Proceedings of the 3rd International Conference: Quantitative and Qualitative Methodologies in the Economic & Administrative Sciences (QMEAS 2013) Christos Frangos, *Entrepreneurship in Family Business* Henry X Shi, 2014-02-20. This book presents an excellent analysis of how a family business is different from other forms of organization and especially its peculiarities in relation to entrepreneurship. Focusing on small and medium-sized second-generation Chinese family businesses, this book provides an in-depth analysis on the relationship between the firm's family attributes or familiness as conceptualized in this book and entrepreneurial processes, which leads to different outcomes. Eight cases from China are presented in this book, and a dual-level approach is proposed for research on entrepreneurship in family businesses, emphasising both firm processes and the role of individual owner-managers. Readers will also find several useful policy and practice-oriented perspectives in this book.
