Space in Society, Politics and Law Christian Brünner,Alexander Soucek,2012-08-30 Spaceflight is a rational undertaking yet full of emotions It is a dream of mankind and a multi billion industry likewise It is subject to a distinct branch of law and moreover part of modern pop culture In short spaceflight is fascinating Outer Space in society politics and law is an interdisciplinary approach to the understanding of modern space law Technical cultural and historical aspects lay the foundation for a sound comprehension why space law norms have been established and what they mean in practice The reader will realize the impact space and spaceflight have on society from Stonehenge to climate change A new approach to presenting space law comprehensive and illustrative We live in a society absolutely dependent on science and technology and yet have cleverly arranged things so that almost no one understands science and technology That s a clear prescription for disaster

Carl Sagan **Societal Impact of Spaceflight** Steven J. Dick,Roger D. Launius,2007 Since the dawn of spaceflight advocates of a robust space effort have argued that human activity beyond Earth makes a significant difference in everyday life Assertions abound about the impact of spaceflight on society and its relationship to the larger contours of human existence Fifty years after the Space Age began it is time to examine the effects of spaceflight on society in a historically rigorous way Has the Space Age indeed had a significant effect on society If so what are those influences What do we mean by an impact on society And what parts of society Conversely has society had any effect on spaceflight What would be different had there been no Space Age The purpose of this volume is to examine these and related questions through scholarly research making use especially of the tools of the historian and the broader social sciences and humanities Herein a stellar array of scholars does just that and arrives at sometimes surprising conclusions **Contracting for Space** Ingo

Baumann,2016-05-13 Recent significant developments in the European space sector have had an impact on business and the growth of national and European commercial space law This book analyses and assesses the legal issues and key factors influencing the space sector in Europe It is an up to date guide to the regulatory background of space projects and examines the typical legal problems which need to be solved by practitioners in the field Taking into account public and commercial international law and practice this book examines substantive issues of law specific to launchers satellite manufacturers and space service providers with contributions from leading experts and practitioners in the field of European space law and policy **The Space Economy at a Glance 2011** OECD,2011-07-22 This second edition of The Space Economy at a Glance

paints an updated and richly detailed picture of the space industry its downstream services activities and its wider economic

and social impacts *Space Technologies and Climate Change Implications for Water Management, Marine Resources and Maritime Transport* OECD,2008-11-13 This book examines the contributions that space technologies can make in tackling some of the serious problems posed by climate change focusing on examples of water management marine resources and maritime transport **The Space Economy at a Glance 2007** OECD,2007-10-16 This book paints a richly detailed picture of the space industry its downstream services activities and its wider economic and social impacts *Space Technologies for the Benefit of Human Society and Earth* Phillip Olla,2009-03-18 Overview of Space Technology It has been over 50 years since the first satellite was sent into orbit and the impact of space technology can be felt in many aspects in our day to day life In addition to the convenience of knowing exactly where we are on the planet via GPS satellites or deciding what to pack for a trip based on forecasts from weather satellites watching CNN in a remote village via broadcasting satellites there are now some crucial environmental uses of Space technologies in the areas of natural resources management and environmental monitoring Remotely sensed data reveals an unparalleled view of the Earth for systems that require synoptic or periodic observations such as inventory control surveying agriculture business mineralogy hydrography geology land mass cover land utilization and environment monitoring The advancement of remote sensing has made remote sensed data more affordable and available to merge with a variety of data sources to create mash ups The amalgamation of these data sources into disciplines such as agriculture urban planning web applications cartography geodetic reference systems and global navigation satellite systems are an important advancement of space applications and space science Space Technology and Millennium Development Goals MDGs The MDGs are a set of time bound measurable goals and targets that are global as well as country specific for combating poverty hunger diseases illiteracy environmental degradation and discrimination against women **OECD Handbook on Measuring the Space Economy** OECD,2012-02-27 This publication provides a summary of the key methodological issues surrounding indicators and statistics on the space sector and the larger space economy Satellite Earth Observations and Their Impact on Society and Policy Masami Onoda,Oran R Young,2017-06-16 The result of a workshop bringing together an international advisory board of experts in science satellite technologies industry innovations and public policy this book addresses the current and future roles of satellite Earth observations in solving large scale environmental problems The book showcases the results of engaging distinct communities to enhance our ability to identify emerging problems and to administer international regimes created to solve them It also reviews the work of the Policy and Earth Observation Innovation Cycle PEOIC project an effort aimed at assessing the impact of satellite observations on environmental policy and to propose a mission going forward that would launch an innovation cycle The achievements of such a mission would feed back to innovations in next generation observation technology thus contributing to global policy demand for policy relevant information This book is open access under a CC BY license Space and Innovation OECD,2016-10-27 After decades of innovation satellites now play a discrete but pivotal role in the efficient functioning of

modern societies and their economic development This publication provides the findings from a OECD Space Forum project on the state of innovation in the space sector Yearbook on Space Policy 2008/2009 Kai-Uwe Schrogl, Blandina Baranes, Christophe Venet, Wolfgang Rathgeber, 2011-02-02 The Yearbook on Space Policy aims to be the reference publication analysing space policy developments Each year it presents issues and trends in space policy and the space sector as a whole Its scope is global and its perspective is European The Yearbook also links space policy with other policy areas It highlights specific events and issues and provides useful insights data and information on space activities The Yearbook on Space Policy is edited by the European Space Policy Institute ESPI based in Vienna Austria It combines in house research and contributions of members of the European Space Policy Research and Academic Network ESPRAN coordinated by ESPI The Yearbook is designed for government decision makers and agencies industry professionals as well as the service sectors researchers and scientists and the interested public *The Politics of Space* Eligar Sadeh, 2010-11-01 The pace of space exploration has long been dictated by political motivations This book helps to explain why this is so in the post Cold War era Combining essays a glossary of terms tables and statistics this new title from Routledge comes as a welcome addition to this increasingly popular topic The book covers theories and concepts as well as current issues gives a background to international and national space agencies contains essays that cover military commercial and governmental actors in space politics **Journal of Astronist Studies Volume 1 Issue 2** Cometan, Namrata Goswami, Giulio Prisco, Tsvi Bisk, 2025-08-04 Published by the Astronist Institution this second and concluding issue of the inaugural volume of the Journal of Astronist Studies brings together leading voices in the emerging field of space religion and space philosophy The issue opens with a major contribution from Tsvi Bisk who elaborates a speculative natural theology in his article Cosmodeism Prologue to a Theology of the Space Age Bisk develops the concept of Godding as the evolutionary emergence of divinity through cosmic consciousness offering a robust theoretical foundation for future space age theologies Cometan contributes three articles in this issue beginning with an in depth historical analysis titled The Legacy of Colonialism in the Recognition of Religions which explores how imperial attitudes have shaped modern systems of religious recognition and registration In I didn t know that had a name I am Astronist Analysing Online Reactions to Astronism Cometan examines public reactions to Astronism on social media offering an empirical window into early Astronist identity formation His third article in the issue is a review of Giulio Prisco s Irrational Mechanics Narrative Sketch of a Futurist Science A New Religion which closes the volume Namrata Goswami s article Astrophilosophy The Coming Together of Philosophy and Strategy in Regard to Outer Space presents a compelling framework that connects cosmic mythologies with geopolitical strategies drawing from the histories of the Navajo and the Naga peoples Finally Giulio Prisco s Cosmodeism and Cosmism Parallels Differences and Possible Synthesis builds on Bisk s article by considering how Cosmodeism might be merged with the eschatological vision of historical Russian Cosmism particularly in the context of technological resurrection and transhumanist spirituality Together the articles in this issue offer

a multidimensional exploration of space religion theology and strategy continuing the Journal's mission to pioneer academic inquiry into humanity's cosmic future

European Autonomy in Space Cen'an Al-Ekabi, 2015-01-07 The volume provides analyses and evaluations of the continuing importance of Europe's autonomy in its access to space as a key driver in the development of European space capabilities From a detailed historical analysis of some of the pitfalls of dependence in the space industry experts analyse the full range of current European space capabilities and identify areas where autonomy is both possible and required even in a situation of severe budgetary constraints The contributions present a comprehensive overview of European efforts in a broad range of areas including energy culture science and security access to space space applications human spaceflight security and space situational awareness and strategic issues They make a cogent strategic and economic case for policy makers to continue to bear in mind the importance of autonomous space capabilities even in an interdependent globalised world

The Economics of Space Sustainability Delivering Economic Evidence to Guide Government Action OECD, 2024-06-28 Earth's orbits are polluted by more than 100 million debris objects that pose a collision threat to satellites and other spacecraft The risk of perturbing highly valuable space based services critical to life on Earth such as weather monitoring and disaster management is making debris mitigation an urgent policy challenge This book provides the latest findings from the OECD project on the economics of space sustainability which aims to improve decision makers understanding of the societal value of space infrastructure and costs of space debris It provides comprehensive evidence on the growth of space debris presents methods to evaluate and quantify the value of the satellites at risk and discusses ways to ensure a more sustainable use of the orbital environment It notably includes case studies from Italy Japan and Korea on the socio economic value of different types of space infrastructure and discusses the feasibility and optimal design of fiscal measures and voluntary environmental rating schemes to change operator behaviour This work is informed by contributions from researchers worldwide involved in the OECD project

Predictions in Ungauged Basins Murugesu Sivapalan, 2006

A Coherent European Procurement Law and Policy for the Space Sector Stephan Hobe, Mahulena Hofmannová, Jan Wouters, 2011 Space is a matter of strategic importance and in need of concerted action by the European space actors Distinct approaches to public procurement must not hamper the cooperation between the European Space Agency the European Union and their respective Member States The study provides a toolbox for space procurement that addresses specificities of this sector Each tool is assessed in light of policy objectives market conditions and the legal frameworks of the European Union and the European Space Agency A discussion on selected means of policy implementation other than procurement so called Extra Procurement Instruments complements this toolbox The Third Way in European space procurement caters for both coherence and flexibility needs and is intended to serve policy makers as they finally make Europe in Space a reality
