The Power of Pygmalion Liana Giannakopoulou, 2007 This book explores the relationship between ancient Greek sculpture and modern Greek poetry between 1860 and 1960 It examines in some detail poems by Vasileiadis Rangavis Palamas Cavafy Sikelianos and Seferis and shows how these poets appropriate the art of sculpture and in what ways this contributes to our understanding of each poet's poetics Ancient Greek sculpture and sculptural imagery related to it are inevitably associated with the Classical heritage and bring the issue of ancient tradition and its relation to the modern artist into a prominent position What is more sculpture is particularly important for the erotic dimension through which the poets perceive their relation with art and each poet systematically uses the image of the sculptor to define his perception of the artist In both cases the myth of Pygmalion may be seen as successfully embodying each poet's relation with art and tradition

revisits the style and the personal contributions of the great masters *Displaying the Ideals of Antiquity* Johannes Siapkias, Lena Sjögren, 2013-08-29 *Displaying the Ideals of Antiquity* investigates the study and display of ancient sculpture from archaeological art historical and museum studies perspectives Ancient sculptures not only give us knowledge about ancient Greek and Roman pasts but they also mediate ideals that inform modern perceptions of antiquity This book analyzes how an art historical tradition establishes and preserves an idealized view of antiquity in classical archaeology and in museum exhibitions The authors investigate how these ideals are kept alive today an approach that often is neglected in studies on ancient reception This book offers an international scope and illustrates how academic conceptual foundations influence museum exhibitions This timely volume discusses contemporary museum exhibitions of ancient sculpture and clarifies how old discourses continue to affect museum exhibitions and conceptualizations of ancient sculptures The authors analyze close to 100 museums around the world and demonstrate the ways in which ancient sculptures are mediated across Europe and the West **Greece Through the Stereoscope** Rufus Byam Richardson, 1900 **Conversations-Lexicon Für Bildende Kunst**, 1843 **Greek Art and Aesthetics in the Fourth Century B.C.** William A. P. Childs, 2018-04-10 *Greek Art and Aesthetics in the Fourth Century B C* analyzes the broad character of art produced during this period providing in depth analysis of and commentary on many of its most notable examples of sculpture and painting Taking into consideration developments in style and subject matter and elucidating political religious and intellectual context William A P Childs argues that Greek art in this era was a natural outgrowth of the high classical period and focused on developing the rudiments of individual expression that became the hallmark of the classical in the fifth century As Childs shows in many respects the art of this period corresponds with the philosophical inquiry by Plato and his contemporaries into the nature of art and speaks to the contemporaneous sense of insecurity and renewed religious devotion Delving into formal and iconographic developments in sculpture and painting Childs examines how the sensitive expressive quality of these works seamlessly links the classical and Hellenistic periods with no appreciable rupture in the continuous exploration of the human condition Another overarching theme concerns the nature of style as a concept of expression an issue that becomes more important given the increasingly multiple styles and functions of fourth century Greek art Childs also shows how the color and form of works suggested the unseen and revealed the profound character of individuals and the physical world *The Art of Ancient Greece* J. J. Pollitt, 1990 This book a companion volume to Professor Pollitt's *The Art of Rome Sources and Documents* published by the Press in 1983 presents a comprehensive collection in translation of ancient literary evidence relating to Greek sculpture painting architecture and the decorative arts Its purpose is to make this important evidence available to students who are not specialists in the Classical languages or Classical archaeology The author's translations of a wide selection of Greek and Latin texts are accompanied by an introduction explanatory commentary and a full bibliography An earlier version of this book was published twenty five years ago by Prentice Hall In this new publication Professor Pollitt has

added a considerable number of new passages revised some of his earlier translations and presented the texts in a different order which allows the reader to follow more easily the development of sculpture and painting as perceived by the ancient writers The new and substantial bibliography organised by topics as they appear in the book emphasises works that deal directly with the literary sources or that supplement our knowledge of the personalities and monuments described in the sources This collection will be welcomed by students and teachers of Greek art who have long been in need of an authoritative and reliable sourcebook for their subject Experience, Narrative, and Criticism in Ancient Greece Jonas Grethlein, Luuk Huitink, Aldo Carlo Fernando Tagliabue, 2020 Drawing on cognitive approaches to literary studies this volume pursues a new approach to ancient Greek narrative that transcends the taxonomies of structuralist narratologies deploying concepts such as immersion and embodiment in order to establish a more comprehensive understanding of ancient Greek narrative and ancient reading habits **Polykleitos, the Doryphoros, and Tradition** Warren G. Moon, 1995 Polykleitos the Doryphoros and Tradition displays an impressive range of approaches beginning with commentary on the artistic and philosophical antecedents that influenced Polykleitos own aesthetic as well as the role of contemporary Greek anatomical knowledge in his representation of the human form Many of the essays offer extended analysis and detailed illustration of his surviving sculptures later copies of his work and reflections of his style in sculpture paintings coins and other art in Greece Italy and Asia Minor Several essays offer an extended discussion of Polykleitos original bronze Doryphoros its pose its relation to other spearbearer sculptures and the fine Roman marble copy of it now at the Minneapolis Institute of Arts
