Telotte, Gerald Duchovnay, 2015-07-27 Critical discussion of cult cinema has often noted its tendency to straddle or ignore boundaries to pull together different sets of conventions, narrative formulas, or character types for the almost surreal pleasure to be found in their sudden juxtapositions or narrative combination. With its own boundary-blurring nature as both science and fiction, reality and fantasy, science fiction has played a key role in such cinematic cult formation. This volume examines that largely unexplored relationship, looking at how the SF film's own double nature neatly matches up with a persistent double vision common to the

cult film It does so by bringing together an international array of scholars to address key questions about the intersections of sf and cult cinema how different genre elements directors and stars contribute to cult formation what role fan activities including con participation play in cult development and how the occulted or bad sf cult film works The volume pursues these questions by addressing a variety of such sf cult works including Robot Monster 1953 Zardoz 1974 A Boy and His Dog 1975 Tetsuo The Iron Man 1989 Space Truckers 1996 Ghost in the Shell 2 2004 and Iron Sky 2012 What these essays afford is a revealing vision of both the sf aspects of much cult film activity and the cultish aspects of the whole sf genre **Lulu on the**

**Stuart Gordon** Michael Doyle, 2022-02-04 Animated by a singularly subversive spirit the fiendishly intelligent works of Stuart Gordon 1947-2020 are distinguished by their arrant boldness and scab picking wit Provocative gems such as *Re Animator* *From Beyond* *Dolls* *The Pit and the Pendulum* and *Dagon* consolidated his fearsome reputation as one of the masters of the contemporary horror film bringing an unfamiliar archness political complexity and critical respect to a genre so often bereft of these virtues A versatile filmmaker one who resolutely refused to mellow with age Gordon proved equally adept at crafting pointed science fiction *Robot Jox* *Fortress Space Truckers* sweet tempered fantasy *The Wonderful Ice Cream Suit* and nihilistic thrillers *King of the Ants* Edmond Stuck customarily scrubbing the sharply drawn lines between exploitation and arthouse cinema The first collection of interviews ever to be published on the director *Stuart Gordon Interviews* contains thirty six articles spanning a period of fifty years Bountiful in anecdote and information these candid conversations chronicle the trajectory of a fascinating career one that courted controversy from its very beginning Among the topics Gordon discusses are his youth and early influences his founding of Chicago's legendary *Organic Theatre* where he collaborated with such luminaries as Ray Bradbury Kurt Vonnegut and David Mamet and his transition into filmmaking where he created a body of work that injected fresh blood into several ailing staples of American cinema He also reveals details of his working methods his steadfast relationships with frequent collaborators his great love for the works of Lovecraft and Poe and how horror stories can masquerade as sociopolitical commentaries

*Alternate Americas* M. Keith Booker, 2006-02-28 For more than 50 years science fiction films have been among the most important and successful products of American cinema and are worthy of study for that reason alone On a deeper level the genre has reflected important themes concerns and developments in American society so that a history of science fiction film also serves as a cultural history of America over the past half century M Keith Booker has selected fifteen of the most successful and innovative science fiction films of all time and examined each of them at length from cultural technical and cinematic perspectives to see where they came from and what they meant for the future of cinema and for America at large From *Invasion of the Body Snatchers* to *Star Wars* from *Blade Runner* to *The Matrix* these landmark films have expressed our fears and dreams our abilities and our deficiencies In this deep seeking investigation we

can all find something of ourselves that we recognize as well as something that we've never recognized before The focus on a fairly small number of landmark films allows detailed attention to genuinely original movies including Forbidden Planet Invasion of the Body Snatchers 2001 A Space Odyssey Planet of the Apes Star Wars Close Encounters of the Third Kind Alien E T the Extra Terrestrial Blade Runner The Terminator Robocop The Abyss Independence Day and The Matrix This book is ideal for general readers interested in science fiction and film **Indie Science Fiction Cinema Today** Kathleen
