interpretation of this relationship and a glimpse of previously unknown events that shaped the Sino Soviet alliance An appendix contains translated Chinese and Soviet documents many of which are being published for the first time The book focuses mainly on Communist China's relationship with Moscow after the conclusion of the treaty between the Soviet Union and Kuomintang China in 1945 up until the signing of the treaty between Moscow and the Chinese Communist Party in 1950 It also looks at China's relationship with Moscow from 1920 to 1945 as well as developments from 1950 to the present The author reevaluates existing sources and literature on the topic and demonstrates that the alliance was reached despite disagreements and distrust on both sides and was not an inevitable conclusion He also shows that the relationship between the two Communist parties was based on national interest politics and not on similar ideological convictions The Image of the Enemy Paul Maddrell, 2015-09-15 Intelligence agencies spend huge sums of money to collect and analyze vast quantities of national security data for their political leaders How well is this intelligence analyzed how often is it acted on by policymakers and does it have a positive or negative effect on decision making Drawing on declassified documents interviews with intelligence veterans and policymakers and other sources The Image of the Enemy breaks new ground as it examines how seven countries analyzed and used intelligence to shape their understanding of their main adversary The cases in the book include the Soviet Union's analysis of the United States and vice versa East Germany's analysis of West Germany and vice versa British intelligence in the early years of the Troubles in Northern Ireland Israeli intelligence about the Palestinians Pakistani intelligence on India and US intelligence about Islamist terrorists These rivalries provide rich case studies for scholars and offer today's analysts and policymakers the opportunity to closely evaluate past successes and failures in intelligence analysis and the best ways to give information support to policymakers Using these lessons from the past they can move forward to improve analysis of current adversaries and future threats *Military Review*, 1999 The Cambridge History of China: Volume 15, The People's Republic, Part 2, Revolutions Within the Chinese Revolution, 1966-1982 Roderick MacFarquhar, John K.
