

SPATIAL INEQUALITY OCCURS AT MANY SCALES

Across states

In West Virginia, more than 30 percent of prime working age adults were out of the labor force—the highest share nationwide—even when the country was approaching the peak of the last economic expansion. That was more than double the share in North Dakota, the best-performing state.

Across the rural-urban continuum

By 2019, employment and prime-age labor force participation in non-metropolitan counties had still not recovered to levels from before the Great Recession. Meanwhile, employment in urban areas had fully rebounded and grown by an additional 9 percent.

Across counties

From 1970 to 1980, total personal income grew by 169 percent for the country as a whole and even faster for over 60 percent of counties. From 2010 to 2018, personal income grew by only 42 percent nationally and faster in only 17 percent of counties.

Across zip codes

Since 2000, the top one-fifth of zip codes in terms of economic well-being have captured more than three-fifths of total job growth.

Spatial Inequality And Development:

Spatial Inequality and Development S. M. Ravi Kanbur, Anthony J. Venables, 2005 This is an introduction to spatial and regional inequality Drawing on data from 25 countries from around the world it examines the questions What exactly is spatial inequality Why does it matter And what should be the policy response to it Provided by publisher Spatial Inequality and Development S. M. Ravi Kanbur, 2005 **Spatial Inequality and Development** Christian Lessmann, 2011

Spatial Inequality and Development in Asia Ravi Kanbur, Anthony J. Venables, Guanghua Wan, 2005 **Special Issue: Spatial Inequality and Development in Asia** Ravi Kanbur, Anthony J. Venables, Guanghua Wan, 2005 **Introduction to the Special Issue** Ravi Kanbur, Anthony J. Venables, Guanghua Wan, 2005 **Spatial Inequality and Development** World Institute for Development Economics Research, 2005 Spatial Inequality and Development in Central Asia Kathryn Anderson, Richard William Thomas Pomfret, United Nations University. World Institute for Development Economics Research, 2004 Spatial Inequality and Development Weng Hui Cong Shue, 1985 *Spatial Disparities in Human Development* S. M. Ravi Kanbur, Anthony Venables, Guang Hua Wan, 2006 Focuses on issues of poverty and inequality that are directly related to the Millennium Development Goals This book addresses a range of issues including interlinkages between conflict and inequality poverty mapping and the causes and consequences of inequality **Spatial Inequality and Economic Development** Sukkoo Kim, 2008 Spatial inequality is an important feature of many developing countries that seems to increase with economic growth and development At the same time there seems to be little consensus on the causes of spatial inequality and on a list of effective policy instruments that may foster or reduce spatial inequality This paper examines the theoretical and empirical literature on spatial inequality to learn what we know and do not know about the causes of spatial inequality to investigate what policies may or may not ameliorate spatial inequality and to determine whether policy makers can identify and implement policies that promote or reduce spatial inequality **Exploring Sustainable Development** Martin Purvis, Alan Grainger, 2013-06-17 Sustainable development is capturing the attention of planners politicians and business leaders Within the academic sphere its study is increasingly breaching disciplinary boundaries to become a focus of attention for natural and social scientists alike But in studying such a key concept it is vital that there is a clear definition of what it means how it is applied on the ground and the influence it exerts upon people's perceptions of change in the physical environment economic activity and society Exploring Sustainable Development is a major new text which provides a multifaceted introduction to key areas of study in this field examining sustainability at the full range of spatial scales from the local to the global Building on existing theory it demonstrates the unique contributions that thinking geographically about space place and human environment relationships can bring to the analysis of sustainable development This book explores different interpretations of sustainable development in both theory and practice in developed and developing countries and in rural and urban areas It pays particular attention to the local national and

international politics of implementation the future of climate and energy the role of business and different conceptions of agricultural sustainability This wide ranging text is ideal for undergraduates and postgraduates in geography environmental science development studies and related social and political sciences Urbanization and Growth Michael Spence, Patricia Clarke Annez, Robert M. Buckley, 2008-11-26 Why is productivity higher in cities Does urbanization cause growth or does growth cause urbanization Do countries achieve rapid growth or high incomes without urbanization How can policy makers reap the benefits of urbanization without paying too high a cost Does supporting urbanization imply neglecting rural areas Why do so few governments welcome urbanization What should governments do to improve housing conditions in cities as they urbanize Are innovations in housing finance a blessing or a curse for developing countries How will governments finance the trillions of dollars of infrastructure spending needed for cities in developing countries First in a series of thematic volumes this book was prepared for the Commission on Growth and Development to evaluate the state of knowledge of the relationship between urbanization and economic growth It does not pretend to provide all the answers but it does identify insights and policy levers to help countries make urbanization work as part of a national growth strategy It examines a variety of topics the relevance and policy implications of recent advances in urban economics for developing countries the role of economic geography in global economic trends and trade patterns the impacts of urbanization on spatial inequality within countries and alternative approaches to financing the substantial infrastructure investments required in developing country cities Written by prominent academics in their fields *Urbanization and Growth* seeks to create a better understanding of the role of urbanization in growth and to inform policy makers tackling the formidable challenges it poses

The Sociology of Spatial Inequality Linda M. Lobao, Gregory Hooks, Ann R. Tickamyer, 2007-05-10 A sociological look at the role of space in inequality Equality and Sustainable Human Development - Issues and Policy Implications Dr.K Sivachithappa, 2014-05-17 Equality and Sustainable Human Development is the need of our under Globalisation This volume is useful to Social Sciences Commerce and General Readers in Particular *Geography, Capacity, and Inequality* Pablo Beramendi, Melissa Rogers, 2022-06-09 In this Element we investigate how economic geography the distribution of subnational economic endowments within a nation shapes long run patterns of inequality through its impact on the development of fiscal capacity We present an argument that links economic geography to capacity through different types of industrialization processes We show how early industrializers shape spatial distributions domestically by investing in productivity across their nations and externally by reinforcing spatial polarization among late industrializers We also show how differences in economic geography impact the process of capacity building setting the stage for the modern politics of redistribution discussed in Volume II We support this argument with descriptive data case studies and cross national analyses *Geographically Uneven Development : on the Origins and Implications of Spatial Inequality in Africa* ,1979

Economic Growth and Poverty Reduction in Sub-Saharan Africa Andrew McKay, Erik Thorbecke, 2015-10-29 After many

years of disappointing performance Sub Saharan Africa has shown impressive growth performance since the start of the millenium However the impact of this on poverty reduction is still not well understood and this led the African Economics Research Consortium in Nairobi to undertake a major collaborative research project on the linkages between growth and poverty reduction in Sub Saharan Africa This volume is based on research undertaken by world leading researchers on major issues influencing the extent to which growth can translate into poverty reduction The volume includes two review chapters on the impact of growth on poverty reduction and on the impact of widespread poverty on economic growth and argues that both relationships are important for understanding how growth and poverty reduction interact The volume focuses in detail on the role of agriculture the labour market the informal sector the industrial sector the global context and macroeconomic issues All chapters comprise an extensive review of the existing literature and highlight new and important directions As more information on the evolution of poverty and living conditions in Sub Saharan Africa emerge this volume is important in helping to interpret and explain that evidence , **The Oxford Handbook of Urban Economics and Planning** Nancy Brooks,Kieran Donaghy,Gerrit-Jan Knaap,2012-01-12 This volume embodies a problem driven and theoretically informed approach to bridging frontier research in urban economics and urban regional planning The authors focus on the interface between these two subdisciplines that have historically had an uneasy relationship Although economists were among the early contributors to the literature on urban planning many economists have been dismissive of a discipline whose leading scholars frequently favor regulations over market institutions equity over efficiency and normative prescriptions over positive analysis Planners meanwhile even as they draw upon economic principles often view the work of economists as abstract not sensitive to institutional contexts and communicated in a formal language spoken by few with decision making authority Not surprisingly papers in the leading economic journals rarely cite clearly pertinent papers in planning journals and vice versa Despite the historical divergence in perspectives and methods urban economics and urban planning share an intense interest in many topic areas the nature of cities the prosperity of urban economies the efficient provision of urban services efficient systems of transportation and the proper allocation of land between urban and environmental uses In bridging this gap the book highlights the best scholarship in planning and economics that address the most pressing urban problems of our day and stimulates further dialog between scholars in urban planning and urban economics
