Bureau of Foreign and Domestic Commerce, 1946      **Visions of Loveliness** Judith M. Taylor, 2014-12-01 Gardeners of today take for granted the many varieties of geraniums narcissi marigolds roses and other beloved flowers for their gardens Few give any thought at all to how this incredible abundance came to be or to the people who spent a good part of their lives creating it These breeders once had prosperous businesses and were important figures in their communities but are only memories now They also could be cranky and quirky In the eighteenth and nineteenth centuries new and exotic species were arriving in Europe and the United States from all over the world and these plants often captured the imaginations of the unlikeliest of men from aristocratic collectors to gruff gardeners who hardly thought of themselves as artists But whatever their backgrounds they all shared a quality of mind that led them to ask What if and to use their imagination and skills to answer that question themselves The newest rose from China was small and light pink but what if it were larger and came in more colors Lilac was very nice in its way but what if its blossoms were double and frilly While there are many books about plant collectors and explorers there are none about plant breeders Drawing from libraries

archives and the recollections of family members horticultural historian Judith M Taylor traces the lives of prominent cultivators in the context of the scientific discoveries and changing tastes of their times Visions of Loveliness is international in scope profiling plant breeders from many countries for example China and the former East Germany whose work may be unknown to the Anglophone reader In addition to chronicling the lives of breeders the author also includes chapters on the history behind the plants by genus from shrubs and flowering trees to herbaceous plants **Seven Centuries of Lace** Mrs. Maria Margaret La Primaudaye Pollen,1908 *Persian Gardens & Garden Pavilions* Donald N. Wilber,1994-06-15 This Persian gardening book showcases classic gardens and pavilions and presents gardening advice for the aspiring amateur landscaper looking to add an Eastern flair to his or her yard The garden has always had a special meaning for Persian Iran The Persian garden with its flowing pools fountains waterways rows of tall trees rich arrays of fruit trees and flowers and cool pavilions has represented an image of paradise Persian Gardens Garden Pavilions is both a comprehensive survey and an appreciation of this Persian tradition of gardens and garden pavilions The text traces the historical development of Persian gardens describes their basic features presents existing examples and discusses the literature and tradition behind them The 119 illustrations include detailed plans and photographs of surviving gardens and their pavilions made on the spot as well as a comprehensive collection of paintings lithographs and drawings of the nineteenth century executed both by Persian artists and by European travelers and emissaries of the period The author points out the gardeners who read this book should come across many details and ideas that can be incorporated into their own kinds of gardens *French Studies in and for the 21st Century* Philippe Lane,Michael Worton,2011-07-07 French Studies in and for the 21st Century draws together a range of key scholars to examine the current state of French Studies in the UK taking account of the variety of factors which have made the discipline what it is The book looks ahead to the place of French Studies in a world that is increasingly interdisciplinary and where student demands new technologies and transnational education are changing the ways in which we learn teach research and assess Required reading for all UK French Studies scholars the book will also be an essential text for the French Studies community worldwide as it grapples with current demands and plans for the future
