Lo, 2016-02-03 This book examines the transformation of Soviet labour ideology during the last decade of the USSR and its critical relationship to the collapse of the Soviet state The author focuses on regime attempts to revive Soviet economic performance on the basis of increased labour productivity and shows how their failure had unforeseen and catastrophic consequences for the legitimacy of the state Far from reinvigorating concepts about the role and nature of labour in Soviet society the regime succeeded only in demonstrating its own impotence and unsustainability

Women and the Birth of Russian Capitalism Irina Mukhina, 2014-07-15 Little has been known acknowledged or studied about the shuttle trade one of the major manifestations of new Russian life of the 1990s The term itself seems to suggest something of a rather small scale Indeed the amount of each transaction in this trade was miniscule Individual peddlers traveled to near abroad with their bulging bags and brought back home for resale only as many goods as they could personally carry in their enormous suitcases The phenomenon hidden behind the term shuttle trade was by no means insignificant or small in scale By the mid 1990s it constituted the backbone of Russian consumer trade and was a substantial source of revenue The primary participants in the shuttle trade were women and in this enlightening study Mukhina assesses the reasons why women were attracted to this business the range of the personal experiences of female shuttle traders and the social impact of women s involvement in this sort of economic activity By analyzing the social and gendered dimensions of the shuttle trade the reader can begin to understand more broadly how gender shaped the transition period associated with the end of communist regimes in Eastern Europe Moreover the difficulties that these women faced highlight the gap between the rhetoric of free market economy and the actual market practices These women traders had to create and shape the physical market an open air space for their goods without the basic legislative and other provisions of market economies The shuttle trade became an avenue of female suffering but also

of survival and even empowerment during the time that most Russians now call the wild 1990s After the Fall Michael David-Fox, Peter Holquist, Marshall Poe, 2004 *Youth, Risk and Russian Modernity* Christopher Williams, Vladimir Chuprov, 2018-05-08 Title first published in 2003 This timely and original book is the most comprehensive and authoritative analysis of Russia's risk society to date Referring to the works of Douglas Beck and Giddens it considers a variety of theories of risk and applies them to young people in different risk societies showing how these youngsters have adapted to cope with risk *International Review of Social History*, 1956 **Labour's Economic Ideology Since 1900** Christopher Kirkland, 2022-09-20 This book traces the economic ideology of the UK Labour Party from its origins to the current day Through its analysis the book emphasises key crises including the 1926 General Strike the 1931 Great Depression the 1979 Winter of Discontent and the 2007/2008 economic crisis In analysing this history the ideology of the Labour Party is examined through four core themes the party's definition of socialism the role of the state in economic decision making the party's understanding of inequalities and its relationship with the trade union movement The result is a systematic exploration of the drivers and key ideas behind the Labour Party's economic ideology In demonstrating how crises have affected the party's economic policy the book presents a historical analysis of the party's evolution since its formation and offers insights into how future changes may occur Post Wall, Post Square Kristina Spohr, 2020-03-24 A landmark global history that makes us rethink how the Cold War ended and our present era was born This book offers a bold new interpretation of the revolutions of 1989 showing how a new world order was forged without major conflict Based on extensive archival research Kristina Spohr attributes this in large measure to determined diplomacy by a handful of international leaders who engaged in tough but cooperative negotiation to reinvent the institutions of the Cold War She offers a major reappraisal of George H W Bush and innovative assessments of Mikhail Gorbachev and Helmut Kohl as well as Margaret Thatcher and François Mitterrand But she argues Europe's transformation must be understood in global context By contrasting events in Berlin and Moscow with the brutal suppression of the pro democracy movement in Beijing the book reveals how Deng Xiaoping pushed through China's very different Communist reinvention Here is an authoritative yet highly readable exploration of the crucial hinge years of 1989/1992 and their consequences for today's world **Bibliographic Guide to Slavic** Gale Group, 2000-06-09 *Labour's Decline and the Social Democrats' Fall* Geoffrey Lee Williams, 1989-06-01 This book traces the decline of the Labour Party's popularity and the development of the Social Democratic party The authors have also written *Crisis in European Defence* and *The European Defence Initiative* Europe's Bid for Equality **The Resurgence of Anti-Semitism** Bernard Harrison, 2006-10-27 Written by a non Jewish analytic philosopher this book addresses the issue of whether and to what extent current opposition to Israel on the liberal left embodies anti Semitic stances It argues that the dominant climate of liberal opinion disseminates however inadvertently The Failure of Grassroots Pan-Africanism Opoku Agyeman, 2003-01-01 A work of masterful scholarship and powerful
