Space Is The Place The Lives And Times Of Sun Ra:

Space Is the Place John Szwed,2020-04-30 Considered by many to be a founder of Afrofuturism Sun Ra aka Herman Blount was a composer keyboardist bandleader philosopher entrepreneur poet and self proclaimed extraterrestrial from Saturn He recorded over 200 albums with his Arkestra which dressed in Egypto space costumes played everything from boogie woogie and swing to fusion and free jazz John Szwed s *Space is the Place* is the definitive biography of this musical polymath who was one of the twentieth century s greatest avant garde artists and intellectuals Charting the whole of Sun Ra s life and career Szwed outlines how after years in Chicago as a blues and swing band pianist Sun Ra set out in the 1950s to impart his views about the galaxy black people and spiritual matters by performing music with the Arkestra that was as vital and innovative as it was mercurial and confounding Szwed s readers whether they are just discovering Sun Ra or are among the legion of poets artists intellectuals and musicians who consider him a spiritual godfather will find that indeed space is the place

How Sweet the Sound David Ware Stowe,2004 Stowe traces the evolution of sacred music from colonial times to the present from the Puritans to Sun Ra and shows how these cultural encounters have produced a rich harvest of song and faith

Sun Ra's Chicago William Sites,2021-01-11 Sites provides crucial context on how Chicago s Afrocentrist philosophy religion and jazz scenes helped turn Blount into Sun Ra Chicago Reader Sun Ra 1914-93 was one of the most wildly prolific and unfailingly eccentric figures in the history of music Renowned for extravagant performances in which his Arkestra appeared in neo Egyptian garb the keyboardist and bandleader also espoused an interstellar cosmology that claimed the planet Saturn as his true home In *Sun Ra s Chicago* William Sites brings this visionary musician back to earth specifically to the city s South Side where from 1946 to 1961 he lived and relaunched his career The postwar South Side was a hotbed of unorthodox religious and cultural activism Afrocentric philosophies flourished storefront prophets sold dream book bibles and Elijah Muhammad was building the Nation of Islam It was also an unruly musical crossroads where the man then known as Sonny Blount drew from an array of intellectual and musical sources from radical nationalism revisionist Christianity and science fiction to jazz blues Latin dance music and pop exotica to construct a philosophy and performance style that imagined a new identity and future for African Americans *Sun Ra s Chicago* shows that late twentieth century Afrofuturism emerged from a deep utopian engagement with the city and that by excavating the postwar black experience of Sun Ra s South Side milieu we can come to see the possibilities of urban life in new ways Four stars Sites makes the engaging argument that the idiosyncratic jazz legend s penchant for interplanetary journeys and African American utopia was in fact inspired by urban life right on Earth Spectrum Culture

Space is the Place John F. Szwed,2020 Sun Ra a k a Herman Poole Sonny Blount was born in Alabama on May 22 1914 But like Father Divine and Elijah Muhammad he made a lifelong effort to obscure many of the facts of his early life After years as a rehearsal pianist for nightclub revues and in blues and swing bands including Wynonie Harris s and Fletcher Henderson s Sun Ra set out in the 1950s to find a way to impart

his values about the galaxy Black people and spiritual matters through the various incarnations of the Intergalactic Arkestra His repertoire ranging from boogie woogie swing and bebop to free form fusion and whatever Sun Ra was above all a paragon of contradictions profundity and vaudeville technical pianistic virtuosity and irony assiduous attention to arrangements and encouragement of collective improvisation respect for tradition and celebration of the fresh **The Oxford Handbook of Music and Queerness** Fred Everett Maus, Sheila Whiteley, Tavia Nyong'o, Tavia Amolo Ochieng' Nyongó, Zoe C. Outsider Theory Jonathan Eburne, 2018-09-18 A vital and timely reminder that modern life owes as much to outlandish thinking as to dominant ideologies What do the Nag Hammadi library Dan Brown's The Da Vinci Code speculative feminist historiography Marcus Garvey's finances and maps drawn by asylum patients have in common Jonathan P Eburne explores this question as never before in *Outsider Theory* a timely book about outlandish ideas Eburne brings readers on an adventure in intellectual history that stresses the urgency of taking seriously especially in an era of fake news ideas that might otherwise be discarded or regarded as errant unfashionable or even unreasonable Examining the role of such thinking in contemporary intellectual history Eburne challenges the categorical demarcation of good ideas from flawed wild or bad ones addressing the surprising extent to which speculative inquiry extends beyond the work of professional intellectuals to include that of nonprofessionals as well whether amateurs unfashionable observers or the clinically insane Considering the work of a variety of such figures from popular occult writers and gnostics to so called outsider artists and pseudoscientists Eburne argues that an understanding of its circulation and recirculation is indispensable to the history of ideas He devotes close attention to ideas and texts usually omitted from or marginalized within orthodox histories of literary modernism critical theory and continental philosophy yet which have long garnered the critical attention of specialists in religion science studies

critical race theory and the history of the occult In doing so he not only sheds new light on a fascinating body of creative thought but also proposes new approaches for situating contemporary humanities scholarship within the history of ideas However important it might be to protect ourselves from bad ideas Outsider Theory shows how crucial it is for us to know how and why such ideas have left their impression on modern day thinking and continue to shape its evolution Music Is Rapid Transportation Lawrence Joseph, Dan Lander, Bill Smith, 2010 A truly alternative look at music lists not one that merely includes the obvious but shows the connections of popular music to the avant garde the obscure the experimental the quirky and the adventurous this edition leads the curious reader towards new musical experiences hitherto unknown to them

This revised and updated edition brings the story of the Arkestra up to date as its ethos and aesthetic remain vital forces in jazz and popular music to this day. *Interspecies Communication* Gavin Steingo, 2024-04-09

In *Interspecies Communication* ethnomusicologist Gavin Steingo examines several significant cases of attempted communication beyond the human, several cases that is where the dualistic relationship of human to non-human is dramatically challenged. Analyzing scenarios including a small coastal community in South Africa where humans call to whales, a scientific laboratory in the Caribbean where humans tried to speak with dolphins, and a case of black performance art involving human alien communication, Steingo charts various mechanisms that humans have devised to think about and indeed to reach beings very unlike ourselves. These speculative endeavors look and listen beyond what we are and what we know. The book focuses on the second half of the twentieth century when Enlightenment conceptualizations of human and non-human were increasingly materialized. Following the Second World War, scientists embarked upon the deep exploration of oceans and cosmic space, two realms previously inaccessible to the senses and to empirical investigation. As quintessential final frontiers, the outer space of the cosmos and the inner space of oceans were conceptualized as structurally isomorphic twins, subject to the same method of scrutiny. *Interspecies Communication* examines the way that globally circulating ideas are taken up by a range of different subject positions, including and especially peripheral subject positions in the global South.

A Dictionary of the Avant-gardes Richard Kostelanetz, H. R. Brittain, 2001. Introduces the concept of avant-garde art to readers as it has been practiced over the last century. Covering figures and genres in all styles of art, this is an ideal introduction to often misunderstood art forms.
