Vocabulary of Soviet Society and Culture Irina H. Corten, 1992 Irina H Corten's Vocabulary of Soviet Society and Culture is an experiment in what Soviet scholars call *lingvostranovedenie* the study of a country and its culture through the peculiarities of its language Not a conventional dictionary Corten's lexicon is selective offering a broad sampling of culturally significant words in the areas of politics ideology the economy education arts and letters social problems and everyday life as well as language associated with the personalities and activities of individual Soviet leaders The entries are listed alphabetically in English transliteration followed by the Cyrillic although readers familiar with Russian may prefer to use the Cyrillic alphabet listing included in this volume In each entry the author provides a succinct but full explanation of the term and whenever possible cross references to other entries authentic examples of its use and samples of relevant Soviet jokes A reader may approach the lexicon either sequentially or with the aid of a subject thesaurus that divides the material into specific topics A listing of complementary sources of reference appears in a useful bibliography With this fascinating lexicon of Sovietisms Corten provides an invaluable and easily accessible medium for those general readers and scholars of the Russian language and Soviet culture interested in understanding contemporary Soviet life Selected entries from the Vocabulary of Soviet Society and Culture
