Soviet Succession Struggles:

Soviet Succession Struggles Anthony D'Agostino, 2024-04-12 *Soviet Succession Struggles* 1988 is a key study of the history nature and development of Soviet politics and politicians from the earliest days of Soviet Russia up to the rise of Gorbachev. It examines the power struggles between opposing factions within the Soviet leadership and identifies two main political standpoints that were always vying for ultimate control of the Communist State. **Problems of Communism**

, 1983 **Soviet Politics** Richard Sakwa, 2012-11-12 *Soviet Politics in Perspective* is a new edition of Richard Sakwa's successful textbook *Soviet Politics* an introduction. Thoroughly revised and updated, it builds on the previous editions' comprehensive and accessible exploration of the Soviet system from its rise in 1919 to its collapse in 1991. The book is divided into five parts which focus on key aspects of Soviet politics. They are: historical perspectives beginning with the Tsarist regime on the eve of Revolution; the rise and development of Stalinism through to the decline of the regime under Brezhnev and his successors; and Gorbachev's attempts to revive the system's institutions of Government such as the Communist Party, security apparatus, the military, the justice system, local government, and participation. Theoretical approaches to Soviet politics including class and gender politics; the role of ideology and the shift from dissent to pluralism; key policy areas: the command economy and reform; nationality politics and foreign and defence policy; an evaluation of Soviet rule and reasons for its collapse. Providing key texts and bibliographies, this book offers the complete history and politics of the Soviet period in a single volume. It will be indispensable to students of Soviet and post-Soviet politics as well as the interested general reader. *From the Other Shore* André Liebich, 1997 This book is an inquiry into the possibilities of politics in exile. Russian Mensheviks driven out of Soviet Russia and their party stripped of legal existence functioned abroad in the West in Berlin, Paris, and New York for an entire generation. For several years they also continued to operate underground in Soviet Russia. Bereft of the usual advantages of political actors, the Mensheviks succeeded in impressing their views upon social democratic parties and Western thinking about the Soviet Union. The Soviet experience through the eyes of its first socialist victims is recreated here for the first time from the vast storehouse of archival materials and eyewitness interviews. The exiled Mensheviks were the best informed and most perceptive observers of the Soviet scene through the 1920s and 1930s. From today's perspective, the Mensheviks' analyses and reflections strikingly illuminate the causes of the failure of the Soviet experiment. This book also probes the fate of Marxism and democratic socialism as it tracks the activities and writings of a remarkable group of men and women including Raphael Abramovitch, Fedor and Lidia Dan, David Dallin, Boris Nicolaevsky, Solomon Schwarz, and Vladimir Woytinsky, entangled in the most momentous events of this century. Their contribution to politics and ideas in the age of totalitarianism merits scrutiny, and their story deserves to be told. **Air University Review**, 1983 *Strategic Review*, 1987 dedicated to the advancement and understanding of those principles and practices military and political which serve the vital security interests of the United States **From Brezhnev To**

Gorbachev Baruch A. Hazan, 2019-03-05 From 1982 to 1985 the period on which this book focuses the Soviet Union was governed by a succession of ailing old men Brezhnev Andropov and Chernenko who supported by an equally elderly Politburo were often physically incapable of controlling and directing the bureaucratic state machine and party organization This unprecedented situation precipitated a secret and bitter power struggle within the top Soviet leadership between two main factions the Chernenko apparatchiks who had risen to power under Brezhnev and owed their positions to him and the supporters of Andropov including the younger more dynamic and power hungry members of the party elite who had been advocating fairly bold reforms to deal with the grave social and economic problems facing the USSR Dr Hazan provides a detailed analysis of this hidden power struggle as he examines the final years of Brezhnev's reign and the brief ascendancies of Andropov and Chernenko These rapid changes led to the demise of the old guard in the Politburo and the emergence of a new breed of leader in Mikhail Gorbachev culminating in the final consolidation of his power at the 27th CPSU Congress Drawing on an extensive range of primary sources and using vivid examples of how the factions exploited the gigantic propaganda machine of the Soviet mass media the author looks behind the Kremlin's walls to explore the essence of Soviet politics The book describes the power base of each of the recent Soviet leaders and analyzes the steps they took to consolidate their positions and tighten controls over the bureaucracy and the military

What Happened to the Soviet Union? Christopher I. Xenakis, 2002-09-30 Xenakis examines the responses of Soviet experts in American academia primarily political scientists but also economists and defense scholars who specialized in the USSR to the unfolding evidence of Soviet reform during the 1970s and 1980s and to its ultimate collapse He concludes that American Sovietologists and other political scientists were more responsive to the Cold War consensus to the needs of the State Department Defense and CIA policy makers and to the official Washington line of the moment than to the changing face of the Soviet Union As Xenakis makes clear many of the Cold War ideas and attitudes shared by Sovietologists the notion that the USSR was an evil empire the idea that Soviet society was irredeemably xenophobic and indolent that the Soviet political and economic system could not be fixed or reformed and the view that the best way for Washington to deal with Moscow's influence was to contain the USSR through arms races global and proxy wars were reminiscent of the policies and arguments of the Truman and Eisenhower administrations not to the facts on the ground in the 1970s and 1980s An important work for scholars students and researchers involved with Soviet and Russian studies international political and military affairs intellectual history and the relationship between academia and the government

Mao and the Economic Stalinization of China, 1948-1953 Hua-Yu Li, 2006-02-01 In the first systematic study of its kind Hua yu Li tackles one of the most important unresolved mysteries of the early history of the People's Republic of China—the economic policy shift of 1953 As a result of this policy shift the moderate economic policies of New Democracy were abruptly terminated—much sooner than specified by the official party line—and replaced with a radical Stalinist economic program called the general line for socialist transition Utilizing the rich archival

materials released in China since the mid 1980s and Russian archival information released since the early 1990s Li presents a compelling explanation for the policy shift Placing the analysis within the larger context of the world communist movement communist ideology and Mao's complicated relationship with Stalin this book makes it clear that the policy shift was initiated by Mao and that he did so for two reasons First he was committed to a history text compiled under Stalin's guidance that purported to describe the Soviet experience of building socialism in the 1920s and 1930s Mao relied heavily on this text as a road map for China to follow in building socialism in the early 1950s Second Mao was driven by feelings of personal rivalry with Stalin and of national rivalry with the Soviet Union he wanted China to achieve socialism faster than the Soviet Union had The precise timing of the change Li argues resulted from Mao's belief that China was economically ready to build socialism and from his decision to interpret an ambiguous statement made by Stalin in October 1952 as a clear endorsement of a policy shift Li asserts that Mao was a committed Stalinist that he dominated domestic policy decision making and that he skillfully maneuvered his way through his negotiations with Stalin in advancing his own agenda Situating its analysis within the larger context of the world communist movement this carefully researched book will have a profound impact on the fields of communist studies and Sino Soviet relations and in studies of Mao Stalin and their relationship Driving the Soviets up the Wall Hope M. Harrison, 2011-06-27 The Berlin Wall was the symbol of the Cold War For the first time this path breaking book tells the behind the scenes story of the communists decision to build the Wall in 1961 Hope Harrison's use of archival sources from the former East German and Soviet regimes is unrivalled and from these sources she builds a highly original and provocative argument the East Germans pushed the reluctant Soviets into building the Berlin Wall This fascinating work portrays the different approaches favored by the East Germans and the Soviets to stop the exodus of refugees to West Germany In the wake of Stalin's death in 1953 the Soviets refused the East German request to close their border to West Berlin The Kremlin rulers told the hard line East German leaders to solve their refugee problem not by closing the border but by alleviating their domestic and foreign problems The book describes how over the next seven years the East German regime managed to resist Soviet pressures for liberalization and instead pressured the Soviets into allowing them to build the Berlin Wall Driving the Soviets Up the Wall forces us to view this critical juncture in the Cold War in a different light Harrison's work makes us rethink the nature of relations between countries of the Soviet bloc even at the height of the Cold War while also contributing to ongoing debates over the capacity of weaker states to influence their stronger allies

Subversive Institutions Valerie Bunce, 1999-01-28 From 1989 to 1992 all of the socialist dictatorships in Europe including the Soviet Union collapsed as did the Soviet bloc Yugoslavia the Soviet Union and Czechoslovakia dismembered and the Cold War international order came to an abrupt end Based on a series of controlled comparisons among regimes and states Valerie Bunce argues in this book that two factors account for these remarkable developments the institutional design of socialism as a regime a state and a bloc and the rapid expansion during the 1980s of opportunities for domestic and

international change When combined institutions and opportunities explain not just when how and why these regimes and states disintegrated but also some of the most puzzling features of these developments why for example the collapse of socialism was largely peaceful and why Yugoslavia but not the Soviet Union or Czechoslovakia disintegrated through war

Problems of Soviet Internal Policy Institut zur Erforschung der UdSSR.,1960 *Why Communism Did Not Collapse* Martin K. Dimitrov,2013-07-31 This volume brings together a distinguished group of scholars working to address the puzzling durability of communist autocracies in Eastern Europe and Asia which are the longest lasting type of non democratic regime to emerge after World War I The volume conceptualizes the communist universe as consisting of the ten regimes in Eastern Europe and Mongolia that eventually collapsed in 1989 91 and the five regimes that survived the fall of the Berlin Wall China Vietnam Laos North Korea and Cuba The essays offer a theoretical argument that emphasizes the importance of institutional adaptations as a foundation of communist resilience In particular the contributors focus on four adaptations of the economy of ideology of the mechanisms for inclusion of potential rivals and of the institutions of vertical and horizontal accountability The volume argues that when regimes are no longer able to implement adaptive change contingent leadership choices and contagion dynamics make collapse more likely *Bridling Dictators* Graeme

Gill,2021-11-20 Galtieri Lukashenko and Putin are some of the dictators whose untrammelled personal power has been seen as typical of the dog eat dog nature of leadership in authoritarian political systems This book provides an innovative argument that rather than being characterised by permanent insecurity fear and arbitrariness the leadership of dictatorships is actually governed by a series of rules The rules are identified and their operation is shown in a range of different types of authoritarian regime The operation of the rules is explained in ten different countries across five different regime types the Soviet Union and China as communist single party regimes Argentina Brazil and Chile as military regimes electoral authoritarian Malaysia and Mexico personalist dictatorships in Belarus and Russia and the Gulf monarchies Through close analysis of the way leadership functions in these different countries the book shows how the rules have worked in different institutional settings It also shows how the power distribution in authoritarian oligarchies is related to the rules The book transforms our understanding of how authoritarian systems work **1956** Simon Hall,2016-09-06 Vibrantly and

perceptively told this is the story of one remarkable year a vivid history of exhilarating triumphs and shattering defeats around the world 1956 was one of the most remarkable years of the twentieth century All across the globe ordinary people spoke out filled the streets and city squares and took up arms in an attempt to win their freedom In this dramatic page turning history Simon Hall takes the long view of the year s events putting them in their post war context and looking toward their influence on the counterculture movements of the 1960s to tell the story of the year s epic global struggles from the point of view of the freedom fighters dissidents and countless ordinary people who worked to overturn oppressive and authoritarian systems in order to build a brave new world It was an epic contest 1956 is the first narrative history of the year
