## **Skip Bombing In Rabaul Harbor:**

*Skip Bombing* James T. Murphy, A. B. Feuer, 1993-05-24 Murphy was one of a very small number of volunteer pilots who with their flight crews started bombing at low altitudes in B 17 flying fortresses in the Southwest Pacific. The aircraft were flown at a 200 foot altitude and at 250 miles per hour at night. One thousand pound bombs equipped with four to five second fuses were dropped from the B 17s. On March 3 1943 the Japanese made a desperate move to resupply their forces on New Guinea. Twenty two cargo transport and war ships proceeded toward New Guinea using bad weather for cover. They were found in the Bismarck Sea. The Allied Air Forces using skip bombing sank all twenty two Japanese ships. Murphy was credited with sinking nine Japanese ships during his year of combat including one in the Bismarck Sea battle. Skip bombing became a tactic that helped the U S win the war in the South Pacific. **Air Force Magazine** ,1990 **A War of Their Own:**

**Bombers Over the Southwest Pacific [Illustrated Edition]** Captain Matt Rodman, 2014-08-15 Illustrated with more than 45 diagrams, photos and tables. Captain Rodman, an instructor weapon systems officer at Dyess AFB Texas, examines the distinctive nature of Fifth Air Force's role in the air war over the Southwest Pacific Area during World War II. Especially notable is Gen. George Kenney's innovative use of light attack aircraft as well as both medium and heavy bombardment aircraft characterized by theater specific tactics, ordnance and structural modifications. *A War of Their Own* also considers the free exchange of aircraft and missions in the Southwest Pacific, a hallmark of that theater in terms of the conflict between doctrine and tactics that underlay Fifth Air Force's relationship to the prewar Army Air Corps and the postwar Air Force. The author also notes the relevance of the Fifth's experiences to airpower. **Fortress Rabaul** Bruce Gamble, 2013-09-09 For

most of World War II the mention of Japan's island stronghold sent shudders through thousands of Allied airmen. Some called it Fortress Rabaul, an apt name for the headquarters of the Imperial Japanese forces in the Southwest Pacific. Author Bruce Gamble chronicles Rabaul's crucial role in Japanese operations in the Southwest Pacific. Millions of square feet of housing and storage facilities supported a hundred thousand soldiers and naval personnel. Simpson Harbor and the airfields were the focus of hundreds of missions by American air forces. Winner of the Gold Medal Military Writers Society of America and Editor's Choice Award. *Stone Stone Second World War Books*. *Fortress Rabaul* details a critical and until now little understood chapter in the history of World War II. **Fortress Against The Sun** Gene E. Salecker, E. Salecker, 2007-10-09 Most often

remembered for its role in the air war against Germany, no book has ever before been devoted to the B 17's Pacific operations. The author combines technical and operational detail with eyewitness accounts by crews and commanders to present a fascinating account of a famous aircraft at war. **Reports of General MacArthur: sup. MacArthur in Japan : The occupation : Military phase** Douglas MacArthur, 1966 Reports of General MacArthur are the official after action reports of General of the Army Douglas MacArthur. Long out of print, this facsimile edition contains not only MacArthur's own perspective of his operations against the Japanese in the Southwest Pacific Area during World War II but also the enemy's

unique account of Imperial Army campaigns against MacArthur's forces. Collectively the reports have substantial and enduring value for military historians and students of military affairs providing an illuminating record of momentous events influenced in large measure by a distinguished Soldier and towering figure in American historiography <https://history.army.mil>

**Air War in the Pacific: The Journal of General George Kenney, Commander of the Fifth U.S. Air Force** George C. Kenney, 2018-09-18 *Air War in the Pacific* details the development and ultimate supremacy of the US Air Force during World War 2. Written from the perspective of General George C. Kenney, the man in charge, the book is a candid insider's account of how America turned the tables on the Japanese in the Pacific through a combination of strategy, tactics, and superior air technology. [Elements of Military Strategy](#) Bloomsbury Publishing, 1996-09-30 This book uses history in two ways: as the source of ideas about strategy and as examples to illustrate the elements by showing their application to specific campaigns and their utility in understanding the role of strategy in military operations. The focus is on American military campaigns from the American Indian Wars to the War in the Gulf. Those case studies are used to illustrate the strategy behind land, sea, and air campaigns. Over a fifth of the book examines the US war against Japan because it furnishes such fine examples of independent and interdependent operations on land, on the sea, and in the air. The cases studied are not only intended to illustrate strategic ideas but also to show the utility of the author's distinctive approach to organizing military strategy. The book will appeal to military professionals, students of military science, and enthusiasts. *War in Pacific Skies* Charlie Cooper, Ann Cooper, 2010-11-06 Paintings by the renowned aviation artist, plus lots of wartime photographs and plenty of entertaining and informative text, absorbing reading. *Aviation History* Climb in to the cockpit of some of America's most heralded warbirds like the P-38 that carried Richard Bong to his forty kills and fly along with Paul Tibbitts in the *Enola Gay* as it makes its final approach on Hiroshima. This lavishly illustrated book covers the most famous air engagements in World War II's Pacific Theater of Operation in an exquisite and beautiful fusion of art and history. Paintings by acclaimed aviation artist Jack Fellows are supplemented by color maps, previously unpublished photographs, original artwork, and personal accounts. **Piercing the Fog** John F. Kreis, 1996 John F. Kreis, general editor. Focuses on how airmen built intelligence organizations during World War 2 to collect and process information about the enemy and how they produced and disseminated this intelligence to decisionmakers and warfighters. **Operation PLUM** Adrian R. Martin, Larry W. Stephenson, 2010-07-15 They went in as confident young warriors. They came out as battle-scarred veterans, POW camp survivors, or worse. The Army Air Corps 27th Bombardment Group arrived in the Philippines in November 1941 with 1,209 men; one year later, only 20 returned to the United States. The Japanese attacked the Philippines on the same morning as Pearl Harbor and invaded soon after. Allied air routes back to the Philippines were soon cut, forcing pilots to fight their air war from bases in Java, Australia, and New Guinea. The men on Bataan were eventually taken prisoner and forced into the infamous Death March. The 27th and other such units were pivotal in delaying the Japanese timetable for conquest. If not for

these units some have suggested the Allied offensive in the Pacific might have started in Hawaii or even California instead of New Guinea and the surrounding islands Based largely on primary materials including a fifty nine page report written by the surviving unit members in September 1942 Operation PLUM from the code name for the U S Army in the Philippines gives an account of the 27th Bombardment Group and through it the opening months of the Pacific theater Military historians and readers interested in World War II will appreciate the rich perspective presented in Operation PLUM *The War Against Japanese Transportation 1941-1945* United States Strategic Bombing Survey,United States Strategic Bombing Survey. **New Guinea 1942-43** Mark Stille,John Rogers,2025-09-25 Lavishly illustrated this book studies the role of airpower in the New Guinea battles of 1942 43 as the Allies checked and halted Japan s last significant offensives Mark Stille and John Rogers offer a new history of a previously neglected part of the South Pacific air war the battles over New Guinea and the waters around it The first of two books on the subject drawing on Japanese American and Australian sources it details operations from February 1942 until April 1943 which saw the Allies stop the last Japanese efforts to expand their faltering empire Allied air operations focused on denying the Japanese the use of the sea to send reinforcements to New Guinea during the battles for Buna and Gona the unsuccessful and little known Japanese invasion at Milne Bay and the Battle of the Bismarck Sea in which a major Japanese effort to move troops to New Guinea was crushed by air power While the Japanese had over extended and lost operational focus the Allies were successful in interdicting sea movement of Japanese forces to New Guinea However immature tactics meant air power was largely ineffective supporting their ground campaign Packed with photos superb original battlescenes 3D diagrams and maps this book explains the roles of Japanese and Allied air power in the crucial battle of New Guinea Reminiscences

Douglas MacArthur,2012-04-15 Written in his own hand and finished only weeks before his death Gen Douglas MacArthur s memoir spans more than half a century of modern history His vantage point at center stage during major controversies of the twentieth century enabled him to present unique views of the conflicts in which he played a vital role No soldier in modern time has been more admired or reviled Liberator of the Philippines shogun of Occupied Japan victor of the Battle of Inchon the general was a national hero when suddenly relieved of his command by President Truman His supporters believe his genius for command and ability to implement that command by strategy stand as landmarks in military history His critics are
