Space Shuttle Challenger Ben Evans, 2007-07-05 Ironically the loss of Challenger in January 1986 fired my interest in space exploration more than any other single event I was nine years old My parents were at the time midway through moving house and luckily the TV was one of the few domestic items still to be

packed I watched the entire horror unfold live on all of the network stations Admittedly my fascination with rockets and astronauts stars and planets had begun several years earlier but Challenger s destruction turned it from an occasional hobby to a fascination which has remained with me ever since In September 1988 aged 11 1 came home from school to watch STS 26 return the Shuttle fleet to orbital operations Five years later I gave a speech on the STS 51L disaster to my teacher as part of my GCSE English assessment Another decade passed and now a teacher myself I returned to my school one cold Monday morning to explain to my pupils what had happened to Challenger s sister ship Columbia a few days earlier In some ways the loss of Columbia affected me more deeply than Challenger **The Kingdom of Infinite Space** Raymond

Tallis,2014-05-14 In this pathbreaking book one of Britain s most eloquent and original thinkers writes about the head what happens in it and how it is and is not connected to our sense of identity and consciousness Blending science philosophy and humor Raymond Tallis examines the extraordinarily complex relationship we have with our heads His aim as he says is to turn readers into astonished tourists of the piece of the world that is closest to them so they never again take for granted the head that looks at them from the mirror Readers will delight that this is precisely what he accomplishes The voyage begins with a meditation on the self portrait of a mirror image followed by a consideration of the head s various secretions Tallis contemplates the air we exhale the subtle meanings of nods winks and smiles the mysteries of hearing taste and smell He discusses the metaphysics of the gaze the meaning of kissing and the processes by which the head comes to understand the world Along the way he offers intriguing digressions on such notions as having and using one s head and enjoying and suffering it Tallis concludes with his thoughts on the very thing the reader s head has been doing throughout the book thinking *N-Space* Larry Niven,1991-09-15 This retrospective collection of stories from all phases of Niven s writing
