It describes how these missions gradually grew in both scope and scale and how America became ever more committed to the region especially following the Gulf of Tonkin incident in 1964 which led to the first bombing missions over North Vietnam It finishes at the climax of one of those operations Rolling Thunder and just prior to the first commitment of US ground forces to the war in Vietnam in the spring of 1965 Examining in depth both the events and the key figures of the conflict this is a definitive new history of American engagement in Vietnam
