Soviet Literary Structuralism Background Debate Issues:

A History of Russian Literary Theory and Criticism Evgeny Dobrenko, Galin Tihanov, 2011-11-27 This edited volume assembles the work of leading international scholars in a comprehensive history of Russian literary theory and criticism from 1917 to the post Soviet age By examining the dynamics of literary criticism and theory in three arenas political intellectual and institutional the authors capture the progression and structure of Russian literary criticism and its changing function and discourse The chapters follow early movements such as formalism the Bakhtin Circle Proletkult futurism the fellow travelers and the Russian Association of Proletarian Writers By the cultural revolution of 1928 literary criticism became a mechanism of Soviet policies synchronous with official ideology The chapters follow theory and criticism into the 1930s with examinations of the Union of Soviet Writers semantic paleontology and socialist realism under Stalin A more humanized literary criticism appeared during the ravaging years of World War II only to be supplanted by a return to the party line Soviet heroism and anti-Semitism in the late Stalinist period During Khrushchev's Thaw there was a remarkable rise in liberal literature and criticism that was later refuted in the nationalist movement of the long 1970s The same decade saw on the other hand the rise to prominence of semiotics and structuralism Postmodernism and a strong revival of academic literary studies have shared the stage since the start of the post Soviet era For the first time anywhere this collection analyzes all of the important theorists and major critical movements during a tumultuous ideological period in Russian history including developments in emigre literary theory and criticism *Soviet Literary Structuralism* Peter Seyffert, 1985

Communication and Cognition in Bakhtin and Lotman Allan Reid, 2016-08-19 This title first published in 1990 argues for the existence of a significant connection between the theories of literature and culture of Mikhail Mikhailovich Bakhtin 1895-1975 and Iurii Mikhailovich Lotman 1922-1993 There is general agreement in the academic or scholarly community that there is such a connection however it is generally held to refer to Bakhtin's influence on Lotman which he expressed late in his life The major aim of this study meanwhile is to demonstrate that the critical theories of Lotman and Bakhtin are highly compatible independent of and prior to any direct influence This title will be of interest to students of literature and literary theory Central and Eastern European Literary Theory and the West Michał Mrugalski, Schamma Schahadat, Irina

Wutsdorff, 2022-12-05 Literary theory flourished in Central and Eastern Europe throughout the twentieth century but its relation to Western literary scholarship is complex This book sheds light on the entangled histories of exchange and influence both within the region known as Central and Eastern Europe and between the region and the West The exchange of ideas between scholars in the East and West was facilitated by both personal and institutional relations both official and informal encounters For the longest time however intellectual exchange was thwarted by political tensions that led to large parts of Central and Eastern Europe being isolated from the West A few literary theories nevertheless made it into Western scholarly discourses via exiled scholars Some of these scholars such as Mikhail Bakhtin become widely known in the West and their thought was transposed onto new Western cultural contexts others such as Olga Freidenberg were barely noticed outside of Russian and Poland This volume draws attention to the schools circles and concepts that shaped the development of theory in Central and Eastern Europe as well as the *histoire croisée* the history of translations transformations and migrations that conditioned its relationship with the West *The American Bibliography of Slavic and East European Studies* Patt

Leonard, Rebecca Routh, 2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology **Mikhail Bakhtin** Ken Hirschkop, 1999-12-09 This book makes a radical break with earlier interpretations of Bakhtin's work Using recent Russian scholarship Ken Hirschkop explodes many of the myths which have surrounded Bakhtin and his work and lays the ground for a new more historically acute sense of his achievement Through a comprehensive reading of Bakhtin's work Hirschkop demonstrates that his discussion of the philosophy of language literary history popular/festive culture and the phenomenology of everyday life

revolved around a lifelong search for a new kind of modern ethical culture A detailed examination of the major works reveals the careful interweaving of philosophical and historical argument which makes Bakhtin at once so compelling and so frustrating a writer Hirschkop treats Bakhtin not as a metaphysician or a philosopher for the ages but as a writer inevitably drawn into the historical conflicts produced by a modernizing and democratizing Europe As a consequence Bakhtin becomes a more sober but also more original writer with a striking contribution to make to the definition of the democratic project

The Phoenix of Philosophy Mikhail Epstein,2019-06-27 This groundbreaking work by one of the world s foremost theoreticians of Russian literature culture and thought gives for the first time an extensive and detailed examination of the development of Russian thought during the late Soviet period Countering the traditional view of an intellectual wilderness under the Soviet regime Mikhail Epstein offers a systematic account of Russian thought in the second half of the 20th century In doing so he provides new insights into previously ignored areas such as Russian liberalism personalism structuralism neo rationalism and culturology Epstein shows how Russian philosophy and culture has long been trapped in an intellectual prison of its own making as it sought to create its own utopia However he demonstrates that it is time to reappraise Russian philosophical thought and cultural theory now freed from the bonds of totalitarianism We are left with not only a new and exciting interpretation of Russian thought but also an opportunity to rethink our own intellectual heritage

Lotman and Cultural Studies Andreas Schonle,2007-01-01 One of the most widely read and translated theorists of the former Soviet Union Yuri Lotman was a daring and imaginative thinker A cofounder of the Tartu Moscow school of semiotics he analyzed a broad range of cultural phenomena from the opposition between Russia and the West to the symbolic construction of space from cinema to card playing from the impact of theater on painting to the impact of landscape design on poetry His insights have been particularly important in conceptualizing the creation of meaning and understanding the function of art and literature in society and they have enriched the work of such diverse figures as Paul Ricoeur Stephen Greenblatt Umberto Eco Wolfgang Iser Julia Kristeva and Frederic Jameson In this volume edited by Andreas Sch nle contributors extend Lotman s theories to a number of fields Focusing on his less frequently studied later period Lotman and Cultural Studies engages with such ideas as the semiosphere the fluid dynamic semiotic environment out of which meaning emerges auto communication the way in which people create narratives about themselves that in turn shape their self identity change as both gradual evolution and an abrupt unpredictable explosion power law and mercy Russia and the West center and periphery As William Mills Todd observes in his afterword the contributors to this volume test Lotman s legacy in a new context Their research agendas Iranian and American politics contemporary Russian and Czech politics sexuality and the body are distant from Lotman s own but his concepts and awareness yield invariably illuminating results The First Hundred Years of Mikhail Bakhtin Caryl Emerson,2018-06-05 Among Western critics Mikhail Bakhtin 1895 1975 needs no introduction His name has been invoked in literary and cultural studies across the ideological spectrum from old fashioned

humanist to structuralist to postmodernist In this candid assessment of his place in Russian and Western thought Caryl Emerson brings to light what might be unfamiliar to the non Russian reader Bakhtin s foundational ideas forged in the early revolutionary years yet hardly altered in his lifetime With the collapse of the Soviet system a truer sense of Bakhtin s contribution may now be judged in the context of its origins and its contemporary Russian reclamation A foremost Bakhtin authority Caryl Emerson mines extensive Russian sources to explore Bakhtin s reception in Russia from his earliest publication in 1929 until his death and his posthumous rediscovery After a reception history of Bakhtin s published work she examines the role of his ideas in the post Stalinist revival of the Russian literary profession concentrating on the most provocative rethinkings of three major concepts in his world dialogue and polyphony carnival and outsideness a position Bakhtin considered essential to both ethics and aesthetics Finally she speculates on the future of Bakhtin s method which was much more than a tool of criticism it will tell you how to teach write live talk think *Mikhail Bakhtin* Gary Saul Morson, Caryl Emerson, 1990 Books about thinkers require a kind of unity that their thought may not possess This cautionary statement is especially applicable to Mikhail Bakhtin whose intellectual development displays a diversity of insights that cannot be easily integrated or accurately described in terms of a single overriding concern Indeed in a career spanning some sixty years he experienced both dramatic and gradual changes in his thinking returned to abandoned insights that he then developed in unexpected ways and worked through new ideas only loosely related to his earlier concerns Small wonder then that Bakhtin should have speculated on the relations among received notions of biography unity innovation and the creative process Unity with respect not only to individuals but also to art culture and the world generally is usually understood as conformity to an underlying structure or an overarching scheme Bakhtin believed that this idea of unity contradicts the possibility of true creativity For if everything conforms to a preexisting pattern then genuine development is reduced to mere discovery to a mere uncovering of something that in a strong sense is already there And yet Bakhtin accepted that some concept of unity was essential Without it the world ceases to make sense and creativity again disappears this time replaced by the purely aleatory There would again be no possibility of anything meaningfully new The grim truth of these two extremes was expressed well by Borges an inescapable labyrinth could consist of an infinite number of turns or of no turns at all Bakhtin attempted to rethink the concept of unity in order to allow for the possibility of genuine creativity The goal in his words was a nonmonologic unity in which real change or surprisingness is an essential component of the creative process As it happens such change was characteristic of Bakhtin s own thought which seems to have developed by continually diverging from his initial intentions Although it would not necessarily follow that the development of Bakhtin s thought corresponded to his ideas about unity and creativity we believe that in this case his ideas on nonmonologic unity are useful in understanding his own thought as well as that of other thinkers whose careers are comparably varied and productive **The**

Aesthetics Alastair Renfrew, 2017-12-02 Set in the context of the various materialist approaches to literary aesthetics that emerged in the twentieth century Renfrew's study presents a new synthesis of the work of Mikhail Bakhtin 1895-1975 and his circle Russian Formalism and elements of the official ideology of the early Soviet period The book's central aim in offering such a synthesis is to negotiate the poles of postmodernist subjectivism and traditional materialism around which much current literary and critical theory has stagnated and as the title suggests to point the way towards a newly conceived material basis for textual and literary analysis **Essays on Revolutionary Culture and Stalinism** John W.
