Space Below My Feet:

Space Below My Feet Gwen Moffat, 2001 Space Below My Feet Gwen Moffat, 2013-11-07 A classic mountaineering memoir by one of the UK's foremost female climbers A story of climbing and compulsive love of mountains magnificent OBSERVER In 1945 when Gwen Moffat was in her twenties she deserted from her post as a driver and dispatch rider in the Army and went to live rough in Wales and Cornwall climbing and living on practically nothing She hitch hiked her way around travelling from Skye to Chamonix and many places in between with all her possessions on her back although these amounted to little more than a rope and a sleeping bag When the money ran out she worked as a forester went winkle picking on the Isle of Skye acted as the helmsman of a schooner and did a stint as an artist's model And always there were the mountains drawing her away from a proper job Throughout this unique story there are acutely observed accounts of mountaineering exploits as Moffat tackles the toughest climbs and goes on to become Britain's leading female climber and the first woman to qualify as a mountain guide **Mountaineering Women** David Mazel, 1994 Sixteen of their stories sometimes published under the name of a male relative sometimes under anonymous bylines such as a Lady are here recovered and collected for the first time Pasta Punctures & Perseverance! Howard Ashton, 2016-04-20 Why cycle fast when you can cycle slowly often very slowly as dictated by terrain topography and the weather Intrepid explorer W H Tilman saw the merits of such an attitude when he remarked that all travel is dull exactly in proportion to its rapidity Howard adopted Tilmans attitude as he adventured over many years across the world on two self propelled wheels that incredibly efficient machine for personal transport a bicycle Born affected by cerebral palsy it was through the therapeutic effects of much massage and manipulations of his limbs that by the age of 3 his legs had enough strength to push pedals if not allowing him to stand and walk And pushing pedals is what he has been doing almost daily for the past 65 years From trundling down the garden path on a bright red Gresham Flyer trike his competence and confidence quickly built as did muscle strength and tone This simple activity allowed him to overcome the physical limitations which life had imposed upon him Since those very early days countless bicycles have carried him tens of thousands of miles Very short journeys just down the road to primary school were gradually extended over the following decades Pedal power became Howards passport to personal freedom Almost always solo and camping wild the range and magnitude of these cycling adventures inexorably expanded from roaming both Scottish and Irish by ways to the high roads but mostly back roads of more than sixty countries across the world Here he shares a selection of the diaries written along the way recounting the experiences and interactions which are the seemingly inevitable consequence of this slowly and lowly method of travel Proceeds from the sale of this book will be donated to SCOPE the UK charity supporting those affected by cerebral palsy and their families **Affective Geographies of Transformation, Exploration and Adventure** Hayley Saul, Emma Waterton, 2018-06-27 Combining critical reflections from scholars around the globe as well as experiential records from some of the world's most tenacious explorers this book

interrogates the concept of the frontier as a realm of transformation exploration and adventure We discover the affective power of social physical spiritual and political frontiers in shaping humanity's abilities to change and become We collectively unpack the enduring conceptualization of the frontier as a site of nation state identity formation violent colonization masculine prowess and the triumph of progress In its place this book charts a more complex and subtle emotional geography amidst an array of frontiers the expanding human psyche that is induced under free diving narcosis and tales of survival on one of the most technically difficult mountains in the world The Ogre Chapters consider solitude in the Sahara near death experiences in Tibetan Buddhism the aftermath of a volcanic eruption in Bali the Spanish Imaginary snatched moments of sexual curiosity and many more This book will be of utmost importance to researchers working on theories of affect the Anthropocene frontier theory and human geography It will be vital supplementary reading for undergraduates and postgraduates on courses such as Heritage Studies Human and Cultural Geography Anthropology Tourism Studies and History
