Soviet Rural Economy:

The Soviet Rural Economy Robert C. Stuart, 1984 *Agriculture and the State in Soviet and Post-Soviet Russia* Stephen Wegren, 2010-11-23 Winner 1999 Edward A Hewett Book Prize from AAASS A comprehensive original and innovative analysis of the social economic and political factors affecting contemporary Russian reform the book is organized around the central question of the role of the state and its effect on the course of Russian agrarian reform In the wake of the collapse of the USSR contemporary conventional wisdom holds the the Russian state is weak Stephen Wegren feels that the traditional approach to the weak strong state suffers from measurement and circular logic problems believing that the Russian state thought weaker than in its Soviet past is still relatively stronger than other actors The state s strength allows it to intervene in the rural sector in ways that other power contender cannot Specifically as a measure of state intervention Wegren analyzes how the state has influenced urban rural relations rural rural relations and the nonstate private agricultural sector Several dilemmas arose that have complicated successful agrarian reform as a result of the nature of state interventions how reform policies were defined and the incentives rhar arose from state sponsored policies During contemporary Russian agrarian reform urban rural differences have widened marked by a deterioration in rural standards of living and increased alienation of rural political groups from urban alliances At the same time within the rural sector reform failed to reverse rural egalitarianism In addition the nature of state interventions has undermined attempts to create a vibrant productive private rural sector based on private farming Wegren s research is based upon extensive field work interviews archival documents and published and unpublished source material conducted over a six year period and he demonstrates the link between agrarian reform and the success of overall reform in Russia This learned and often controversial volume will interest political scientists policy makers and scholars and students of contemporary Russia Women in the Soviet Countryside Susan Bridger, 1987-12-17 Research on women s roles in rural development has found that women s contribution to the rural economy is commonly underestimated and that women may find it difficult to benefit from the development process Within this context this book looks at the Soviet experience of development as reflected in the lives of rural women Soviet Russia, 1922 **Understanding Soviet Society** Michael Paul Sacks, Jerry G. Pankhurst, 2013-10-15 First Published in 1988 Understanding Soviet Society has grown out of the authors experience as sociologists researching and teaching about the Soviet Union Meant initially as an update to Contemporary Soviet Society Sociological Perspectives from 1980 this became a new volume because of the addition of six new authors but also because of the major changes occurring in the USSR today that in many ways necessitated new approaches It examines the fundamnetal institutions of Soviet society from work and social welfare to politics and the Party in order order to provide an objective understanding of the social underpinnings of the Soviet System Soviet History, 1917-53 Julian Cooper, Maureen Perrie, E. A. Rees, 2016-02-06 This work presents eleven studies in the field of Russian Soviet economic and social history which have been specially commissioned as a tribute to

Professor R W Davies Each chapter highlights a particular area of controversy and illuminates the process of policy formation in this critical period of Soviet development Together they provide an overview of the period 1917-1953 **The Cambridge History of Russia: Volume 3, The Twentieth Century** Maureen Perrie, Ronald Grigor Suny, 2006-11-02 A major history of twentieth century Russia by leading scholars in the field *Soviet Russia Pictorial*, 1924 Many Shades of Red Mieke Meurs, 1999 This volume provides a radical and timely corrective to received wisdom about the seemingly inevitable transition from communism to democratic capitalism Arguing against popular misconceptions that portray collectivized agriculture as an unqualified failure that followed a monolithic Soviet model the contributors draw upon newly available local sources to illuminate the costs benefits successes and failures of cooperative agriculture They highlight the wide variety of state policies local responses and economic outcomes as well as the influence of local geography political structures and economic institutions in each region Meurs provides an institutionalist analysis of both the causes and impacts of policy differences drawing lessons of continuing relevance to the many countries in which agrarian reform remains a controversial issue Contributions by Victor Danilov Carmen Diana Deere Stanka Dobрева Veska Kouzouharova Imre Kovach Justin Lin Mieke Meurs and Niurka Perez **The Russian Soviet Republic** Edward Alsworth Ross, 1923 *Before Command* Paul R. Gregory, 2014-07-14 In a work with significant implications for present day economic reform in the Soviet Union Paul Gregory examines Russian and Soviet economic history prior to the installation of the administrative command system By drawing on basic economic statistics from 1861 to the 1930s Gregory's revisionist account debunks a number of myths promulgated by historians in both the East and the West He demonstrates that the Russian economy under the tsars performed much better than has previously been supposed the Russian economy and its financial institutions were integrated into the world economy allowing Russia to attract significant foreign capital Furthermore he shows that Stalin's justifications for the abandonment of the New Economic Policy in the late 1920s were incorrect the so called crises of NEP were either fabricated or the result of misguided economic thinking *Before Command* is the culmination of the author's lifelong study of the economic history of Russia and the Soviet Union In convincing detail it describes little known Russian and Soviet successes with market capitalism while it also shows the problems inherent in a mixed system such as the NEP which seeks to combine very strong elements of command with market resource allocation Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Leninism Joseph Stalin, 2017-04-21 Translated from the Russian in 1928 this and the second volume of the same title give an invaluable picture of what the Russian leader Joseph Stalin understood by Leninism Building on the

pamphlet Foundations of Leninism which forms the first part of this book the work presents a unified and complete work on the problems of Leninism and socialist construction as they were manifested in the 1920s as well as discussion of the October Revolution and the relationship of the USSR and the West in the years following the First World War **Building Market Institutions in Post-communist Agriculture** David A. J. Macey, William Pyle, Stephen K. Wegren, 2004-01-01 Eurasia emerged from the former Soviet states failed agrarian program poised to be a great power in the new global economy In the late 1980 s post communist states put forth an agrarian reform plan that promised whirlwind institutional change as its goal However these amendments did not unleash the efficiency and productivity that privatization and destatizing seemed to promise Editors David Macey William Pyle and Stephen Wegren along with a host of world leading agrarian analyst and practitioners discuss the shortcoming of post communist agrarian reform and reveal how and why particular policies were or were not adopted Building Market Institutions in Post Communist Agriculture draws on country level case studies to analyze various initiatives undertaken by agricultural economies Contributors use a comparative analytical framework to shed light on the complex universal processes of agrarian transformation that continue to change the social economic and political character of the former Soviet Union **Boksitogorsk** Sergeĭ Vladimirovich Kislovskoi, 1962 *The Socialist Review* , 1919

Socialist Agriculture In Transition Joseph C Brada, Karl-Eugen Wadekin, 2019-07-11 Because of altered investment priorities policymakers in socialist countries can no longer increase the resources devoted to agriculture as they have in the past Instead they must seek alternative means of improving agricultural performance One approach has been to change the structure of socialist agriculture and to foster organizational changes within agricultural units The contributors to this volume evaluate such reforms and weigh their implications for agricultural output and trade They examine the normless links being introduced in the USSR and compare Soviet experiences with the successes of Chinese and Hungarian reorganizations describe and analyze the changes being implemented in the German Democratic Republic Yugoslavia and Vietnam and pay particular attention to the role of Polish agriculture in the production crisis and to agriculture s potential for improving Poland s overall economic performance The contributors also address issues of infrastructure development the incentives being developed to foster more efficient allocation of resources within the agricultural sector and the likely growth of East West and intra socialist agricultural trade Holocaust Studies Steven T. Katz, 2019-04-08 The great majority of Holocaust scholarship concentrates heavily if not almost completely on the Final Solution from the German side The distinctive feature of this book both individually and as a collection is its concentration on the Holocaust from a Judeo centric point of view The present essays make a unique contribution by exploring issues such as the effect of events specifically on Jewish women and children the character of the Nazi policy of slave labor in as much as this essential program resulted in different treatment with regard to Jews as compared to other workers how the destruction of European Jewry has been responded to by Jewish thinkers and how Jewish values such as the well known principle that all Jews are responsible for each other were

exemplified and lived out during the war The collection also includes an essay on Elie Wiesel and another that explores the much discussed very controversial issue of Jewish resistance as well as several essays on philosophical and comparative issues raised by the Shoah CS1075

Modernisation in Russia since 1900 Markku Kangaspuro, Jeremy Smith, 2006-12-27 Modernisation has been a constant theme in Russian history at least since Peter the Great launched a series of initiatives aimed at closing the economic technical and cultural gap between Russia and the more advanced countries of Europe All of the leaders of the Soviet Union and post Soviet Russia have been intensely aware of this gap and have pursued a number of strategies some more successful than others in order to modernise the country But it would be wrong to view modernisation as a unilinear process which was the exclusive preserve of the state Modernisation has had profound effects on Russian society and the attitudes of different social groups have been crucial to the success and failure of modernisation This volume examines the broad theme of modernisation in late imperial Soviet and post Soviet Russia both through general overviews of particular topics and specific case studies of modernisation projects and their impact Modernisation is seen not just as an economic policy but as a cultural and social phenomenon reflected through such diverse themes as ideology welfare education gender relations transport political reform and the Internet The result is the most up to date and comprehensive survey of modernisation in Russia available which highlights both one of the perennial problems and the challenges and prospects for contemporary Russia

Chinese Discourses on the Peasant, 1900-1949 Xiaorong Han, 2012-02-01 Xiaorong Han explores how Chinese intellectuals envisioned the peasantry and its role in changing society during the first half of the twentieth century Politically motivated intellectuals both Communist and non Communist believed that rural peasants and their villages would be at the heart of change during this long period of national crisis Nevertheless intellectuals saw themselves as the true shapers of change who would transform and use the peasantry Han uses intellectuals writings to provide a comprehensive look at their views of the peasantry He shows how intellectuals with varying politics created images of the peasant a supposed contemporary image and an ideal image of the peasant transformed for political ends how intellectuals theorized on the nature of Chinese rural life and how intellectuals conceived their own relationships with peasants
