Barrio Urbanism David R. Diaz,2005-08-08 This the first book on Latinos in America from an urban planning policy perspective covers the last century and includes a substantial historical overview the subject The authors trace the movement of Latinos primarily Chicanos into American cities from Mexico and then describe the problems facing them in those cities They then show how the planning profession and developers consistently failed to meet their needs due to both poverty and racism Attention is also paid to the most pressing concerns in Latino barrios during recent times including environmental degradation and justice land use policy and others The book closes with a consideration of the issues that will face Latinos as they become the nation s largest minority in the 21st century *Educating Immigrant Children* Charles L. Glenn,Ester J. De Jong,1996-08-01 This study is concerned with the ways in which a dozen knowledge based societies of Western Europe and the English speaking world respond to unprecedented cultural and linguistic diversity resulting from the flow of immigrants and refugees since World War II It asks how public policy has sought to use schooling to minimize the potentially divisive and inequitable effects of this diversity and to provide opportunities to the children of immigrants It asks also how the nature of each of these societies affects the meaning of integration into each of them **Latino Urbanism**

David R. Diaz,Rodolfo D. Torres,2012-11-05 America s Latina o population has now reached over 50 million or 15% of the estimated total U S population of 300 million and a growing portion of the world s population now lives and works in cities that are increasingly diverse Latino Urbanism provides the first national perspective on Latina o urban policy addressing a wide range of planning policy issues that impact both Latinas os in the US as well as the nation as a whole tracing how cities develop function and are affected by socio economic change The three sections of the book address the politics of planning and its historic relationship with Latinas os the relationship between the Latina o community and conventional urban planning issues and challenges and the future of urban policy and Latina o barrios Moving beyond a traditional analysis of Latinas os in the Southwest the volume expands the understanding of the important relationships between urbanization and Latinas os including Mexican Americans of several generations within the context of the restructuring of cities in view of the cultural and political transformation currently encompassing the nation Latinos in New York Sherrie Bayer,Angelo

Falc3n,Gabriel Haslip-Viera,2017-06-23 Significant changes in New York City s Latino community have occurred since the first edition of *Latinos in New York Communities in Transition* was published in 1996 The Latino population in metropolitan New York has increased from 1.7 million in the 1990s to over 2.4 million constituting a third of the population spread over five boroughs Puerto Ricans remain the largest subgroup followed by Dominicans and Mexicans however Puerto Ricans are

no longer the majority of New York's Latinos as they were throughout most of the twentieth century. Latinos in New York: Communities in Transition, second edition, is the most comprehensive reader available on the experience of New York City's diverse Latino population. The essays in Part I examine the historical and sociocultural context of Latinos in New York. Part II looks at the diversity comprising Latino New York. Contributors focus on specific national origin groups including Ecuadorians, Colombians, and Central Americans and examine the factors that prompted emigration from the country of origin, the socioeconomic status of the emigrants, the extent of transnational ties with the home country, and the immigrants' interaction with other Latino groups in New York. Essays in Part III focus on politics and policy issues affecting New York's Latinos. The book brings together leading social analysts and community advocates on the Latino experience to address issues that have been largely neglected in the literature on New York City. These include the role of race, culture, and identity; health; the criminal justice system; the media; and higher education subjects that require greater attention both from academic as well as policy perspectives. Contributors: Sherrie Baver, Juan Cartagena, Javier Castaño, Ana María Díaz, Stevens Angelo Falcon, Juan Flores, Gabriel Haslip, Viera Ramona Hernández, Luz Yadira Herrera, Gilbert Marzón, Ed Morales, Pedro A. Noguera, Rosalva Reyes, Clara E. Rodríguez, José Ramón Sánchez Walker, Simon Robert Courtney Smith, Andrés Torres, and Silvio Torres Saillant.

Pan-African Issues in Drugs and Drug Control Anita Kalunta-Crumpton, 2016-03-03. Popular war on drugs rhetoric postulates drug use in the West as the product of the drug production and trafficking roles of non-western societies and non-western peoples within and outside the West. In such rhetoric, African societies and people of African descent in Africa and in Diaspora have received criticisms for their respective roles in drug production and drug trafficking, including the position of many African countries as transit routes for drugs exported to the West. By contrast, the abuse of drugs by populations of African origin around the globe and the harmful consequences of the drug trade and drug abuse on these populations has been little studied. Drawing on contributions from seven countries in Africa, two countries in Europe, and seven countries in the Americas, this volume examines the relationships between drug use, drug trafficking, drug controls, and the black population of a given society. Each chapter examines the nature and pattern of drug use or abuse, the effects of drug use or abuse, illegal or and legal, on other areas such as health and crime; the nature, pattern, and perpetration of trafficking and sale of illegal or and legal drugs; and past and current policies and control of illegal and or legal drugs. It will be essential reading for all students, academics, and policy makers working in the area of drug control. **The**
