Almaráz, 1989-01-01 San Antonio Texas is unique among North American cities in having five former Spanish missions San Antonio de Valero The Alamo founded in 1718 San Jos y San Miguel de Aguayo 1720 Nuestra Señora de la Purísima Concepción de Acuña 1731 San Juan Capistrano 1731 and San Francisco de la Espada 1731 These missions attract a good deal of popular interest but until this book they had received surprisingly little scholarly study The San Antonio Missions and Their System of Land Tenure a winner in the Presidio La Bahía Award competition looks at one previously unexamined aspect of mission history the changes in landownership as the missions passed from sacred to secular owners in the late eighteenth and early nineteenth centuries Drawing on exhaustive research in San Antonio and Bexar County archives Félix Almaráz has reconstructed the land tenure system that began with the Spaniards' jurisprudential right of discovery and progressed through colonial development culminating with ownership of the mission properties under successive civic jurisdictions independent Mexico Republic of Texas State of Texas Bexar County and City of San Antonio Several broad questions served as focus points for the research What were the legal bases for the Franciscan missions as instruments of the Spanish Empire What was the extent of the initial land grants at the time of their establishment in the eighteenth century How were the missions' agricultural and pastoral lands configured And finally what impact has urbanization had upon the former Franciscan foundations The findings in this study will be valuable for scholars of Texas borderlands and Hispanic New World history Additionally genealogists and people with roots in the San Antonio missions area may find useful clues to family history in this extensive study of landownership along the banks of the Rio San Antonio [Spanish Mission Records at San Antonio, Vol. 10 \(Classic Reprint\)](#) Herbert E. Bolton, 2015-08-05 Excerpt from *Spanish Mission Records at San Antonio Vol 10* Students of Spanish American history will ever be grateful for the detailed and painstaking way in which most Spanish officials kept the records of their acts This excellence of the surviving materials left by them serves to increase our regret for the loss of those that have been destroyed or have otherwise disappeared A case in point is furnished by the records of the Franciscan missions founded and conducted during the Spanish regime in Texas For while a small quantity of precious mission records are still available the larger portion of what we know must have

existed at one time has disappeared from present view To say that they are irrevocably lost is unsafe except where there is positive proof of destruction for they may unexpectedly come to light in some out of the way corner or some unexplored repository There is good reason to hope indeed that when the archives of Mexico and Spain have been duly searched much of the missing material for the history of these interesting institutions will be recovered It is not my purpose here to speculate as to what materials exist elsewhere but rather to describe briefly the small collection that is now the property of the San Antonio diocese of the Catholic Church and is in the custody of the Right Rev Bishop Forest Though the collection is small it contains besides important material for the history of Texas missions ethnological data that may in the last resort be our only clue to the classification of a number of native Southwestern tribes whose racial affiliation would otherwise remain forever unknown This collection is private property is guarded with care by the custodian and properly is made available for use only under the strictest safeguards It is highly desirable however that records such as these which if once destroyed could never be replaced should be stored in a fireproof building beyond the danger of destruction About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
