with children and young people encourage inspire and educate the younger generation and contribute to their sense of  
identity The author s approach can be applied in different cultural settings and both outlines and affirms an active role for  
older people in the community It also provides useful historical background on the migration of people coming from the  
Caribbean to Britain Containing case studies it is a practical and reflective resource for religious professionals social workers

*Displacing the Anxieties of Our World* Ildikó Limpár,2017-01-06 Monster studies dystopian literature and film studies  
have become central to research on the now proliferating works that give voice to culture specific anxieties This new  
development in scholarship reinforces the notion that the genres of fantasy and science fiction call for interpretations that  
see their spaces of imagination as reflections of reality not as spaces invented merely to escape the real world In this vein  
*Displacing the Anxieties of Our World* discusses fictive spaces of literature film and video gaming The eleven essays that  
follow the Introduction are grouped into four parts I Imagined Journeys through History Gaming and Travel II Political  
Anxieties and Fear of Dominance III The Space of Fantastic Science and Scholarship and IV Spaces Natural and Spaces  
Artificial The studies produce a dialogue among disciplinary fields that bridges the imagined space between sixteenth  
century utopia and twenty first century dystopia with analyses penetrating fictitious spaces beyond utopian and dystopian  
spheres This volume argues consequently that the space of imagination that conjures up versions of the world s frustrations  
also offers a virtual battleground and the possibility of triumph coming from a valuable gain of cognizance once we perceive  
the correspondence between spaces of the fantastic and those of the mundane
