Soviet Man The Making Of A Socialist Type Of Personality:

Soviet Man Georgiï Lukich Smirnov,1973 **Soviet Man** Georgi Smirnov,1975-09-01 **The New Soviet Man and Woman** Lynne Attwood,1990-10-12 An analysis of Soviet writings on sex and gender the climate and thought around them and their implications for the development of male and female personality differences Aspects covered include the sociological and demographic approaches to sex differences **The Modern Liberal Theory of Man** Gerald F. Gaus,2019-11-19 First published in 1983 The primary argument of this book is that there is a coherent tradition of liberal thinking that extends from L S Mill through liberals like T H Green Bernard Bosanquet L T Hobhouse and John Dewey to John Rawls The author places Rawls within a longstanding tradition of liberal thinking while also arguing that Green and Hobhouse are not simply of historical interest but represent genuine and interesting attempts to develop a modern liberal theory It is argued that modern liberal theory centres on a conception of human nature that modern liberals have sought to harmonise the pursuit of individuality with participation in social and communal life Although the book focuses on six modern liberals the discussion proceeds topically rather than according to author thus highlighting similarities and disagreements and providing a comprehensive study of modern liberalism *The Soviet Union 1917-1991* Martin Mccauley,2014-02-04 A second edition of this famous survey has been eagerly awaited When the first edition appeared Brezhnev was still in power Gorbachev did not make it to the index and the USSR was a superpower Today the Soviet experiment is over and the USSR no longer exists How Why Martin McCauley has reworked and greatly expanded his book to answer these questions and to provide a complete account of the Soviet years Essential reading to an appreciation of recent history and to a better understanding of whatever happens next **Alchemists of Human Nature** Petteri Pietikainen,2015-10-06 A study of Modernist utopias of the mind This book examines the psychodynamic writings of Otto Gross C G Jung Wilhelm Reich and Erich Fromm It argues utopianism became increasingly important to the fundamental ambitions of all four thinkers and places the utopian impulse with the historical context of the early twentieth century *The Collective and the Individual in Russia* Oleg Kharkhordin,2023-04-28 Oleg Kharkhordin has constructed a compelling subtle and complex genealogy of the Soviet individual that is as much about Michel Foucault as it is about Russia Examining the period from the Russian Revolution to the fall of Gorbachev Kharkhordin demonstrates that Party rituals which forced each Communist to reflect intensely and repeatedly on his or her self an entirely novel experience for many of them had their antecedents in the Orthodox Christian practices of doing penance in the public gaze Individualization in Soviet Russia occurred through the intensification of these public penitential practices rather than the private confessional practices that are characteristic of Western Christianity He also finds that objectification of the individual in Russia relied on practices of mutual surveillance among peers rather than on the hierarchical surveillance of subordinates by superiors that characterized the West The implications of this book expand well beyond its brilliant analysis of the connection between Bolshevism and Eastern

Orthodoxy to shed light on many questions about the nature of Russian society and culture Oleg Kharkhordin has constructed a compelling subtle and complex genealogy of the Soviet individual that is as much about Michel Foucault as it is about Russia Examining the period from the Russian Revolution to the fall of Gorbachev Kharkhordin demon Voices of Collective Remembering James V. Wertsch, 2002-07-15 There is currently a great deal of discussion in the humanities and social sciences about collective memory but there is very little agreement on what it is The first goal of this volume is to review various understandings of this term to bring some coherence to the discussion Drawing on this review James V Wertsch goes on to outline a particular version of collective remembering grounded in the use of textual resources especially narratives This takes him into the special properties of narrative that shape this process and into the issues of how these textual resources are produced and consumed Wertsch brings these general ideas to life by examining the rapid massive transformation of collective memory during the transition from Soviet to post Soviet Russia **The Soviet Cinema, Film, and Photography** Louis Harris Cohen, 1976 **Constructing Patriotism** Mario Carretero, 2011-03-01 Memory construction and national identity are key issues in our societies as well as it is patriotism How can we nowadays believe and give sense to traditional narrations that explain the origins of nations and communities How do these narrations function in a process of globalization How should we remember the recent past In the construction of collective memory no doubt history taught at school plays a fundamental role as childhood and adolescence are periods in which the identity seeds flourish vigorously This book analyses how history is far more than pure historical contents given in a subject matter it studies the situation of school history in different countries such as the former URSS United States Germany Japan Spain and Mexico making sensible comparisons and achieving global conclusions The empirical part is based on students interviews about school patriotic rituals very close to the teaching of history specifically carried out in Argentina but very similar to these rituals in other countries The author analyzes in which ways that historical knowledge is understood by students and its influence on the construction of patriotism This book aside from making a major contribution to the cultural psychology field should be of direct interest and relevance to all people interested in the ways education succeeds in its variable functions As a matter of fact it is related to other IAP books as Contemporary Public Debates Over History Education Nakou Barca 2010 and What Shall We Tell the Children International Perspectives on School History Textbooks Foster Crawford 2006 Russia and Eastern Europe, 1789-1985 Raymond Pearson, 1989 *The Third Wave* Alvin Toffler, 2022-01-04 From the author of Future Shock a striking way out of today's despair a bracing optimistic look at our new potentials The Third Wave makes startling sense of the violent changes now battering our world Its sweeping synthesis casts fresh light on our new forms of marriage and family on today's dramatic changes in business and economics It explains the role of cults the new definitions of work play love and success It points toward new forms of twenty first century democracy Praise for The Third Wave Magnificent an astonishing array of information The Washington Post Imperishably fresh Business Week Will

mesmerize readers and rightly so Vogue Alvin Toffler has written another blockbuster a powerful book The Guardian Fresh ideas clearly explained Toffler has proven again that he is a master United Press International Toffler has imagination and an ability to think of various future possibilities by transcending prevailing values assumptions and myths Associated Press Once you have walked into his version of the future you may decide never again to whitewash some of the built in frailties of the real present Financial Post Rich stimulating and basically optimistic will unquestionably aid many to a greater understanding of today s puzzling social changes The Globe Mail A detailed breathtakingly bold projection of the social changes required if we are to survive Toffler s vision of a democratic self sustaining utopia is a brave alternative to recent grim warnings

Cosmopolitan **Mind as Action** James V. Wertsch,1998 The author of this work argues against reductionist accounts of human cognition proposing a sociocultural theory whereby mediated action and cultural tools shape cognitive processes and can explain how they are organized International Review of History Education Mario Carretero,James Voss,2013-09-05

This volume consists of the proceedings of an international conference on cognition and instruction in history The papers cover several areas historical narratives and history teaching the use of texts documents and images in learning history and historical explanation and understanding *The Simon Greenleaf Law Review* ,1981 **Illiberal Democracy in**

Indonesia David Bouchier,2014-12-17 Illiberal Democracy in Indonesia charts the origins and development of organicist ideologies in Indonesia from the early 20th century to the present In doing so it provides a background to the theories and ideology that informed organicist thought traces key themes in Indonesian history examines the Soeharto regime and his New Order in detail and looks at contemporary Indonesia to question the possibility of past ideologies making a resurgence in the country Beginning with an exploration of the origins of the theory of the organic state in Europe this book explores how this influenced many young Indonesian scholars and secular nationalists It also looks in detail at the case of Japan and identifies the parallels between the process by which Japanese and Indonesian nationalist scholars drew on European romantic organicist ideas to forge anti Western national identities and ideologies The book then turns to Indonesia s tumultuous history from the revolution to 1965 the rise of Soeharto and how his regime used organicist ideology together with law and terror to shape the political landscape consolidate control In turn it shows how the social and economic changes wrought by the government s policies such as the rise of a cosmopolitan middle class and a rapidly growing urban proletariat led to the failure of the corporatist political infrastructure and the eventual collapse of the New Order in 1998 Finally the epilogue surveys the post Soeharto years to 2014 and how growing disquiet about the inability of the government to contain religious intolerance violence and corruption has led to an increased readiness to re embrace not only more authoritarian styles of rule but also ideological formulas from the past This book will be welcomed by students and scholars of Southeast Asia politics and political theory as well as by those interested in authoritarian regimes democracy and human rights

How the Soviet Man Was Unmade Lilya Kaganovsky,2010-06-15 In Stalinist Russia the idealized Soviet man projected an

image of strength virility and unyielding drive in his desire to build a powerful socialist state In monuments posters and other tools of cultural production he became the demigod of Communist ideology But beneath the surface of this fantasy between the lines of texts and in film lurked another figure the wounded body of the heroic invalid the second version of Stalin s New Man In *How the Soviet Man Was Unmade* Lilya Kaganovsky exposes the paradox behind the myth of the indestructible Stalinist era male In her analysis of social realist literature and cinema she examines the recurring theme of the mutilated male body which appears with startling frequency Kaganovsky views this representation as a thinly veiled statement about the emasculated male condition during the Stalinist era Because the communist state was full of heroes a man could only truly distinguish himself and attain hero status through bodily sacrifice yet in his wounding he was forever reminded that he would be limited in what he could achieve and was expected to remain in a state of continued subservience to Stalin and the party Kaganovsky provides an insightful reevaluation of classic works of the period including the novels of Nikolai Ostrovskii *How Steel Was Tempered* and Boris Polevoi *A Story About a Real Man* and films such as Ivan Pyr ev s *The Party Card* Eduard Pentslin s *The Fighter Pilots* and Mikhail Chiaureli s *The Fall of Berlin* among others The symbolism of wounding and dismemberment in these works acts as a fissure in the facade of Stalinist cultural production through which we can view the consequences of historic and political trauma
