Council on Hawaii land use policies Harold S Matsumoto Director of Planning State of Hawai i Startling provocative It should
be read by all land developers government regulators and citizens who care about preserving paradise Kent M Keith
President Chaminade University Former Director of Planning State of Hawai i Useful and succinct a needed clarion call for a
more appropriate balance between regulation and pro active planning Those who dislike the message that Hawaii can no
longer rely so heavily on regulation to preserve the Islands resources and exact public benefits from developers would
nevertheless be foolish to ignore it John P Whalen Former Director Department of Land Utilization City and County of
Honolulu A major contribution of this book is that it presents several alternatives to regulatory taking for preserving
environmental quality While this book focuses on the Hawaiian experience it offers much for planners and lawyers
everywhere Anthony James Catanese President and Professor Florida Atlantic University Callies has again provided a
comprehensive review of Hawaii s land use regulatory process He has presented his point of view that for legal and policy
reasons this regulatory system will not effectively preserve what is unique and important about Hawaii Dan Davidson

Michael A. Tomlan,2014-11-21 This well illustrated book offers an up to date synthesis of the field of historic preservation
cast as a social campaign concerned with the condition treatment and use of the legacy of existing properties in the United

States Drawing on a wide range of research experience and scholarship over the last fifty years it allows us to re think past and current ideas in preservation challenging readers to explore how their own interests lie within the cognitive framework of the activities taking place with people who care Who is involved is explored first in such a way as to explore why before examining what is deemed important After that the questions of when and how to proceed are given attention The major topics are introduced in an historical review through the mid 1980s after which the broad intellectual basis and fundamental legal framework is provided The economic shifts associated with major demographic changes are explored in tandem with responses of the preservation community A chapter is dedicated to the financial challenges and sources of revenue available in typical preservation projects and another chapter focuses on the manner in which seeing recording and interpreting information provides the context for an appropriate vision for the future In this regard it is made clear that not all green design alternatives are preservation sensitive The advocacy battles during the last few decades provide a number of short stories of the ethical battles regarding below ground and above ground historic resources and the eighth chapter attempts to explain why religion has been long held at arm s length in publicly supported preservation efforts when in fact it holds more potential to regenerate existing sites than any governmental program Quarterly Report of the National Council for Historic Sites and Buildings ,1974
