Batalden, 2013-03-14 Although biblical texts were known in Church Slavonic as early as the ninth century translation of the Bible into Russian came about only in the nineteenth century Modern scriptural translation generated major religious and cultural conflict within the Russian Orthodox church The resulting divisions left church authority particularly vulnerable to political pressures exerted upon it in the twentieth century Russian Bible Wars illuminates the fundamental issues of authority that have divided modern Russian religious culture Set within the theoretical debate over secularization the volume clarifies why the Russian Bible was issued relatively late and amidst great controversy Stephen Batalden s study traces the development of biblical translation into Russian and of the Bible wars that then occurred in the nineteenth and twentieth centuries in Russia The annotated

Handbook of Religious Culture in Nineteenth-Century Europe Anthony Steinhoff, Jeffrey Zalar, 2024-12-30 This

handbook offers a guide to research on religious culture during Europe's long nineteenth century 1800-1914. Grounded in the latest theoretical approaches and in line with trends that have produced a religious turn in the study of modern Europe, the volume assesses the state of the field while making provocative recommendations for its enlargement. Unique and ambitious in its thematic breadth, it addresses the histories of all five of Europe's main religious traditions: Eastern Orthodox Christianity, Judaism, Islam, Protestantism, and Roman Catholicism, and brings these histories into comparative analysis. This analysis extends to a wide range of subjects from popular belief and practice, education and modern knowledge formation, and the arts to the intersections between religion and urbanization, civil society and politics, and missions and imperialism. It also evaluates recent developments in work on religion vis-à-vis both gender and nationalism, while calling attention to newer research that proposes secularism as a form of belief in its own right. Presenting the scholarship of eighteen leaders in their respective fields, the volume explains why religion as a topic of research has moved from the periphery to the center of modern European historiography.

Biblical Translation in Chinese and Greek Toshikazu Foley, 2009-09-30. This study integrates three independent subjects: translation theory, Mandarin aspect, and Greek aspect for the purpose of formulating a working theory applicable to translating the Bible. The primary objectives are defined in terms of grammatical translation of Greek aspect into Mandarin aspect at the discourse level. A historical overview of the Chinese Bible is provided as a way of introducing major translation issues related to linguistic, conceptual, and logistical challenges. The proposed theory provides the translator with a powerful tool which is tested in two sample passages from John 18:19 and 1 Corinthians 15. Provided also are critical reviews of over sixty Chinese Bible versions, Nestorian, Manichaean, Catholic documents, and a translation written according to the proposed theory.

Cultural Exchanges in the Eastern Mediterranean Stelios Irakleous, Michalis N. Michael, Athanasios Koutoupas, 2022-07-06. The movement of people and objects has always stood at the heart of attempts to understand the course and processes of human history. The history of the Mediterranean is particularly abundant when it comes to issues of migration, colonisation, and trade, initiating thus archaeological, historical, linguistic, and cultural discussions. This collection highlights the richness and depth of the multifaceted cultural exchanges of the region and focuses on underrepresented aspects of cultural exchanges in the Mediterranean, with Cyprus having a central role as a crossroads. It responds to the challenge of linking the study of everyday life at the micro level to macro-scale narratives based on trans-regional engagement.

A History of Modern Translation Knowledge Lieven D'hulst, Yves Gambier, 2018-06-28. A History of Modern Translation Knowledge is the first attempt to map the coming into being of modern thinking about translation. It breaks with the well-established tradition of viewing history through the reductive lens of schools, theories, turns, or interdisciplinary exchanges. It also challenges the artificial distinction between past and present and it sustains that the latter's historical roots go back far beyond the 1970s. Translation Studies is but part of a broader set of discourses on translation; we propose to label translation knowledge. This book concentrates on seven processes that make up the history of modern

translation knowledge generating mapping internationalising historicising analysing disseminating and applying knowledge All processes are covered by 58 domain experts and allocated over 55 chapters with cross references This book is indispensable reading for advanced Master and PhD students in Translation Studies who need background information on the history of their field with relevance for Europe the Americas and large parts of Asia It will also interest students and scholars working in cultural and social history

Sugirtharajah, 2023 The Oxford Handbook of Postcolonial Biblical Criticism is a comprehensive treatment of a relatively new form of scholarship Generally speaking postcolonialism aims to critique and dismantle hegemonic worldviews and power structures while giving voice to previously marginalized peoples and systems of thought This approach has inevitably engaged with the text and reception of the Bible a scripture that Western colonizers introduced to and often imposed upon their colonial subjects With a globally diverse list of contributors the Handbook aims to cover the perspective and context of the authors of the Bible as well as the modern experiences of imperialism resistance decolonization and nationalism

Reading Christian Scriptures in China Chloe Starr, 2008-04-02 This volume sets out to examine how Christian scriptures have been read within a Chinese reading tradition and to assess what questions such readings pose for both theologians and Chinese studies specialists The absence to date of publications on the topic and the scattered nature of such research and of scholars in the field makes this an important contribution to debate The volume gathers essays from Biblical studies experts together with theologians and Chinese text scholars to discuss the interdisciplinary questions raised Essays from mainland Taiwanese and diasporic Chinese scholars ensure that a range of opinions including those reflecting fault lines between academic and confessional positions are presented Within the four sections of the volume several papers discuss and correct the current lineage of historical readings while others study the historical impact of the Bible in Chinese society Four essays give contextual or cross cultural readings with a focus on individual exegetes mainly from the early twentieth century The power of performance is raised in two essays one comparative paper on Christian and Buddhist scriptures from the Qing dynasty and one on the singing of psalms in modern day Taiwan and Macao Moral questions preoccupy others including the challenges that early Chinese converts found in Biblical laws or Christian guidance on concubinage and extrinsic readings of the Sermon on the Mount
