Politics Lisa J. LeCount, Jason Yaeger, 2010-09-15 Most treatments of large Classic Maya sites such as Caracol and Tikal regard Maya political organization as highly centralized Because investigations have focused on civic buildings and elite palaces however a critical part of the picture of Classic Maya political organization has been missing The contributors to this volume chart the rise and fall of the Classic Maya center of Xunantunich paying special attention to its changing relationships with the communities that comprised its hinterlands They examine how the changing relationships between Xunantunich and the larger kingdom of Naranjo affected the local population the location of their farms and houses and the range of economic and subsistence activities in which both elites and commoners engaged They also examine the ways common people seized opportunities and met challenges offered by a changing political landscape The rich archaeological data in this book show that incorporating subject communities and people and keeping them incorporated was an on going challenge to ancient Maya rulers Until now archaeologists have lacked integrated regional data and a fine grained chronology in which to document short term shifts in site occupations subsistence strategies and other important practices of the daily life of the Maya This book provides a revised picture of Maya politics one of different ways of governing and alliance formation among dominant centers provincial polities and hinterland communities Rimes and More Rhymes Don McCabe, 1994-07

Discriminating Risk Guy Stuart, 2018-07-05 The U S home mortgage industry first formalized risk criteria in the 1920s and 1930s to determine which applicants should receive funds Over the past eighty years these formulae have become more sophisticated Guy Stuart demonstrates that the very concepts on which lenders base their decisions reflect a set of social and political values about who deserves what Stuart examines the fine line between licit choice and illicit discrimination arguing that lenders while eradicating blatantly discriminatory practices have ignored the racial and economic class biases that remain encoded in their decision processes He explains why African Americans and Latinos continue to be at a disadvantage in gaining access to loans discrimination he finds results from the interaction between the way lenders make decisions and the way they shape the social structure of the mortgage and housing markets Mortgage lenders Stuart contends are embedded in and shape a social context that can best be understood in terms of rules networks and the production of space Stuart s history of lenders risk criteria reveals that they were synthesized from rules of thumb cultural norms and untested theories In addition his interviews with real estate and lending professionals in the Chicago housing market show us how the criteria are implemented today Drawing on census and Home Mortgage Disclosure Act data for quantitative support Stuart concludes with concrete policy proposals that take into account the social structure in which lenders make decisions

Colonials Brian Fitzpatrick, 2013-09-01 Nearly half a century ago a young Australian journalist without a newspaper decided to try his hand at writing a novel He was Brian Fitzpatrick who was later to win public notice as an historian as a radical polemicist and lobbyist on the fringe of the Labour movement and as first General Secretary of the Australian Council for Civil Liberties Yet The Colonials is far more a psychological novel than a social panorama or a story with a plot It was surely the first Australian novel to capture the nuance of a school teacher s condition underpaid conscious of moral superiority to his more vulgar and less well informed neighbours resentful of his low standing in a society differentiated by income or appearances more than intelligence or respectability There is ample plunder here for

social historians of the more predatory sort

The book provides a critical assessment of areas where reform is needed and presents creative reimaginings of a more equitable sporting world.
