Robo Sacer David S. Dalton, 2023-05-15 Robo Sacer engages the digital humanities critical race theory border studies biopolitical theory and necropolitical theory to interrogate how technology has been used to oppress people of Mexican descent both within Mexico and in the United States since the advent of the North American Free Trade Agreement NAFTA in 1994 As the book argues robo sacer identity emerges as transnational flows of bodies capital and technology become an institutionalized state of exception that relegates people from marginalized communities to the periphery And yet the same technology can be utilized by the oppressed in the service of resistance The texts studied here represent speculative stories about this technological empowerment These texts theorize different means of techno resistance to key realities that have emerged within Mexican and Chicano communities under the rise and reign of neoliberalism The first three chapters deal with dehumanization the trafficking of death and unbalanced access to technology The final two chapters deal with the major forms of violence feminicide and drug related violence that have grown exponentially in Mexico with the rise of neoliberalism These stories theorize the role of technology both in oppressing and in providing the subaltern with necessary tools for resistance Robo Sacer builds on the previous studies of Sayak Valencia Irmgard Emmelhainz Guy Emerson Achille Mbembe and of course Giorgio Agamben but it differentiates itself from them through its theorization on how technology and particularly cyborg subjectivity can amend the reigning biopolitical and necropolitical structures of power in potentially liberatory ways Robo Sacer shows how the cyborg can denaturalize constructs of zo by providing an outlet through which the oppressed can tell their stories thus imbuing the oppressed with the power to combat imperialist forces

Sixty Stories Donald

Barthelme,2003-09-30 With these audacious and murderously witty stories Donald Barthelme threw the preoccupations of our time into the literary equivalent of a Cuisinart and served up a gorgeous salad of American culture high and low Here are the urban upheavals reimagined as frontier myth travelogues through countries that might have been created by Kafka cryptic dialogues that bore down to the bedrock of our longings dreams and angsts Like all of Barthelme s work the sixty stories collected in this volume are triumphs of language and perception at once unsettling and irresistible For more than seventy years Penguin has been the leading publisher of classic literature in the English speaking world With more than 1 700 titles Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors as well as up to date translations by award winning translators

A Nation of Salesmen: The Tyranny of the Market and the Subversion of Culture Earl Shorris,2012-01-09 If Adam is the archetype of man and Eve of woman then the serpent who sold the apple to Eve in the Garden of Eden was the first salesman all culture and commerce flow from that act In this groundbreaking book on the nature and meaning of the sale Earl Shorris takes us on a journey that starts in Eden and comes at last to a consideration of where we are and what we have become by the late twentieth century when selling finally became the dominant human activity Shorris focuses on the perfection of this particular art in America where the vast frontier with its isolated settlements cast the salesman in a heroic role he was literally the bearer of culture the source of a panoply of needed and wanted items everything from parasols to plowshares He was Prometheus All of this changed dramatically in the years following World War II when it dawned on manufacturers and sellers that the American economy was producing more goods than people wanted or needed Demand would have to be created in order to sustain the expansion of markets and then as the economy became oversold the role of the salesman changed his task was now to kill the competition The argument of this brilliant work draws on classical philosophy contemporary politics psychology and economics it is grounded in the author s long experience as an advertising executive and consultant to major corporations His firsthand observations and interviews with salesmen of every description form the anecdotal bedrock of the narrative which is further enlivened by a series of fictions in which salesmen practice aspects of their trade Out of these stories and insights emerges a chilling new paradigm of human life in our times that of Homo vendens Shorris shows us how America became a nation of salesmen and what this means to our economy our politics our culture and our character especially our freedom to live as dignified persons

Constructed Latinx(s) Identities José I. Lara, 2025-09-09 Constructed Latinx s Identities Racialized Bodies in Visual and Textual Culture consists of ten interdisciplinary essays that discuss recent forms and interpretations of the histories and traditions of the Latinx communities present in film literature television and other cultural expressions Using specific case studies the authors of this collection delve into the intersections

of identity in Latinx production and representation and challenge the colonial and modern power structures that have continuously racialized and gendered Latinx bodies. In addition to deconstructing these power structures, the chapters attempt to recover knowledge buried or shunned by colonialism and modernity as well as offer alternative and nonhierarchical forms of defining Latinx and forming pluri-identitary and multivoiced communities. The concept of Latinx continues to evolve, to be renegotiated, and to be embedded with new meanings and subjectivities. As such, all chapters not only encourage further debate about racialization and the interaction of the various historical, political, and social contexts in identity formation but also propel all scholars to question their positionality when approaching the concept of Latinx.
