Worth, 2015-02-06 No detailed description available for A Selected Bibliography of Slavic Linguistics 2 **Towards a History of Linguistics in Poland** E.F.K. Koerner, Aleksander Szwedek, 2001-12-04 Apart from the names of Jan Baudouin de Courtenay 1845 1929 Mikołaj Kruszewski 1851 1887 and later Jerzy Kuryłowicz 1895 1978 Polish linguists and Polish linguistics generally have been little known in the West The first two were mentioned with approval by Saussure in an unpublished paper and this reference was picked up by Roman Jakobson and others many years later Kuryłowicz for his part made himself well known in the West through his important work as Indo-Europeanist even Semiticist and as a general linguist The present volume is a first attempt to broaden the perspectives on the Polish contribution to linguistics both inside and outside of Poland during the past centuries Specialists in their respective fields contributed chapters on the origins and development of general linguistics Z W Sik applied linguistics F Grucza lexicology T Piotrowski dialectology St Gogolewski and onomastics S Gala followed by five chapters presenting the theories of the arguably most remarkable Polish linguistic thinkers from Baudouin de Courtenay A Adamska Sałaciak Kruszewski F M Berezin and Kuryłowicz W Smoczyński to Mikołaj Rudnicki 1881 1978 and Ludwik Zabrocki 1907 1977 both written by J Bączkowski Detailed individual bibliographies a full index of names with life dates of Polish linguists from the Renaissance to the present day and a thorough index of subjects and terms make this volume an important reference tool for anyone wishing to acquaint himself with the rich heritage of Polish linguistic thought *Słownik ortograficzny i prawidła pisowni polskiej* Stanisław Jodłowski, Witold Taszycki, 1990 **A Bibliography on Writing and Written Language** Konrad Ehlich, Florian Coulmas, Gabriele Graefen, 2011-06-01 The bibliography offers information on research about writing and written language over the past 50 years No comprehensive bibliography on this subject has been published since Sattler's 1935 handbook With a selection of some 27 500 titles it covers the most important literature in all scientific fields relating to writing Emphasis has been placed on the interdisciplinary organization of the bibliography creating many points of common interest for literacy experts educationalists psychologists sociologists linguists cultural anthropologists and historians The bibliography is organized in such a way as to provide the specialist as well as the researcher in neighboring disciplines with access to the relevant literature on writing in a given field While necessarily selective it also offers information on more specialized bibliographies In addition an overview of norms and standards concerning script and writing will prove very useful for non professional readers It is therefore also of interest to the generally interested public as a reference work for the humanities
