Spain Beyond Myths Manuel Castells, 1992 *Myths and Legends Beyond Our Borders* Charles Montgomery Skinner, 1899

Spain, 1833-2002 Mary Vincent, 2007-12-06 This book provides a cultural history of Spanish politics from the civil war of 1833 to the Spanish adoption of the Euro in 2002 a period dominated for the most part by violent military interventions in the political process a succession of weak unstable but repressive governments and the ever present threat of rebellion from below and culminating in the victory and repressive dictatorship of General Franco Using a wide range of sources both textual and material Mary Vincent focuses on the question of how ordinary people came to identify themselves both as citizens and as Spaniards throughout this turbulent period She argues that a weak state rather than a weak sense of nation was the key to Spain s problematic development and that this is the key to explaining both the persistence of political violence and the strength of regional nationalism in modern Spain But as Vincent shows from the 1970s with modernization of the state and the introduction of democratic politics all Spaniards including Catalans and Basques enthusiastically adopted an additional identity that of Europeans And while questions over the territorial unity of the Spanish state have still not been wholly resolved nevertheless the political choices facing Spaniards today are very similar to those of other western European nations and Spanish singularity appears at last to be consigned to the past

Beyond the Spanish State R. Jones, 2000-09-25 Beyond the Spanish State is a well researched and accessibly written study of EU policy making in Spain From the fishermen in Andalusia fighting to protect their quotas to regional governments demanding a greater say in EU Structural Funds the book represents a masterful effort to delve deeper into the dynamic relations between central government and other actors in the domestic arena Conclusions most directly pertain to the case of Spain but nonetheless provide an insight into the broader EU framework

Beyond the Myth of Nationality Semin Suvarierol, 2007 *Spain Beyond Spain* Bradley S. Epps, Luis Fernández Cifuentes, 2005 Spain Beyond Spain Modernity Literary History and National Identity is a collection of essays in modern Spanish literary and cultural studies by sixteen specialists from Spain the United States and Great Britain The essays have a common point of origin a major conference entitled Espana fuera de Espana Los espacios de la historia literaria held in the spring of 2001 at Harvard University The essays also have a common focus the fate of literary history in the wake of theory and its attendant programs of inquiry most notably cultural studies post colonial studies new historicism women s studies and transatlantic studies Their points of arrival however vary significantly What constitutes Spain and what counts as Spanish are primary concerns subtending related questions of history literature nationality and cultural production Brad Epps is Professor of Romance Languages and Literatures and of the Committee on Degrees in Women s Gender and Sexuality Studies at Harvard University Luis Fernandez Cifuentes is Robert S and Ilse

Inquisition Gretchen D. Starr-LeBeau, 2023-07-03 Gretchen Starr LeBeau's *Seven Myths of the Spanish Inquisition* provides an excellent introduction to Habsburg Spain's most reviled and misunderstood institution. Drawn from archival sources and modern scholarship, this concise study presents the long and tortured history of the Spanish Inquisition in an accessible format for readers interested in the intersection of religion and jurisprudence. Addressing common misconceptions about the procedures, effectiveness, and reach of the Inquisition, this work argues convincingly for an updated assessment encompassing change over time and variations across Spain and its empire. Students of the early modern period will benefit from the volume's logical organization, glossary of terms, and suggestions for further reading. Benjamin Ehlers, University of Georgia

The Art of Time Nina L. Molinaro, 2019-07-12 Ethics or the systematized set of inquiries and responses to the question "what should I do" has infused the history of human narrative for more than two centuries. Academicians and journalists in Spain and abroad have recently fastened on an emerging cluster of peninsular writers who they argue pertain to a discernible literary generation provisionally referred to as Generación X. This book studies Levinas's ethics and these contemporary Spanish writers who trace the temporal movement of alterity through narrative. *The Conversos and*

Moriscos in Late Medieval Spain and Beyond Kevin Ingram, 2009 Converso and Morisco are the terms applied to those Jews and Muslims who converted to Christianity mostly under duress in late medieval Spain. *Converso and Moriscos: Studies* examines the manifold cultural implications of these mass conversions. *The Foreign Policies of the EU's Mediterranean States and Applicant Countries in the 1990's* Theodore Coulombis, Stelios Stavridis, Thanos Veremis, Neville

Waites, 2016-07-27 The book analyses the foreign policies of EU Mediterranean states and applicants in the context of wider EU Mediterranean relations. It provides a unique comparative analysis of current members and applicant Mediterranean states in the 1990s at a time when EU processes of enlargement and integration raise fundamental needs to define interests of the EU in its Southern and Eastern relationships. *Myth and Identity in the Epic of Imperial Spain* Elizabeth B.

Davis, 2000 The first in-depth analysis of some of the most important epic poems of the Spanish Golden Age. *Myth and Identity in the Epic of Imperial Spain* breathes new life into five of these long neglected texts. Elizabeth Davis demonstrates that the epic must not be overlooked for doing so creates a significant gap in one's ability to appraise not only the cultural practice of the imperial age but also the purest expression of its ideology. Davis's study focuses on heroic poetry written from 1569 to 1611, including Alonso de Ercilla's *La Araucana*, undeniably the most significant epic poem of its time. Also included are Diego de Hojeda's *La Christiada*, Juan Rufo's *La Austriada*, Lope de Vega's *Jerusalén Conquistada*, and Cristóbal de Virués's *Historia del Monserrate*. Examining these epics as the major site for the construction of cultural identities and Renaissance nationalist myths, Davis analyzes the means by which the epic constructs a Spanish sense of self. Because this sense of identity is not easily susceptible to direct representation, it is often derived in opposition to an other which serves to reaffirm Spanish

cultural superiority The Spanish Christian caballeros are almost always pitted against Amerindians Muslims Jews or other adversaries portrayed as backward or heathen for their cultural and ethnic differences The pro Castilian elite of sixteenth century Spain faced the daunting task of constructing unity at home in the process of expansion and conquest abroad yet ethnic and regional differences in the Iberian Peninsula made the creation of an imperial identity particularly difficult The epic as Davis shows strains to convey the overriding image of a Spain that appears more unified than the Spanish empire ever truly was An important reexamination of the Golden Age canon Myth and Identity in the Epic of Imperial Spain brings a new twist to the study of canon formation While Davis does not ignore more traditional approaches to the literary text she does apply recent theories such as deconstruction and feminist criticism to these poems resulting in an innovative examination of the material Confronting such issues as canonicity gender the relationship between literature and Golden Age culture and that between art and power this publication offers scholars a new perspective for assessing Golden Age and Transatlantic studies

Beyond the Myth Jayati Bhattacharya, 2003-08-01 This book is a macro study of Indian business communities in Singapore through different phases of their growth since colonial times It goes beyond the conventional labour history approach to study Indian immigrants to Southeast Asia both in terms of themselves and their connections with the peoples movements It looks at how Indian business communities negotiated with others in the environments in which they found themselves and adapted to them in novel ways It especially brings into focus the patterns and integration of the Indian networks in the large scale transnational flows of capital one of the least studied aspects of the diaspora history in this part of the world The complexities and overlapping interests of different groups of traders and businessmen form an interesting study of various aspects of these trading bodies their methods of operation and their trade links both within and outside Singapore The book also charts their mobility and progress in terms of both business and social status The research aims to construct linear threads of linkages through generations and situate them in the larger framework and broader paradigms of business networks in Singapore In shedding light on aspects of Indian connectivities to Southeast Asia the narrative is particularly relevant in the context of India's economic rise This study raises economic social and cultural issues regarding the transition

The Eve of Spain Patricia E. Grieve, 2020-03-03 The Eve of Spain demonstrates how the telling and retelling of one of Spain's founding myths played a central role in the formation of that country's national identity King Roderigo the last Visigoth king of Spain rapes or possibly seduces La Cava the daughter of his friend and counselor Count Julian In revenge the count travels to North Africa and conspires with its Berber rulers to send an invading army into Spain So begins the Muslim conquest and the end of Visigothic rule A few years later in Northern Spain Pelayo initiates a Christian resistance and starts a new line of kings to which the present day Spanish monarchy traces its roots Patricia E Grieve follows the evolution of this story from the Middle Ages into the modern era as shifts in religious tolerance and cultural acceptance influenced its retelling She explains how increasing anti-Semitism came to be woven into the tale during the Christian

conquest of the peninsula in the form of traitorous Jewish conspirators In the sixteenth century the tale was linked to the looming threat of the Ottoman Turks The story continued to resonate through the Enlightenment and into modern historiography revealing the complex interactions of racial and religious conflict and evolving ideas of women s sexuality In following the story of La Cava Rodrigo and Pelayo Grieve explains how foundational myths and popular legends articulate struggles for national identity She explores how myths are developed around few historical facts how they come to be written into history and how they are exploited politically as in the expulsion of the Jews from Spain in 1492 followed by that of the Moriscos in 1609 Finally Grieve focuses on the misogynistic elements of the story and asks why the fall of Spain is figured as a cautionary tale about a woman s sexuality

Urban Space, Identity and Postmodernity in 1980s Spain Marite Usoz de la Fuente, 2017-07-05 During the 1980s the urban youth movement known as la movida transformed the Spanish cultural landscape particularly in the country s capital Madrid After a four decade long dictatorship artists and thinkers sought to make the most of their newly found freedoms The vibrancy optimism and aesthetic heterogeneity of the period are best captured in contemporary ephemera in the fanzines and magazines that provided movida participants with an immediate and largely unmediated outlet for their creative experiments Among them monthly arts magazine La Luna de Madrid is arguably the most iconic and its preoccupation with urban space identity and postmodernity suggests that la movida was indeed more than just a teardrop in
