Foner,1972 This major work by Philip Foner the well known historian has as its chief object the re definition of the conflict known in the U S historiography as the Spanish American war This very name in his view reflects the bias of two generations of historians who relegated Cuba to the passive position of a prize in a struggle between Spain and the United States It is his contention that the Cuban nation by virtue of its prolonged and successful rebellion of 1895 1898 treated in Vol 1 was a central protagonist of the conflict its role ending when it was subjected to neocolonial status by the United States In pursuing this new outlook Professor Foner studied the sources available in the United States the rich materials in the Archivo Nacional and the Library of the City Historian in Havana and enlisted help and documentary evidence furnished by the leading historians and historical institutes of Cuba These sources have enabled him to deal at length with the occupation and subjugation of Cuba by the United States and reconstruct the story in richer detail and in a more realistic interpretation than has ever been done before Volume II begins with the war in Cuba after U S intervention in 1898 and covers the imposition of U S domination of Cuba through the Platt Amendment which marked the beginning of American neocolonialism Back cover **Oklahoma Treasures and Treasure Tales** Steve Wilson,1989-05-01 Contains stories some true some legendary about caches of lost treasure The Saturday Review of Politics, Literature, Science and Art ,1911 The American Soldier, 1866-1916 John A. Lee, 2016-02-17 Bringing to bear the latest developments across various areas of research and disciplines this collection provides a broad perspective on how Western Europe made sense of a complex multi faceted and by and large Sino centered East and Southeast Asia The volume covers the transpacific period after Magellan s opening of the transpacific route to the Far East and before the eventual dominance of the region by the British and the Dutch In contrast to the period of the Enlightenment during which Orientalist discourses arose this initial period of encounters and conquest is characterized by an enormous curiosity and a desire to seize not only materially but intellectually the lands and peoples of East Asia The essays investigate European visions of the Far East particularly of China and Japan and examine how and why particular representations of Asians and their cultural practices were constructed revised and adapted Collectively the essays show that images of the Far East were filtered by worldviews that ranged from being on the one hand universalistic and relatively equitable towards cultures to the other extreme unilaterally Eurocentric

Spain's pivotal role in the colonization of the Americas, Africa, and Asia; this book not only breaks new ground in Iberian literary and cultural studies but also significantly broadens the scope of recent debates in postcolonial feminist theory to account for the Spanish empire and its former colonies. Organized into three sections: colonialism and women's migrations, race performance and colonial ideologies, and gender and colonialism in literary and political debates, *Unsettling Colonialism* brings together the work of nine scholars. Given its interdisciplinary approach and accessible style, the book will appeal to both specialists in nineteenth-century Iberian and Latin American studies and a broader audience of scholars in gender, cultural, transatlantic, transpacific, postcolonial, and empire studies.
