historians as well as fire arms enthusiasts The volume is lushly illustrated with detailed photographs many of which are published here for the first time **The Machine Gun, History, Evolution, and Development of Manual, Automatic, and Airborne Repeating Weapons** Ordnance Bureau (Navy Department),1951 *The Machine Gun* George M. Chinn,1955 The series of books entitled The machine gun was begun with the belief that the next best thing to actual knowledge is knowing where to find it The research summarized within the covers of these volumes has been compiled by the Bureau of Ordnance Department of the Navy in order to place in the hands of those rightfully interested in the art of automatic weapon design the world s recorded progress in this field of endeavor Vol II p v *Small Arms Survey 2012* Graduate Institute of International and Development Studies (Geneva, Switzerland),Small Arms Survey, Geneva,2012-08-30 The Small Arms Survey 2012 seeks to increase our scrutiny of what is changing and not changing in relation to armed violence and small arms proliferation Chapters on firearm homicide in Latin America and the Caribbean drug violence in selected Latin American countries and non lethal violence worldwide illustrate that security is a moving target armed violence both lethal and non lethal continues to undermine the security and wellbeing of people and societies around the world The goal of curbing small arms proliferation embodied in the UN Programme of Action appears similarly elusive Chapters on illicit small arms in war zones trade transparency Somali piracy and the 2011 UN Meeting of Governmental Experts highlight some of the successes but also the continuing challenges in this area Country studies on Kazakhstan and Somaliland along with the final instalment of the authorized transfers project round out the 2012 edition **Small Arms and Security** Denise Garcia,2006-09-27 This book examines the emergence of new international norms to govern the spread of small arms and the extent to which these norms have been established in the policies and practices of states regions and international organizations It also attempts to establish criteria for assessing norm emergence and to assess the process of norm development by comparing what actually happens at the multilateral level If norm making on small arms and related multilateral negotiations have mostly dealt with illicit arms and most of the norms examined here fall on the arms supplier side of the arms equation the author argues that the creation of international norms and the setting of widely agreed standards amongst states on all aspects of the demand for availability and spread of both legal and illegal small arms and light weapons must become central to the multilateral coordination of policy responses in order to tackle the growing violence associated with small arms availability Small Arms and Security will be of interest to researchers and professionals in the fields of peace and conflict studies global governance international security and disarmament **The Politics of Destroying Surplus Small Arms** Aaron Karp,2014-06-11 Although it receives much less attention than better known disarmament processes the destruction of small arms is reshaping the military arsenals of the world Out of roughly 200 modern military small arms world wide about 500 000 are destroyed every year The commitment of major governments and international organizations makes small arms destruction a permanent addition to the global disarmament repertoire But

the prospects for greater military small arms disarmament may be declining as war in Afghanistan and Iraq create unprecedented demand for second hand weaponry Inconspicuous disarmament of small arms and ammunition is reshaping the global picture of firearms light weapons and ammunition The process is far from comprehensive but much more than cosmetic Small arms destruction is here to stay but its contributions may be fleeting This book is the first full length examination of the issue The case studies in this volume examine the politics of military small arms disarmament When they ask is surplus destruction most likely And what can be done to make destruction more likely and more effective Case studies examine small arms destruction by NATO and the OSCE and in Bulgaria Cambodia Germany Kazakhstan Papua New Guinea Romania Serbia Ukraine and others This book was published as a special issue of Contemporary Security Policy
