International Cooperation Against All Odds Mai'a K. Davis Cross,2023-10-19 International Cooperation Against All Odds The Ultrasocial World recasts how we understand international relations through an examination of how the human evolutionary predisposition to be ultrasocial as a species impacts which political ideas succeed transform manipulate and inspire on a global scale At a time when pessimism about our current world order is at an all time high this book overturns widespread assumptions that international relations is mainly about conflict power and national self interest In the last 10 20 years scientists have discovered that as a species we are biologically hard wired soft wired and pre wired to be other regarding and cooperative Humans are an ultrasocial species and yet this predisposition is completely ignored in governments across the world Political leaders experts and the media have cultivated a myopic vision of global conflict feeding an obsession on crises of the moment rather than recognizing frequent and significant breakthroughs in peaceful cooperation and overall trends in the decline of violence This book shows how time and time again our ultrasocial predisposition has pushed us towards big ideas that inspire and bring us together around the power of possibility Featuring original research on international cooperation in outer space exploration European Union integration nuclear weapons and climate change among other examples Mai a K Davis Cross shows ultrasociality at work in a range of contexts Tracing the path from social neuroscience and evolutionary biology among others to the power of ideas to international agreements International Cooperation Against All Odds opens up an entirely new understanding of world politics If we recognize our

nature as a species and the potential we have to work together we can start to transform institutions and devise policies that take advantage of this The book ends with a roadmap to promote more international cooperation and eventually a more stable peaceful world order **Catalog of Copyright Entries.
