Peasant Metropolis David L. Hoffmann, 2018-08-06 During the 1930s 23 million peasants left their villages and moved to Soviet cities where they comprised almost half the urban population and more than half the nation's industrial workers Drawing on previously inaccessible archival materials David L Hoffmann shows how this massive migration to the cities an influx unprecedented in world history had major consequences for the nature of the Soviet system and the character of Russian society even today Hoffmann focuses on events in Moscow between the launching of the industrialization drive in 1929 and the outbreak of war in 1941 He reconstructs the attempts of Party leaders to reshape the social identity and behavior of the millions of newly urbanized workers who appeared to offer a broad base of support for the socialist regime The former peasants however had brought with them their own forms of cultural expression social organization work habits and attitudes toward authority Hoffmann demonstrates that Moscow's new inhabitants established

social identities and understandings of the world very different from those prescribed by Soviet authorities Their refusal to conform to the authorities model of a loyal proletariat thwarted Party efforts to construct a social and political order consistent with Bolshevik ideology The conservative and coercive policies that Party leaders adopted in response he argues contributed to the Soviet Union s emergence as an authoritarian welfare state *Studies in Communist Affairs* ,1976

and knowledge production practices *The Road to Bloody Sunday* Walter Sablinsky, 2014-07-14 Drawing on all available documents Walter Sablinsky reappraises the events especially the role of the volatile and often unpredictable Father Gorgii Gapon the young Orthodox priest who inspired and led the workers organization Originally published in 1976 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Nuclear Blackmail and Nuclear Balance* Richard K. Betts, 2010-12-01 In numerous crises after World War II Berlin Korea the Taiwan Straits and the Middle East the United States resorted to vague threats to use nuclear weapons in order to deter Soviet or Chinese military action On a few occasions the Soviet Union also engaged in nuclear saber ratling Using declassified documents and other sources this volume examines those crises and compares the decisionmaking processes of leaders who considered nuclear threats with the commonly accepted logic of nuclear deterrence and coercion Rejecting standard explanations of our leader's logic in these cases Betts suggests that U S presidents were neither consciously bluffing when they made nuclear threats nor prepared to face the consequences if their threats failed The author also challenges the myth that the 1950s was a golden age of low vulnerability for the United States and details how nuclear parity has and has not altered conditions that gave rise to nuclear blackmail in the past Bridging the European Divide Joshua B. Spero, 2004-10-20 Do middle powers matter geopolitically to great powers when confronting the unconventional twenty first century threats from nation states or nonstate actors Bridging the European Divide explores how key regional middle powers perceived and advocated their political power options in the aftermath of September 11 2001

Saints and Revolutionaries Marcia A. Morris, 1993-02-04 An examination of literary works spanning more than seven centuries this volume studies the ascetic hero and asceticism exploring the elusive interplay between religion politics and belles lettres in Russia The first part places works including the thirteenth century Kievan Crypt Patericon and Life of Avraamii Smolenskii Epifanii's Life of Sergii Radonezhskii and other lives written in the north of Russia in the context of crucial religious doctrines such as apocalypticism and deification The author shows how Old Russian literature plays a major cultural role in the continuing development of these doctrines on Russian soil The second part traces a revival of the Russian fascination with themes of apocalypse and perfectibility to the nineteenth and early twentieth centuries Morris also documents the development of a divergence in ideological approach between Russian writers who continued to view apocalypticism and deification as religious phenomena and those who used them as tools of social and political struggle Works by Gogol Tolstoy Dostoevsky Chernyshevsky and Gorky as well as classic novels of the socialist realist tradition are analyzed as evidence of the underlying unity of the literary manifestations of this ostensibly bifurcated intellectual tradition
