## **Space The Freemarket Frontier:**

Toward Liberty David Boaz, Edward Lee Hudgins, 2002 Space deals with the issues involved in opening space to private travel and more commercial ventures      **Property, Place and Piracy** Martin Fredriksson, James Arvanitakis, 2017-10-12 This book takes the concept of piracy as a starting point to discuss the instability of property as a social construction and how this is spatially situated Piracy is understood as acts and practices that emerge in zones where the construction and definition of property is ambiguous Media piracy is a frequently used example where file sharers and copyright holders argue whether culture and information is a common resource to be freely shared or property to be protected This book highlights that this is not a dilemma unique to immaterial resources concepts such as property ownership and the rights of use are just as diffuse when it comes to spatial resources such as land water air or urban space By structuring the book around this heterogeneous understanding of piracy as an analytical perspective the editors and contributors advance a trans disciplinary and multi theoretical approach to place and property In doing so the book moves from theoretical discussions on commons and property to empirical cases concerning access to and appropriation of land natural and cultural resources The chapters cover areas such as maritime piracy the philosophical and legal foundations of property rights mining and land rights biopiracy and traditional knowledge indigenous rights colonization of space military expansionism and the enclosure of urban space This book is essential reading for a variety of disciplines including indigenous studies cultural studies geography political economy law environmental studies and all readers concerned with piracy and the ambiguity of property

**Realizing Tomorrow** Chris Dubbs, Emeline Paat-Dahlstrom, 2020-04-01 U S A F Chief of Staff 2013 Professional Reading List Selection Nearly forty years passed between the Apollo moon landings the grandest accomplishment of a government run space program and the Ansari X PRIZE winning flights of SpaceShipOne the greatest achievement of a private space program Now as we hover on the threshold of commercial spaceflight authors Chris Dubbs and Emeline Paat Dahlstrom look back at how we got to this point Their book traces the lives of the individuals who shared the dream that private individuals and private enterprise belong in space Realizing Tomorrow provides a behind the scenes look at the visionaries the crackpots the financial schemes the legal wrangling the turf battles and underpinning the entire drama the overwhelming desire of ordinary people to visit outer space A compelling story of the pioneers of commercial spaceflight and their efforts to open the final frontier to everyone this book traces the path to private spaceflight even as it offers an instructive entertaining and cautionary note about its future      **Spaces for the Future** Joseph C. Pitt, Ashley Shew, 2017-08-09 Focused on mapping out contemporary and future domains in philosophy of technology this volume serves as an excellent forward looking resource in the field and in cognate areas of study The 32 chapters all of them appearing in print here for the first time were written by both established scholars and fresh voices They cover topics ranging from data discrimination and engineering design to art and technology space junk and beyond Spaces for the Future A Companion to Philosophy of Technology is structured in six

parts 1 Ethical Space and Experience 2 Political Space and Agency 3 Virtual Space and Property 4 Personal Space and Design 5 Inner Space and Environment and 6 Outer Space and Imagination The organization maps out current and emerging spaces of activity in the field and anticipates the big issues that we soon will face

**Fantasy and Social Movements** J. Ormrod, 2014-09-29 It is sometimes assumed that fantasizing stands in contrast to activism This book however argues that fantasy plays a central role in social movements Drawing on psychoanalysis and psychosocial theories Fantasy and Social Movements examines the relationships between fantasy reality action the unconscious and the collective

**Assessing a Mars Agreement Including Human Settlements** Annette Froehlich, 2021-05-15 This book is dedicated to the nascent discussion of the legal aspects of human exploration and possible settlement of Mars and provides fresh insights and new ideas in two key areas The first one revolves around the broader aspects of current space law such as intellectual property rights in outer space the legal implications of contact with extra terrestrial intelligence legal considerations around the freedom of exploration and use and the International Space Station agreement as a precedent for Mars The second one focuses on the creation and management of a new society on Mars and includes topics such as human reproduction and childbirth the protection of human rights in privately funded settlements legal aspects of a Martian power grid and criminal justice on the red planet With multiple national space agencies and commercial enterprises focusing on Mars it is more than likely that a human presence will be established on the red planet in the coming decades While the foundation of international space law laid primarily by the Outer Space Treaty remains the framework within which humans will engage with Mars new and unforeseen challenges have arisen driven particularly by the rapid pace of technological advancement in recent years To ensure that space law can keep up with these developments a new scholarly work such as the present one is critical By bringing together a number of fresh international perspectives on the topic the book is of interest to all scholars and professionals working in the space field

**In Pursuit of an Entrepreneurial Culture** Raushan Gross, 2022-08-03 This book describes several vital principles of what constitutes an entrepreneurial culture The most important principle of an entrepreneurial culture is that entrepreneurship is for everyone and people can assume the economic function of the entrepreneur easier than ever before in human history Further the market institutions allow everyone to participate in the marketplace Human interaction and cooperation are the essences of entrepreneurship carried out in the marketplace This book casts light on the most critical fact entrepreneurship is for the few the wealthy or the lucky This book debunks those narratives by explaining that entrepreneurship can be for anybody for real people in the real world Entrepreneurship is the cornerstone for the making of any society it is within human nature to cooperate and do good through the marketplace mechanisms An entrepreneurial culture grows out of the act of human cooperation

Tackling Tomorrow Today Arthur B. Shostak, 2005 Contains fourteen essays discussing major scientific and technological challenges and issues the United States will face in the coming century

**Space** Edward Lee Hudgins,David Boaz,2002 In Space The Free Market Frontier

leading experts analyze how we can move from the current situation of limited access to space and truly make space a place where people can work play and live This book considers how we arrived at our current situation what signs hold the promise of a free market future and which policy changes might enable space to become the next free market frontier     **Societal Impact of Spaceflight** Steven J. Dick,2007     **Encyclopedia of Business in Today's World** Charles Wankel,2009-06-12

Serving as a general nontechnical resource for students and academics these volumes provide an understanding of the development of business as practiced around the world     **Uprootings/Regroundings** Sara Ahmed,Claudia Castada,Anne-Marie Fortier,Mimi Sheller,2020-08-05 New forms of transnational mobility and diasporic belonging have become emblematic of a supposed global condition of uprootedness Yet much recent theorizing of our so called postmodern life emphasizes movement and fluidity without interrogating who and what is on the move This original and timely book examines the interdependence of mobility and belonging by considering how homes are formed in relationship to movement It suggests that movement does not only happen when one leaves home and that homes are not always fixed in a single location Home and belonging may involve attachment and movement fixation and loss and the transgression and enforcement of boundaries What is the relationship between leaving home and the imagining of home itself And having left home what might it mean to return How can we re think what it means to be grounded or to stay put Who moves and who stays What interaction is there between those who stay and those who arrive and leave Focusing on differences of race gender class and sexuality the contributors reveal how the movements of bodies and communities are intrinsic to the making of homes nations identities and boundaries They reflect on the different experiences of being at home leaving home and going home They also explore ways in which attachment to place and locality can be secured as well as challenged through the movements that make up our dwelling places Uprootings Regroundings Questions of Home and Migration is a groundbreaking exploration of the parallel and entwined meanings of home and migration Contributors draw on feminist and postcolonial theory to explore topics including Irish Palestinian and indigenous attachments to soils of significance the making of and trafficking across European borders the female body as a symbol of home or nation and the shifting grounds of queer migrations and creole identities This innovative analysis will open up avenues of research an     **The Wild West** Will Wright,2001-08-09 Will Wright explores the continuing popularity of the myth of the Wild West demonstrating how as a cultural icon it speaks deeply to a desire for individualism and liberty The author discusses the myth through market and social theory     **Media, Spiritualities and Social Change** Stewart M. Hoover,Monica M. Emerich,2010-11-11 This book maps emergent global practices and discourses of mediated spiritualized social change Bringing together scholarly perspectives from around the world and across disciplines the authors explore how spiritualities express themselves through and with media from television to Internet from fashion to art murals as socially transforming voices and practices The very fluidity of the meaning of spirituality is part of its appeal it can service as easily as a reference to a perceived common essence of humanness as it

can work to legitimate market based practices While the involvement of spiritual life with social transformation is certainly not peculiar to contemporary societies what has changed is the upsurge of media in these matters In the specific case of religion globalization has unleashed a cascade of unexpected and unpredictable implications many of which are consequences of the media The authors here show ways in which media and spiritualities are engaged around the world in efforts to restructure paradigms institutions beliefs and practices to affect social change

**Selling the Free Market** James Arnt Aune, 2002-02-01 While accusations of political correctness are frequently raised against liberals there has been surprisingly little discussion of how conservatives foment the use of their own economically correct language In this engaging book James Arnt Aune examines how the rhetoric of the free market has become the everyday language of political debate in America and around the world He illuminates the inner logic of free market ideas using rhetorical theory as an analytical tool In the process Aune confronts head on what he sees as the most serious flaw of economic correctness its destructive impact on the lives of millions of working people and families

*Science Fiction, Critical Frontiers* NA, 2016-04-30 Science fiction has recently been identified as providing the narrative paradigm for postmodernity This volume of essays combines theoretical discussions of the nature of science fiction with specific studies of utopian and dystopian narratives Alongside of this the essays here address feminist and African American issues the envisioning of radical alternative realities and futures cyborgs cyberpunk and cyber space age and aging hybridity and monstrosity and contemporary society and the postmodern condition

Property Rights Walter E. Block, 2019-11-04 In this timely book Walter E Block uses classical liberal theory to defend private property rights Looking at how free enterprise capitalism and libertarianism are cornerstones of economically prosperous civilizations Block highlights why private property rights are crucial Discussing philosophy libertarian property rights theory reparations and other property rights issues this volume is of interest to academics students journalists and all those interested in this integral aspect of political economic philosophy
