Launius,Dennis R. Jenkins,2014-07-11 Access no single word better describes the primary concern of the exploration and development of space Every participant in space activities civil military scientific or commercial needs affordable reliable frequent and flexible access to space To Reach the High Frontier details the histories of the various space access vehicles developed in the United States since the birth of the space age in 1957 Each case study has been written by a specialist knowledgeable about the vehicle described and places each system in the larger context of the history of spaceflight The technical challenge of reaching space with chemical rockets the high costs associated with space launch the long lead times necessary for scheduling flights and the poor reliability of the rockets themselves show launch vehicles to be the space program s most difficult challenge *History of Science in America, News and Views* ,2002 **Space** Dinesh C. Sharma,2025-02-18 As a young modern nation state an underdog in the developing world India has led the space research race with tremendous frugality and nimble innovation In doing so it has made a stellar claim for itself in what had hitherto remained a big boys club This is the fascinating story of India and Indians in space Parallely this is also the story of how a developing nation grappling with problems of the twentieth century such as poverty and hunger slowly rose to become a world leader in space research With Chandrayaan 3 what India achieved in its mission to the moon cost it half of what it cost Christopher Nolan to make Oppenheimer As India announces its most ambitious leap yet towards space exploration with Gaganyaan all eyes are on it Dinesh C Sharma writes of this nothing short of shocking journey spread over six decades of India in space research Narrative science and human history at its very best Space is a compelling account of the Indian space programme and the unsung biographies of Indian astronauts their starbound journeys failures and triumphs *Space Age Adventures* Mike Bezemek,2023-06 Space Age Adventures is a guidebook which combines short entertaining stories from spaceflight history with more than 100 adventurous activities sites across the U S including outdoor astronaut training locations air space museums and historic sites for space enthusiasts to visit Ethics Handbook for the Space Odyssey Jacques Arnould,2020-04-01 With his particular questioning style Jacques Arnould takes us on a journey through the history of space exploration and utilisation from a multidisciplinary perspective This book deals with philosophical and societal questions national and international policy legal and responsibility aspects By asking the right questions Jacques helps us understand many of the questions most humans ask themselves about why what for whom for how long and how humanity will or should expand its presence in and benefit from outer space The French CNES is the first space agency that decided to employ an expert in the ethics of space activities and the International Space University and the University of South Australia are the only where space ethics is regularly taught in its programs as part of its unique multidisciplinary curricula **Aging**

Heroes Norma Jones, Bob Batchelor, 2015-05-06 Despite the increasing number and variety of older characters appearing in film television comics and other popular culture much of the understanding of these figures has been limited to outdated stereotypes of aging These include depictions of frailty resistance to modern life and mortality More importantly these stereotypes influence the daily lives of aging adults as well as how younger generations perceive and interact with older individuals In light of our graying population and the growing diversity of portrayals of older characters in popular culture it is important to examine how we understand aging In *Aging Heroes Growing Old in Popular Culture* Norma Jones and Bob Batchelor present a collection of essays that address the increasing presence of characters that simultaneously manifest and challenge the accepted stereotypes of aging The contributors to this volume explore representations in television programs comic books theater and other forms of media The chapters include examinations of aging male and female actors who take on leading roles in such movies as *Gran Torino* *Grudge Match* *Escape Plan* *Space Cowboys* *Taken* and *The Big Lebowski* as well as *The Expendables* *Red* and *X Men* franchises Other chapters address perceptions of masculinity sexuality gender and race as manifested by such cultural icons as Superman Wonder Woman Danny Trejo Helen Mirren Betty White Liberace and Tyler Perry's *Madea* With multi disciplinary and accessible essays that encompass the expanding spectrum of aging and related stereotypes this book offers a broader range of new ways to understand perceive and think about aging *Aging Heroes* will be of interest to scholars of film television gender studies women's studies sociology aging studies and media studies as well as to general readers
