The Political Economy of Argentina, 1946-83 Guido Di Tella, Rudiger Dornbusch, 1989-06-18 Twelve international economists analyze every government since Peron's first presidency including the latest military administrations The years 1958-74 are examined in a new light and the postscript refers to President Alfonsín's changing economic strategy in his first years of government Black Writers From South Africa Jane Watts, 1989-10-02 *Origins of Flexible Response* J. Stromseth, 1988-06-18 Samizdat and an Independent Society in Central and Eastern Europe H. Gordon Skilling, 1989-06-18 This study of the independent life of society dissent in Central and Eastern Europe examines the forms of independent activity at work today Included are autonomous family life religion and nationalism the second economy samizdat communications the second culture and social deviance **Britain and the Arab-Israeli Conflict, 1948-51** Ilan Pappé, 1988-07-26 In an analysis of Britain's policy towards Palestine in the post mandatory era the author examines the circumstances which led to the formulation of Britain's policy the partition of mandatory Palestine between Israel and Jordan and the stages of its implementation A major theme emerges that Britain's Middle East policy was a function of two main features Britain's close alliance with Transjordan and its pragmatic adaptability to developments in the area Based on primary sources made available only recently in British Israeli and American archives the book offers new insights into a policy which was to have far reaching effects **Studies In The History Of Alternative Medicine** Roger Cooter, 1988-11-24 A collection of essays focused largely on the 19th century when alternative medicine as opposed to orthodox medicine was not accepted as professional Historians in this book explore the dissent which arose in various local and national contexts *Argentina Between the Great Powers, 1939-46* Guido Di Tella, D. Cameron Watt, 1989-06-18 An

examination of Argentina's international behaviour during World War II Relationships with the UK the USA and Germany are considered and in particular the USA's long term hostile attitude towards the only country in Latin America that tried to question the American hegemony over the region *Dynamic and Immobilist Politics in Japan* Martin Collick, Aurelia George, James Horne, Daiichi It, Alan Rix, J.A.A. Stockwin, 1988-05-17 Over the past thirty years Japan has shown that it is a highly dynamic society and its economic policy making has often astonished the world Japanese politics however though sometimes showing dynamism are very stable and frequently strangely immobilist In this book six specialists on Japanese politics seek to find out why *Political Ideologies in Contemporary France* Christopher Flood, Laurence Bell, 1997-01-01 Contributions contained in this volume discuss seven strains of political thought in France today democratic socialism communism Gaullism and liberalism national populism ecologism feminism and multiculturalism Contributors are primarily English scholars of French Studies and their contributions focus on the participants strategy and future prospects of each ideological tendency Distributed by Books International Annotation copyrighted by Book News Inc Portland OR **Cultural Politics and Political Culture in Postmodern Europe**, 1997-01-01 The present volume assembles essays from a broad cultural and professional spectrum around the question of European cultural identity The heterogeneity of the contributors their differing points of departure and methods attests to a tension in intellectual communities which today is more intense than ever Europe's identity crisis is not merely an empirical matter It reflects a far deeper and far older discursive crisis The mandate of Europe's traditional intellectual institutions to preserve and police their own cultural heritage has proved incapable of evolving in a manner sufficient to account for the mutation in its object European culture It is not merely that Europe's identity like any identity in the flux of history has changed Rather the notion of identity the very basis of any questions of who we are where we are going and the appropriate political forms and social institutions for further existence all rely on a logic of identity which has at best become extremely problematic It is this problematization which provides the common thread unifying the following essays Each contributor in his/her own way and with respect to his/her own research object confronts the adequacy of the concept of cultural identity The hidden presuppositions of this concept are indeed remarkable and the logic of cultural identity prescribes that they remain undisclosed **Studies in the Economics of Central America** V. Bulmer-Thomas, 1988-06-18 A study explaining how the social upheavals which led to the Nicaraguan revolution and the civil wars in El Salvador and Guatemala were rooted in the export led model followed in the region The author also explores their efforts to achieve regional co-operation in the economic sphere *Japan and the World* Gail Lee Bernstein, Haruhiro Fukui, 2016-01-03 This volume focuses on Japan over the last one hundred years with special emphasis on the twentieth century and the contemporary period Chapters on cultural intellectual and economic history domestic politics and foreign relations trace the complex and multi-faceted process through which Japan has been transformed from an isolated agricultural society to an economic world power and model for the other developing nations The authors

demonstrate the adaptability of Japan's native tradition in its encounter with the world beyond its own shores and show how many aspects of traditional Japanese culture and society have been transformed while others have survived giving contemporary Japan that distinctive flavour of an old insular culture which continues to delight and baffle foreign and native scholars alike

Racial Segregation and the Origins of Apartheid in South Africa, 1919-36 Saul Dubow, 1989-07-03 This analysis of the historical development of racial segregation in South Africa between the World War I and II casts light on the period immediately before the advent of modern day apartheid and provides an account of the ideological political and administrative origins of apartheid Segregation is seen here as a complex combination of ideas and policies which aimed to entrench and legitimize the basis of white domination in South Africa The authors feel that in essence it represented an attempt to uphold white supremacy by containing the powerful social forces unleashed by South Africa's rapid process of industrialization The work is based on archival research in South Africa and aims to draw upon some of the most recent scholarship

Totalitarianism Abbott Gleason, 1997-03-20 For more than six decades the term totalitarian was applied to everything from Franco's Spain to Stalin's Soviet Union One of the most enigmatic and yet compelling ideas of our time it has been both an almost meaningless political catcall and an indispensable concept for understanding the dictatorships that have marred the history of this century Now historian Abbott Gleason provides a fascinating account of the life of this idea Totalitarianism offers a penetrating chronicle of the central concept of our era an era shaped by our conflict first with fascism and then with communism Interweaving the story of intellectual debates with the international history of the twentieth century Gleason traces the birth of the term to Italy in the first years of Mussolini's rule Created by Mussolini's enemies the word was appropriated by the Fascists themselves to describe their program in what turned out to be one of the less totalitarian of the European dictatorships He follows the growth and expansion of the concept as it was picked up in the West and applied to Hitler's Germany and the Soviet Union Gleason's account takes us through the debates of the early postwar years as academics in turn adopted the term notably Hannah Arendt The idea of totalitarianism came to possess novelists such as Arthur Koestler *Darkness at Noon* and George Orwell whose *Nineteen Eighty Four* was interpreted by conservatives as an attack on socialism in general and subsequently suffered criticism from left leaning critics The concept fully entered the public consciousness with the opening of the Cold War as Truman used the rhetoric of totalitarianism to sell the Truman Doctrine to Congress Gleason takes a fascinating look at the notorious brainwashing episodes of the Korean War which convinced Americans that Communist China too was a totalitarian state As he takes his account through to the 1990s he offers an inner history of the Cold War revealing the political charge the term carried for writers on both the left and right He also explores the intellectual struggles that swirled around the idea in France Germany Italy Czechoslovakia and Poland When the Cold War drew to a close in the late 1980s Gleason writes the concept lost much of its importance in the West even as it flourished in Russia where writers began to describe their own collapsing state as totalitarian though left wing Western

thinkers had long resisted doing so Abbott Gleason is a leading scholar of Soviet and Russian history and a contributor to periodicals ranging from The Russian Review to The Atlantic Monthly In this stimulating intellectual history he offers a revealing look at one of the central concepts of modern times
