Soviet Industrialisation and Soviet Maturity Keith Smith,1986-01-01 Very Good No Highlights or Markup all pages are intact *The Electrification of Russia, 1880-1926* Jonathan Coopersmith,2016-11-01 The Electrification of Russia 1880 1926 is the first full account of the widespread adoption of electricity in Russia from the beginning in the 1880s to its early years as a state technology under Soviet rule Jonathan Coopersmith has mined the archives for both the tsarist and the Soviet periods to examine a crucial element in the modernization of Russia Coopersmith shows how the Communist Party forged an alliance with engineers to harness the socially transformative power of this science based enterprise A centralized plan of electrification triumphed to the benefit of the Communist Party and the detriment of local governments and the electrical engineers Coopersmith s narrative of how this came to be elucidates the deep seated and chronic conflict between the utopianism of Soviet ideology and the reality of Soviet politics and economics *History of Technology Volume 13* Graham Hollister-Short, Frank James,2016-09-30 The technical problems confronting different societies and periods and the measures taken to solve them form the concern of this annual collection of essays Volumes contain technical articles ranging widely in subject time and region as well as general papers on the history of technology In addition to dealing with the history of technical discovery and change History of Technology also explores the relations of technology to other aspects of life social cultural and economic and shows how technological development has shaped and been shaped by the society in which it occurred *A History of the Soviet Union* David MacKenzie, Michael W. Curran,1990 The book provides sound and detailed information on political and diplomatic history as well as on economic social intellectual and cultural history The second edition includes more material on minority peoples and continues the full coverage of women This volume will be the most current and concise of the Soviet history texts available Soviet Tragedy Martin Malia,2008-06-30 The Soviet Tragedy is an essential coda to the literature of Soviet studies Insofar as he returns the power of ideology to its central place in Soviet history Malia has made an enormous contribution He has written the history of a utopian illusion and the tragic consequences it had for the people of the Soviet Union and the world David Remnick The New York Review of Books In Martin Malia the Soviet Union had one of its most acute observers With this book it may well have found the cornerstone of its history Francois Furet author of Interpreting the French Revolution The Soviet Tragedy offers the most thorough scholarly analysis of the Communist phenomenon that we are likely to get for a long while to come Malia states that his narrative is intended to substantiate the basic argument and this is certainly an argumentative book which drives its thesis home with hammer blows On this breathtaking journey Malia is a witty and often brilliantly penetrating guide He has much wisdom to impart The Times Literary Supplement This is history at the high level well deployed factually but particularly worthwhile in the philosophical and political context at once a view and an overview The Washington Post A History of Russia, the Soviet Union, and Beyond David MacKenzie, Michael W. Curran,1993 THE HISTORY OF RUSSIA AND THE

SOVIET UNION is a general survey of Russian history from earliest times to the present The authors present a balanced coverage of political diplomatic economic social intellectual and cultural history *Why Perestroika Failed* Peter J Boettke,1993-01-14 This argues that Perestroika failed as the result of the lack of understanding of market and political processes with reform processes representing *Economic Management And Transition Towards A Market Economy: An Asian Perspective* Anthony Theng Heng Chin,Hock Guan Ng,1996-10-04 Much attention has been focused in recent years on the transformation of the economies of Eastern and Central Europe and the former Soviet Union However a growing demand for policy advice technical assistance and expertise is also coming from Asian reforming countries such as China Mongolia Vietnam Laos and Cambodia In addition business communities abroad are increasingly interested in exploring investment and marketing opportunities in these reforming countries Such developments are too important to overlook or ignore The transformation of socialist economies towards market based systems entails an unusually wide range of problems Studies of related topics are complicated by the speed of the changes and the lack of clear historical precedents Although the structural features of Asian reforming economies are in important ways different from those of the Eastern European economies all socialist economies share similar fundamental conditions on the eve of economic reform which raise a similar set of reform issues This volume brings together a rich collection of expertise and information in an attempt to shed some light on the transitional process in Asia The contributions are by no means exhaustive However they provide the reader and analyst with an excellent starting point to the problems and prospects which are specific to Asian transforming economies **Russia and the USSR in the 20th Century** David MacKenzie,Michael W. Curran,1997 This balanced text has been revised to reflect the dramatic changes that have occurred in the former Soviet Union and to give students the context in which they can understand the roots of those changes Introduced by a discussion of Russian history just prior to the Revolution the text looks at the development of the Soviet Union goes beyond the political to reveal the complexity of social economic diplomatic and cultural forces that have shaped this country Two new chapters bring students up to date on the collapse of the Soviet Union and the legacy of Soviet Communism Highly praised Problems sections offer conflicting points of view among Soviet post Soviet and Western historians giving readers insight into the past and present debates in this changing nation

W. Davies, 2016-07-27 The profound economic crisis of 1931-33 undermined the process of industrialisation and the stability of the regime In spite of feverish efforts to achieve the over ambitious first five year plan the great industrial projects lagged far behind schedule These were years of inflation economic disorder and of terrible famine in 1933 In response to the crisis policies and systems changed significantly Greater realism prevailed more moderate plans reduced investment strict monetary controls and more emphasis on economic incentives and the role of the market The reforms failed to prevent the terrible famine of 1933 in which millions of peasants died But the last months of 1933 saw the first signs of an industrial boom the outcome of the huge investments of previous years Using the previously secret archives of the Politburo and the Council of People's Commissars the author shows how during these formative years the economic system acquired the shape which it retained until the collapse of the Soviet Union in 1991 **Urban China Reframed** Wing-Shing Tang, Kam Wing Chan, 2021-06-22 Given China's rapid economic growth and massive urbanization no one in the world can ignore what is happening in urban China This book is a critical review of existing urban China research which is found wanting due to the decontextualized use of theories and concepts developed in the West Urban China Reframed A Critical Appreciation consists of epistemological theoretical and methodological contributions to remedy these limitations by focusing on a number of relevant topics First models are widely employed in any study and China nowadays has invoked models like city system zones and global city in socio economic development How to interpret them in terms of knowledge production in a strong party state Second given the global prevalence of neoliberalism it is an important debate whether neoliberalism is applicable to China Third what is urban ideology in China How to contextualize it Are debates about the differentiation between the city and urbanization relevant to China Fourth massive rural urban migration in China has taken place within its mega rural urban dual system an institution that has persisted since the 1950s How does it manifest nowadays Fifth has the town country divide in China like in the West disappeared If not how can one interpret China's town country relations within the politics and administration of the Chinese state Sixth how to decipher the territorial development in the Pearl River Delta the world's factory under the auspices of the state The collection of essays in this volume contributes to the theoretical understanding of urban China The chapters in this book were originally published in the Eurasian Geography and Economics
