**Disinformation** Donald A. Barclay, 2022-04-15 Does the idea of a world in which facts mean nothing cause anxiety Fear Maybe even paranoia *Disinformation The Nature of Facts and Lies in the Post Truth Era* cannot cure all the ills of a post truth world but by demonstrating how the emergence of digital technology into everyday life has knitted together a number of seemingly loosely related forces historical psychological economic and culture to create the post truth culture *Disinformation* will help you better understand how we got to where we now are see how we can move beyond a culture in which facts are too easily dismissed and develop a few highly practical skills for separating truth from lies *Disinformation* explains How human psychology the very way our brains work can leave us vulnerable to disinformation How the early visions of what a global computer network would and should be unintentionally laid the groundwork for the current post truth culture The ways in which truth is twisted and misrepresented via propaganda and conspiracy theories How new technology not only spreads disinformation but may also be changing the way we think The ways in which the economics of information and the powerful influence of popular culture have contributed to the creation of the post truth culture Unlike the far too numerous one sided politically ideological treatments of the post truth culture *Disinformation* does not seek to point the finger of blame at any individuals or groups instead its focus is on how a number of disparate forces have influenced human behaviors during a time when all of humanity is struggling to better understand and more effectively control for better or worse challenging new technologies that are straining the limits of human intellectual and emotional capacity
