Stephen Rolfe Powell

Soviet Glass:

Common Sense Economics James D. Gwartney, Richard L. Stroup, Dwight R. Lee, Tawni Hunt Ferrarini, 2010-08-03 The authors tell us what everyone should know about economics in language we can all understand It s refreshing when four of the best in the profession avoid the all too common practice of writing in a code that only other economists can comprehend Robert McTeer former president of the Federal Reserve Bank of Dallas With the global economy recovering from a steep recession those who fail to grasp basic economic principles such as gains from trade the role of profit and loss and the secondary effects of government spending taxes and borrowing risk falling behind in their professional careers even their personal lives Common Sense Economics discusses key principles and uses them to show how to make wise personal and policy choices This new edition of a classic from James D Gwartney Richard L Stroup Dwight R Lee and Tawni H Ferrarini with reflections on the recent recession and the policy response to it illuminates our world and what might be done to make it better
