter texts that bring literary, social, and historical issues vividly to life.
