**RM Cervero**

## **Slavery A Problem In American Instit 2nd Edition:**

**Making Imperial Mentalities** J. Mangan, 2012-05-04 This book discusses the way in which those born into the British empire were persuaded to accept it often with enthusiasm The study compares the perceptions of people at home in the dominions and in the colonies Across the diversity of imperial territories it explores themes such as the diverse nature of political socialisation the various agents and agencies of persuasion reaction to the experience of dominance by dominant and dominated the paradoxical impact of the missionary and the subversive role of some women It also considers the significant issues of colonial adaptation resistance and rejection and the post imperial consequences of imperialism

**American Slavery, Atlantic Slavery, and Beyond** Enrico Dal Lago, 2015-12-22 American Slavery Atlantic Slavery and Beyond provides an up to date summary of past and present views of American slavery in international perspective and suggests new directions for current and future comparative scholarship It argues that we can better understand the nature and meaning of American slavery and antislavery if we place them clearly within a Euro American context Current scholarship on American slavery acknowledges the importance of the continental and Atlantic dimensions of the historical phenomenon comparing it often with slavery in the Caribbean and Latin America However since the 1980s a handful of studies has looked further and has compared American slavery with European forms of unfree and nominally free labor Building on this innovative scholarship this book treats the U S peculiar institution as part of both an Atlantic and a wider Euro American world It shows how the Euro American context is no less crucial than the Atlantic one in understanding colonial slavery and the American Revolution in an age of global enlightenment reformism and revolutionary upheavals the Cotton Kingdom s heyday in a world of systems of unfree labor and the making of radical Abolitionism and the occurrence of the American Civil War at a time when nationalist ideologies and nation building movements were widespread The Civil War and Reconstruction [Second Edition] Prof. J. G. Randall, Prof. David Donald, 2016-08-09 This is a revised edition by David Herbert Donald of his former professor J G Randall s book The Civil War and Reconstruction which was originally published in 1937 and had long been regarded as the standard work in its field serving as a useful basic Civil War reference tool for general readers and textbook for college classes This Second Edition retains many of the original chapters such as those treating border state problems non military developments during the war intellectual tendencies anti war efforts religious and educational movements and propaganda methods bearing evidence of Mr Randall s thoroughgoing exploration of the manuscripts and archives whilst it expands considerably on other original chapters such as those relating to the Confederacy Still other portions have been entirely recast or rewritten such as the pre war period chapters and Reconstruction chapters reflecting factual updates since Randall s original publication A must read for all Civil War students and scholars **Setting Slavery's Limits** Christopher H. Bouton, 2019-11-20 Using slave trials from antebellum Virginia Christopher H Bouton offers the first in depth examination of physical confrontations between slaves and whites These extraordinary acts of violence

brought the ordinary concerns of enslaved Virginians into focus Enslaved men violently asserted their masculinity sought to protect themselves and their loved ones from punishment and carved out their own place within southern honor culture Enslaved women resisted sexual exploitation and their mistresses By attacking southern efforts to control their sexuality and labor bondswomen sought better lives for themselves and undermined white supremacy Physical confrontations revealed the anxieties that lay at the heart of white antebellum Virginians and threatened the very foundations of the slave regime itself While physical confrontations could not overthrow the institution of slavery they helped the enslaved set limits on their owners exploitation They also afforded the enslaved the space necessary to create lives as free from their owners influence as possible When masters and mistresses continually intruded into the lives of their slaves they risked provoking a violent backlash

*Setting Slavery's Limits* explores how slaves of all ages and backgrounds resisted their oppressors and risked everything to fight back

*City of Refuge* Marcus P. Nevius, 2020-02-01 *City of Refuge* is a story of petit marronage an informal slave's economy and the construction of internal improvements in the Great Dismal Swamp of Virginia and North Carolina The vast wetland was tough terrain that most white Virginians and North Carolinians considered uninhabitable Perceived desolation notwithstanding black slaves fled into the swamp's remote sectors and engaged in petit marronage a type of escape and fugitivity prevalent throughout the Atlantic world An alternative to the dangers of flight by way of the Underground Railroad maroon communities often neighbored slave labor camps the latter located on the swamp's periphery and operated by the Dismal Swamp Land Company and other companies that employed slave labor to facilitate the extraction of the Dismal's natural resources Often with the tacit acceptance of white company agents company slaves engaged in various exchanges of goods and provisions with maroons networks that padded company accounts even as they helped to sustain maroon colonies and communities In his examination of life commerce and social activity in the Great Dismal Swamp Marcus P. Nevius engages the historiographies of slave resistance and abolitionism in the early American republic *City of Refuge* uses a wide variety of primary sources including runaway advertisements planters and merchants records inventories letterbooks and correspondence abolitionist pamphlets and broadsides county free black registries and the records and inventories of private companies to examine how American maroons enslaved canal laborers white company agents and commission merchants shaped and were shaped by race and slavery in an important region in the history of the late Atlantic world

**Southern History across the Color Line, Second Edition** Nell Irvin Painter, 2021-02-17 The color line once all too solid in southern public life still exists in the study of southern history As distinguished historian Nell Irvin Painter notes we often still write about the South as though people of different races occupied entirely different spheres In truth although blacks and whites were expected to remain in their assigned places in the southern social hierarchy throughout the nineteenth century and much of the twentieth century their lives were thoroughly entangled In this powerful collection of pathbreaking essays Painter reaches across the color line to examine how race gender class and individual subjectivity

shaped the lives of black and white women and men in the nineteenth and twentieth century South She explores such themes as interracial sex white supremacy and the physical and psychological violence of slavery using insights gleaned from psychology and feminist social science as well as social cultural and intellectual history The book illustrates both the breadth of Painter s interests and the originality of her intellectual contributions This edition features refreshed essays and a new preface that sheds light on the development of Painter s thought and our continued struggles with racism in the twenty first century

**Prison and Slavery - A Surprising Comparison** John Dewar Gleissner,2010-11-17 This historically accurate and thoroughly researched book compares the modern American prison system to antebellum slavery The surprising comparison proves that antebellum slavery was not as bad as many believe while modern mass incarceration is an unrealized social and financial disaster of mammoth proportions

**Slave Against Slave** Jeff Forret,2015-11-16 In the first ever comprehensive analysis of violence between slaves in the antebellum South Jeff Forret challenges persistent notions of slave communities as sites of unwavering harmony and solidarity Though existing scholarship shows that intraracial black violence did not reach high levels until after Reconstruction contemporary records bear witness to its regular presence among enslaved populations Slave against Slave explores the roots of and motivations for such violence and the ways in which slaves masters churches and civil and criminal laws worked to hold it in check Far from focusing on violence alone Forret s work also adds depth to our understanding of morality among the enslaved revealing how slaves sought to prevent violence and punish those who engaged in it Forret mines a vast array of slave narratives slaveholders journals travelers accounts and church and court records from across the South to approximate the prevalence of slave against slave violence prior to the Civil War A diverse range of motives for these conflicts emerges from tensions over status differences to disagreements originating at work and in private to discord relating to the slave economy and the web of debts that slaves owed one another to courtship rivalries marital disputes and adulterous affairs Forret also uncovers the role of explicitly gendered violence in bondpeople s constructions of masculinity and femininity suggesting a system of honor among slaves that would have been familiar to southern white men and women had they cared to acknowledge it Though many generations of scholars have examined violence in the South as perpetrated by and against whites the internal clashes within the slave quarters have remained largely unexplored Forret s analysis of intraracial slave conflicts in the Old South examines narratives of violence in slave communities opening a new line of inquiry into the study of American slavery

**Slave Culture** Spencer R. Crew,Lonnie G. Bunch III,Clement A. Price,2014-05-28 For the first time the WPA Slave Narratives are organized by theme making it easier to examine and understand specific aspects of slave life and culture There is no better way to appreciate history than to experience it through the eyes of those who lived it Slave Culture A Documentary Collection of the Slave Narratives from the Federal Writers Project brings together the memories of the last generation of enslaved African Americans gathered through interviews conducted between 1936 and 1938 This three volume work stands apart from

previous Slave Narrative collections in that it organizes the narratives thematically bringing the rich tapestry of slave culture to life in a fresh way Within each thematic area multiple excerpts span time gender and geography An introductory essay for each theme and a contextual explanation for each narrative help readers draw lessons from this vast collection while an introduction to the work explains the Works Progress Administration s Slave Narrative project illuminating still another era in American history *Resources in Education* ,1986

**The Human Rights Challenge to Immunity in International Law** Selman Özdan,2022-02-12 This book focuses on the tension between the protection of human rights recognised as jus cogens peremptory norms on the one hand and the bestowal of immunity on the state and its representatives on the other to ascertain how these immunities can be eroded if not fully abolished to maintain full protection of jus cogens human rights under international law The book argues that immunity should not equate to impunity when violations of jus cogens human rights are committed by States Heads of State or diplomatic agents To make the case the organic structures of the concepts of sovereignty and fundamental human rights are examined Then the human rights based challenge to immunity is presented with respect to State Head of State and diplomatic immunity and the transition from a state centric system to a human centric system is explored Jus cogens norms are at the centre of the impunity versus immunity debate

**Human Behavior for Social Work Practice, Second Edition** Wendy L. Haight,Edward H. Taylor,2013-06-15 Contemporary social workers continue to face growing challenges of complex and diverse issues such as child maltreatment poverty unemployment oppression violence mental illness and end of life care across varied contexts Wendy L Haight and Edward H Taylor present their book Human Behavior for Social Work Practice Second Edition as a core text that will help students implement a consistent framework through which to approach multifaceted social issues in any environment whether it be in inner city schools or rural nursing homes with individuals of different ages ethnicities and socioeconomic status Human Behavior for Social Work Practice Second Edition uses the developmental ecological systems perspective as an analytic tool to show students how social scientific evidence helps us understand human development and enhances social work practice Students will learn that by effectively connecting theory to practice they can develop successful strategies to use as they encounter complex issues currently facing social workers The authors have reorganized and expanded this new edition to better illustrate developmental thinking in social work practice throughout the lifespan This book also now includes special topic chapters on human brain development and the increasing relevance of neuroscience to social work practice as well as important social justice issues specific to race and gender that occur throughout the lifespan Also new to this edition Haight and Taylor have developed instructor s materials that can be tailored to include the social work experience of the instructor It is comprehensive so that no additional resources are needed and it is dynamically structured so information can be added where relevant to the course material

**Slavery and Its Aftermath** Peter I. Rose, [Race and U.S. Foreign Policy in the Ages of Territorial and Market Expansion, 1840-1900](#) E. Nathaniel Gates,2014-03-05 First Published in 1998 Explores the

concept of race The term race which originally denoted genealogical or class identity has in the comparatively brief span of 300 years taken on an entirely new meaning In the wake of the Enlightenment it came to be applied to social groups This ideological transformation coupled with a dogmatic insistence that the groups so designated were natural and not socially created gave birth to the modern notion of races as genetically distinct entities The results of this view were the encoding of race and racial hierarchies in law literature and culture How racial categories facilitate social control The articles in the series demonstrate that the classification of humans according to selected physical characteristics was an arbitrary decision that was not based on valid scientific method They also examine the impact of colonialism on the propagation of the concept and note that racial categorization is a powerful social force that is often used to promote the interests of dominant social groups Finally the collection surveys how laws based on race have been enacted around the world to deny power to minority groups A multidisciplinary resource This collection of outstanding articles brings multiple perspectives to bear on race theory and draws on a wider range of periodicals than even the largest library usually holds Even if all the articles were available on campus chances are that a student would have to track them down in several libraries and microfilm collections Providing of course that no journals were reserved for graduate students out for binding or simply missing This convenient set saves students substantial time and effort by making available all the key articles in one reliable source Authoritative commentary The series editor has put together a balanced selection of the most significant works accompanied by expert commentary A general introduction gives important background information and outlines fundamental issues current scholarship and scholarly controversies Introductions to individual volumes put the articles in context and draw attention to germinal ideas and major shifts in the field After reading the material even a beginning student will have an excellent grasp of the basics of the subject

**Race in North America** Audrey Smedley, 2018-04-20 This sweeping work traces the idea of race for more than three centuries to show that race is not a product of science but a cultural invention that has been used variously and opportunistically since the eighteenth century Updated throughout the fourth edition of this renowned text includes a compelling new chapter on the health impacts of the racial worldview as well as a thoroughly rewritten chapter that explores the election of Barack Obama and its implications for the meaning of race in America and the future of our racial ideology

**The Professional Counselor's Desk Reference, Second Edition** Mark A. Stebnicki, Irmo Marini, 2015-08-21 This award winning bestselling reference for professional counselors and graduate students is extensively updated and expanded to encompass critical developments that are immediately relevant to the counseling professions including the 2014 American Counseling Association Code of Ethics CACREP CORE accreditation standards DSM 5 the Affordable Care Act and many other important changes It reflects the ongoing consolidation of a strong identity for professional counselors and the need to address mental health and other counseling concerns amidst marked socio cultural changes The only resource of its kind it is an extremely useful guide for counseling students working toward licensure and certification as well as experienced

**Humans, Animals, and U.S. Society in the Long Nineteenth Century: A Documentary History** Dominik Ohrem, 2025-11-18 Volume II continues the discussion of animals animality in U S social and scientific thought to address the ways in which the nexus of ideas surrounding human animal distinctions became intertwined with interhuman hierarchies and power relations including through the synergistic dynamics between race and species as co implicating taxonomies of power Claire Jean Kim that informed both chattel slavery and settler violence against Indigenous peoples A second section traces the evolution of animal advocacy from early individual voices to the formation of an organised movement following the Civil War documenting a shift however limited by structural constraints from largely anthropocentric concerns with the social consequences of human cruelty towards other creatures to a broader moral consideration for nonhuman animals in their own right

**Native Land Talk** Yael Ben-zvi, 2018-01-02 Histories of rights

have too often marginalized Native Americans and African Americans Addressing this lacuna Native Land Talk expands our understanding of freedom by examining rights theories that Indigenous and African descended peoples articulated in the eighteenth and nineteenth centuries As settlers began to distrust the entitlements that the English used to justify their rule the colonized and the enslaved formulated coherent logics of freedom and belonging By anchoring rights in nativity they countered settlers attempts to dispossess and disenfranchise them Drawing on a plethora of texts including petitions letters newspapers and official records Yael Ben zvi analyzes nativity s unsettling potentials and its discursive and geopolitical implications She shows how rights were constructed in relation to American African and English spaces and explains the obstacles to historic solidarity between Native American and African American struggles *Stolen Childhood, Second Edition* Wilma King, 2011-06-29 One of the most important books published on slave society *Stolen Childhood* focuses on the millions of children and youth enslaved in 19th century America This enlarged and revised edition reflects the abundance of new scholarship on slavery that has emerged in the 15 years since the first edition While the structure of the book remains the same Wilma King has expanded its scope to include the international dimension with a new chapter on the transatlantic trade in African children and the book s geographic boundaries now embrace slave born children in the North She includes data about children owned by Native Americans and African Americans and presents new information about children s knowledge of and participation in the abolitionist movement and the interactions between enslaved and free children
