P. Telotte, 2018 Long before flying saucers robot monsters and alien menaces invaded our movie screens in the 1950s there was already a significant but overlooked body of cinematic science fiction Through analyses of early twentieth century animations comic strips and advertising *Animating the Science Fiction Imagination* unearths a significant body of cartoon science fiction from the pre World War II era that appeared at approximately the same time the genre was itself struggling to find an identity an audience and even a name In this book author J P Telotte argues that these films helped sediment the genre s attitudes and motifs into a popular culture that found many of those ideas unsettling even threatening By binding those ideas into funny and entertaining narratives these cartoons also made them both familiar and non threatening clearing a space for visions of

the future of other worlds and of change that could be readily embraced in the post war period

American Perspectives on Learning Communities and Opportunities in the Maker Movement Barker, Bradley S.,2019-01-11 The maker movement culture emphasizes informal peer led and shared learning while driving innovation Even though some experts view the maker movement as a move backward to pre industrial revolution manufacturing the purpose of making is not to have an abundance of tools in one space rather it is about helping participants create personally meaningful projects with the help of mentors experts and peers in ad hoc learning communities American Perspectives on Learning Communities and Opportunities in the Maker Movement is an essential reference source that discusses the maker movement in the United States artisanal perspectives and the learning through doing perspective Featuring research on topics such as educational spaces management creativity labs makerspaces and operating procedures this book is ideally designed for entrepreneurs artisans academicians researchers manufacturing professionals and students
